PREFATORY REMARKS.

- 1. Scope and object of the Report.—This volume deals with 'Civil' expenditure of the Government of India, Appropriation Accounts and Audit Reports for Defence Services, Posts and Telegraphs and Railway expenditure being dealt with in separate volumes prepared by other authorities. Its object is to present the audited accounts of the year, with respect to the expenditure, whether voted or non-voted, with which it deals, in the form of a separate appropriation account for each grant or appropriation with any important observations which it is considered necessary to make as a result of audit investigation. It is transmitted by the Auditor General in India with his comments thereon, to the Governor General in Council to be laid before the Public Accounts Committee of the Legislative Assembly. A copy is also forwarded by the Auditor General to the Secretary of State through the Governor General in Council, as required by statutory rules, with his comments on the Report and other comments of a general nature.
- 2. The material is a consolidation of accounts and comments supplied by various audit and accounting authorities in India and England. In order to provide a co-ordinating influence and secure a certain uniformity of treatment, the Accountant General, Central Revenues, has been authorised to edit or omit material furnished to him by other audit authorities.
- 3. Reviews of certain commercial concerns of the Government of India are dealt with in a "Commercial Appendix" which has been printed separately.

Chapter I of that Appendix contains introductory explanations of certain terms in ordinary use in commercial accounting as well as of the special features of that system of accounting as actually applied to Government concerns.

4. Constitution and functions of the Committee on Public Accounts.—This Committee is a statutory body constituted in pursuance of Rule 51 of the Indian Legislative Rules, for the purpose of dealing with this Report and the appended Appropriation Accounts of the Governor General in Council and such other matters as the Finance Department may refer to it. It consists of not more than twelve members, including the Chairman, of whom not less than two-thirds are elected by the non-official members of the Legislative Assembly and the remaining members are nominated by the Governor General. The Hon'ble the Finance Member is the Chairman of the Committee and in the case of an equality of votes on any matter, has a second or casting vote. The Auditor General in India and certain audit officers are usually invited to assist in the deliberations of the Committee.

In scrutinising the Accounts and the Report it is the duty of the Committee to satisfy itself that the money voted by the Assembly has been spent within the scope of the demand granted by the Assembly. It is also the duty of the Committee to bring to the notice of the Assembly—

- (a) every reappropriation from one grant to another;
- (b) every reappropriation within a grant which is not made in accordance with the rules prescribed by the Finance Department;
- (c) all expenditure which the Finance Department has requested should be brought to the notice of the Assembly.

The main function of the Committee is to see how far the wishes of the Assembly are carried out in the matter of expenditure incurred. In performing this duty it has also to see that no expenditure is incurred on any new service for which provision was not made either in the original demand or in a supplementary demand voted by the Assembly, that there has been no extravagance, and that money set apart for one purpose has not been directed to another without the sanction of competent authority. It has been the practice for the Committee to take the evidence of departmental authorities to supplement its information on any point.

In dealing with the Accounts and the Report, the Committee is entitled to offer criticisms and recommendations upon any matter discussed therein or in the Auditor General's comments thereon, whether such matter concerns the accounts of expenditure, voted or non-voted, or those of receipts.

The Committee is not an executive body. It has no power, even after the most minute examination and on the clearest evidence, to disallow any item or to issue an order. It can only call attention to an irregularity or to failure to deal with it adequately, and express its opinion thereon and record its findings and recommendations.

Further details of the nature of the duties entrusted to the Committee, the manner in which those duties should be performed and the results which may be anticipated if those duties are performed efficiently, will be found in the "Memorandum on the work of the Public Accounts Committee in India " drawn up by the Auditor General in India, a few copies of which are placed in the Library of the Legislative Assembly for the use of the members of the Committee.

5. General.—It should be borne in mind while considering the Report, that whilst it is framed on the best information available and in the great majority of cases, after communication with the departments concerned, it is necessarily prepared before the departmental witnesses have been examined, and that it does not possess the same degree of authority or finality as the Report ultimately presented to the Legislature by the Committee on Public Accounts after hearing evidence on the points raised herein.

It should also be borne in mind that the cases of financial irregularity, apparently defective administration, etc., which are brought to notice in the Report represent only a small percentage of the total financial transactions of the year. The comments on such cases must not be understood as conveying any general reflection on the administration of public expenditure.

- 6. Distinction between matters relating to voted and non-voted subjects.—Non-voted figures in the appropriation accounts and in the statistics furnished in the Report have been printed in italics.
- 7. Demands for Grants.—Under the Government of India Act the proposals of the Governor General in Council in respect of moneys required for expenditure under certain heads are submitted to the vote of the Legislature. These proposals in connection with the votable part of the budget are presented in the form of demands which, when accepted, become grants available for expenditure within the scope of the demand. It is for the Hon'ble the Finance Member to settle the form in which the demands should be presented, but ordinarily a separate demand is proposed for each Department.

8. Appropriation Accounts.—For purposes of financial control, the grants sanctioned by the Legislative Assembly for voted expenditure and the appropriations made by the Finance Department for non-voted expenditure are divided into the sub-heads shown in the appropriation accounts. These accounts exhibit in detail the excesses and savings and the modification in the original grant or appropriation, under the individual sub-heads with reference to which financial control was exercised during the year.

In respect of voted grants, the figures in the statistical statements in Chapter III as well as those for excesses or savings in the appropriation account of each grant have been calculated with reference to the actual provision granted by the legislature without taking into account the amount of surrenders or withdrawals within the grant. On the other hand, such figures relating to non-voted appropriations have been worked out on the basis of the final appropriations as they stood after the modifications sanctioned by competent authorities during the course of the year.

Explanations of the more important excesses, savings and modifications have been inserted immediately below each sub-head of the accounts where necessary and possible. Attention is, however, invited in this connection to the remarks relating to the sub-heads "Pay of Officers," "Pay of Establishments" and "Loss or Gain by Exchange" in paragraphs 49 and 50 of Chapter III. In a few cases controlling officers have not accepted the figures for actual expenditure under certain sub-heads as exhibited in the accounts; the Report is based on the booked figures of the Account Offices and the explanations for the variations under the sub-heads concerned may require some modification as a result of information which may be placed before the Committee on Public Accounts by the official witnesses.

PART I.

Audit Report, 1937.

(Throughout this Report the amounts shown represent thousands of rupees unless the contrary is specifically indicated.)

CHAPTER, I.—CHANGES OF THE YEAR UNDER REPORT.

- 1. This chapter deals with the following classes of cases if they are of sufficient importance to justify mention in this Report:—
 - (1) Changes in the form of the Accounts or the Report, or in that of the demands, grants or appropriations;
 - (2) Changes in classification which have affected the accuracy of the budget or operated to hamper the control of expenditure in a marked degree; and
 - (3) other important account changes.

Changes in the form of the Accounts or the Report, etc.

- 2. General arrangement of the matter in the Report.—There has been no change in the form of the Appropriation Accounts and the Report as presented last year except the following. The adjusting sub-heads "Surrenders or withdrawals within Grant" and "Modifications within Grant" mentioned in paragraph 2 of the last Report have been divided where necessary, into "Gross" and "Deductions". In respect of Grants divided into 'Accounts', two new adjusting sub-heads "Surrenders or withdrawals within the Account" (with sub-divisions into "Gross" and "Deductions", where necessary) and "Transfers from or to other Accounts" have been opened. The object of these changes has been explained in Note 1 (b) on the covering page of Part II.
- 3. Changes relating to subsidiary accounts.—There has not been any change in the subsidiary accounts, except that the following four items appear for the first time in the Appropriation Accounts:—

Serial Grant to which the Particulars of the subsidiary accounts added. No. subsidiary account relates.

- 1 No. 48—Survey of India. A store account of maps published and stocked by the Survey of India Department at Dehra Dun.
- 2 No. 71—Currency . . A pro forma account of Surplus Silver Stock—
 - (a) Part I—Rupce coin (held in the custody of the Reserve Bank of India).
 - (b) Part II—Bullion (held at the Mints at Calcutta.
 and Bombay and by the Secretary of State for India).
- 3 Ditto . . An account for the Silver Redemption Reserve.
- 4 Ditto . An account for the Purchases and Sales of Silver.

The introduction of the accounts mentioned in Serial Nos. 2 to 4 above is the outcome of the establishment of the Reserve Bank of India with effect from the 1st April 1935.

(5)

4. Changes in the form of the demands, grants or appropriations.—Of the new grants introduced in 1934-35, four voted grants No. 63-A—Transfer to the Fund for the Development of Civil Aviation, No. 69-A—Transfer to the Fund for the Development of Broadcasting, No. 73-A—Transfer to the Road Development Fund Reserve and No. 76-D—Transfer to the Fund for Economic Developments and improvement of Rural areas do not appear this year, while three new voted grants, No. 69-B—Expenditure on the Development of Broadcasting met from the Fund, No. 76-E—Transfer to Fund for Sind and Orissa Buildings and No. 76-F—Transfer to the Revenue Reserve Fund have been opened this year.

The accounts of 90 voted grants and 6 non-voted appropriations are therefore dealt with in this volume, as compared with 91 voted grants and 6 non-voted appropriations in that of the previous year.

A list and index of the various grants and group appropriations will be found in the Grand Summary at the beginning of Part II of this volume.

Changes in classification which have affected the accuracy of the budget or operated to hamper the control of expenditure.

Changes in classification which have affected the accuracy of the budget.

5. Certain cases of this kind have been mentioned in sub-paragraphs (viii) and (ix) of paragraph 54 of Chapter III.

Other Important Account Changes.

- Changes in the classification of expenditure from voted to non-voted, from Central to Provincial and vice versa and from one grant to another.
- 6. Owing to the complete amalgamation, as a measure of economy, of the Salt and the Customs Department in Madras, under which members of the establishments of the Combined Department have become liable to perform the duties connected with both these Departments, a revised accounting procedure has been introduced from 1st April 1935. The expenditure relating to "Pay of Officers", "Pay of Establishments", "Allowances" and "Contingencies", etc. of the Combined Salt and Customs (Outports) Department is now booked under "3—Salt" (instead of 1—Customs and 3—Salt as done before the complete amalgamation of the Departments); the share debitable to the Customs Department is taken as a reduction of expenditure under this head (vide sub-heads A.13 and C. 5 under Grant No. 16—Customs and sub-head J. 10 under Grant No. 18—Salt).
- 7. In pursuance of clause (V) of Section 67-A (3) of the existing Government of India Act, the Governor General in Council decided to classify as "political" all expenditure on civil works in the Gilgit Agency, including the trans-Indus portion of the Gilgit Wazarat. Accordingly the expenditure previously classified as "41-Civil Works—Central—Voted" was classified as "41-Civil Works—Central—Non-voted" with effect from 1935-36 (Grant No. 73).

Changes in the major, minor and subordinate heads of the general accounts.

8. Following the commercialisation of the accounts of the Northern India Salt Revenue Department, it has been decided that expenditure in England relating to that Department which is finally booked in the Home Accounts should be adjusted in the Indian books by credit to the minor head, "Deduct—English cost of stores and establishment" under the major head "3—Salt" and a corresponding debit to the appropriate detailed head of charge (vide sub-head F under Grant No. 18-Salt).

- 9. It has been decided that the fees recovered from the Railways, the Defence Services and the Commercial Departments of the Central Government and from Provincial Governments for services rendered to them by the Indian Stores Department which were formerly adjusted as reduction of expenditure under "37-A—Indian Stores Department", (Grant No. 70) should, on a correct interpretation of the rules on the subject, be adjusted as receipts under the head "XXVI-A—Indian Stores Department".
- 10. Prior to 1935-36, the details of the expenditure relating to the Posts and Telegraphs Audit Offices under the several heads, such as, Pay of Officers, Pay of Establishments, etc., were booked in the Posts and Telegraphs Accounts. It has been decided that, with effect from the accounts for 1935-36, these details should, in the first instance, be booked in the accounts under the major head "23—Audit", (Grant No. 43), and the total expenditure so booked transferred in lump to the Posts and Telegraphs Accounts under the major head "XV—Posts and Telegraphs—Deduct—Working Expenses" under Grant No. 23. The above decision does not apply to the cost of repairs to the Posts and Telegraphs buildings occupied by the Posts and Telegraphs Audit offices and expenditure in England relating to Posts and Telegraphs audit, which continue to be booked directly in the Posts and Telegraphs Accounts.
- 11. Similarly, under the arrangements obtaining till the end of the year 1934-35, the expenditure on Railway Audit establishments was accounted for under the major head 12—Miscellaneous—Railway Expenditure—and was included in Demand No. 2—Railways. As this establishment constitutes an integral part of the Indian Audit Department under the administrative control of the Auditor General, it has been decided that, with effect from 1935-36, the expenditure on this establishment should be accounted for in detail under the major head "23—Audit" and included in the Civil Demand No. 43. A 'lump sum deduction is made in the Demand and also in the accounts, equal to this expenditure as recoverable from the Railway Department, so that the net cost to the Central Civil Estimates is nil. The expenditure so recoverable from the Railway Department is accounted for under "12—Miscellaneous—Railway Expenditure" in the Railway Accounts and included in Demand No. 2—Railways in the same detail in which it was presented formerly.
- 12. It has been decided that, with effect from 1st April 1935, the Posts and Telegraphs Department should bear the actual pensionary charges of its employees instead of paying a contribution to the General Revenues on a liability basis. In consequence of this decision, the commuted value of pensions relating to the Posts and Telegraphs Department, previously booked in the Central (Civil) Accounts under the capital major head 60-B—Commuted Value of Pensions, (Grant No. 96) is, with effect from 1935-36, being booked in the Posts and Telegraphs Accounts by opening this head with the necessary sub-heads. The net amount debited to this capital major head is to be repaid from the Posts and Telegraphs revenue by equated payments spread over a period of 15 years.
- 13. The contributions payable by the Commissioners for the Port of Calcutta towards the cost of the Port Health Department, Calcutta, which were being adjusted as deduction from expenditure [vide sub-head D. 3(5) under Grant No. 58—Public Health] are treated as receipts with effect from 1935-36.

- 14. In consequence of the constitution of the Reserve Bank of India with effect from the 1st April 1935, the charges on account of remittance of treasure and cost of currency note forms supplied by the Master, Security Printing, previously booked under major head "38—Currency" are, with effect from the 1st April 1935, being debited to the Reserve Bank of India.
- 15. The loss or gain in exchange in the payment of Provident Fund. Deposits and Gratuities in sterling by the Railway Department, which was adjusted in 1934-35 under the Deposit head "Exchange on Remittance Account" for subsequent adjustment under "XXXV or 47—Miscellaneous—Central"—was adjusted from 1935-36 in the Railway Grant, No. "6-G—Railways Revenue—Working Expenses—Miscellaneous Expenses".
- 16. The expenditure on the development of Civil Aviation was adjusted in 1934-35 under the major head "56-D—Capital Outlay on Civil Aviation". It has been decided, with the concurrence of the Secretary of State, that such expenditure will, with effect from 1935-36, be adjusted under the major head "36-A—Capital Outlay on Civil Aviation charged to Revenue" (vide Grant No. 63-B).
 - 17. The following minor heads have been opened in 1935-36:—
 - (1) Charges in connection with Excise Duty on Mechanical Lighters under "1—Customs" (Grant No. 16—Customs—sub-head F).
 - (2) Expenditure in connection with the celebration of His Majesty's. Silver Jubilee under "47—Miscellaneous" (Grant No. 76— Miscellaneous—sub-head K-7).
 - (3) Expenditure in connection with the Constitution of the new-Provinces of Orissa and Sind, under "47—Miscellaneous" (Grant No. 76—Miscellaneous—sub-head K.8).
 - (4) Grant to His Excellency the Viceroy's Quetta Earthquake Fund under the major head 52—Extraordinary charges (Grant No. 79—Account XIV, sub-head A).
- 18. It has been decided that the reserve provision for the service of New Loans hitherto shown under a separate sub-head A. 1 (2) in Grant No. 25 should, with effect from 1935-36, be amalgamated with sub-head A. 1 (1).—Interest on Permanent Debt. Accordingly no sub-head for the reserve provision appears in the appropriation account this year, though it appears in the Book of Demands.
- 19. Other changes of classification of minor importance are mentioned in the notes under the relevant accounts.

CHAPTER II.—FINANCIAL RESULTS, 1935-36.

Revenue Account.

20. The budget estimates of the Central Government for the year 1935-36 anticipated a revenue surplus of Rs. 6 lakhs after providing Rs. 3,00 lakhs for reduction or avoidance of Debt. The actual surplus of the year, however, proved to be Rs. 2,29 lakhs indicating a betterment of Rs. 2,23 lakhs over the estimates. Out of the actual surplus of Rs. 2,29 lakhs, a sum of Rs. 45 lakhs has been transferred to a special fund (Grant No. 76-E) for assisting the new provinces of Sind and Orissa to meet their expenditure on the adaptation of old and the provision of new official buildings, the balance of Rs. 1,84 lakhs being transferred to a deposit head "Revenue Reserve Fund" (Grant No. 76-F) for helping out the finances of the first year of Provincial Autonomy. In addition to the funds already constituted from the revenue surpluses of the years 1933-34 and 1934-35, as explained in paragraph 64 of Chapter III of the last Audit Report, these two funds have been created with the sanction of the Secretary of State, and their purpose was explained in detail by the Honourable the Finance Member in his speech introducing the budget proposals for the year 1936-37. The transactions relating to all the funds created from the revenue surpluses of the years 1933-36 are exhibited in paragraph 61 of Chapter III, the year of creation being indicated against each.

The results of the year's working may be summarised as follows:-

				(In lakhs of rupees.)

	mprov	mprovemen		towards Outlay on mprovement and

(a) The gross capital outlay during the year under report (Rs. 15,394) being less than the deduction for the year on account of depreciation (Rs. 1,05,641), the net expenditure was m nus Rs. 90,247.

(b) This capital head was opened from the accounts for 1931-32 for adjustment of payments of gratuities to retrenched personnel in connection with their trenchment programme of the Central Government and the payments recorded under this head are to be written back to revenue in five years commencing from the year succeeding the year of payment. The total payments during the year of deriveport were their tof the amount transferred to revenue, and the net expenditure so becomes a minus figure.

Debt Position.

22. The following statement shows the debt position of the Central Government at the beginning and close of the year 1935-36:—

Nature of Debt.							On 1st April 1935.	On 31st March 1936.	Difference (+ or —)
		(1)					(2)	(3)	(4) °
Ru	pee 1	Deht (i	n lakt	is).

23. It will be seen from the above statement that there has been a net reduction of the total of the outstanding debt during the year under review by Rs. 37,80 lakhs. There has also been a net increase of Rs. 9,26 lakhs in Capital expenditure not charged to Revenue during the year under review.

^{*}Differ fr n last year's closing balance (Rs. 1,98,07 lakhs) by 61 lakhs and is due to the transfer of assets worth Rs. 60 lakhs and Rs. 53,085 to the New Delhi Municipal Committee and to the Delhi Joint Water Board respectively, which have been treated as loans to the Committee and the Board.

[†] Differs from last year's closing ralance by Rs. 6 lakhs due mainly to the exclusion of Rs. 5,69,0 9 from the head Staff Benefit Fund, without any financial adjustment, owing to the decision not to show the head Staff Benefit Fund Investment Account in the regular accounts. This sum represented the amount invested.

The following statement exhibits roughly how this result (a betterment of Rs. 37,80 plus 9,26=47,06 lakhs) has been secured.

- 24. Reduction of Avoidance of Debt.—Under the Scheme of Debt Redemption originally adopted by the Government of India for the five years 1925-26 to 1929-30 but which, with certain minor changes, continued to operate till 1932-33, the annual charge against the Central Revenues for the purpose of making provision for the reduction or avoidance of debt was to consist of a sum of Rs. 4 crores plus a sum representing one eightieth of any excess in the total of the debt outstanding at the end of the preceding year over the total outstanding on the 31st March 1923. This annual charge was, according to the scheme, to be applied towards meeting the following charges of an obligatory character involving the actual redemption of debt:—
 - (a) Railway Sinking Funds in operation;
 - (b) Depreciation Funds of 1 1/2 per cent. on the existing 5 per cent. Rupee Loans for which Sinking Funds were established;
 - (c) The capital portion of the annual payment in redemption of India's outstanding liability in respect of the British War Loan; and
 - (d) The capital portion of Railway annuities.

The actual provision in 1924-25, the year before the scheme was applied, was Rs. 3.78 crores and in 1932-33 the amount had risen to Rs. 6.84 crores.

After 1924, however, the increase that took place in the total indebtedness of the Government of India was more than counterbalanced by an increase in interest-yielding assets. The automatic application of the scheme therefore would, if continued, have proved particularly burdensome during such a period of abnormal depression, when the general revenue of the Government were receiving no contribution, beyond the actual interest, on the capital invested, from the principal productive asset, the Railways. After a careful examination of the whole problem and with the full concurrence of the Secretary of State, the Government of India came to the conclusion that in view of the strengthening of their general financial position it was unnecessary in such a time of special difficulty to strain the tax revenue in order to maintain the provision for Reduction or Avoidance of Debt at the full level required under the scheme. It was accordingly decided to reduce the annual provision to a round figure of rupees 3 crores during 1933-34 and 1934-35. The same amount was provided for 1935-36 as well as the Railways were not still in a position to make their contribution to the General Revenues. This reduced provision is to be regarded as covering the obligatory charges mentioned at (a), (b) and (c) above and also a part of (d), i.e., the capital portion of Railway Annuities.

The sum of Rs. 3 crores has therefore been charged to revenue during 1935-36 and has been shown in the appropriation account of Grant No. 25—Interest on ordinary Debt and Reduction or Avoidance of Debt against subheads F. and G, the details* of which are:

F. Rs. 1,36,71,000

- Depreciation Fund of 1½ per cent. on the existing 5 per cent. rupee Loans for which Sinking Funds have been established, vide item (b) above, viz.—
 - (1) 5 per cent. Income-tax Free Loan 1945-55 95,04,000
 - (2) 5 per cent. Loan 1939-44 . . 41,67,000
- G. Rs. 1,63,29,000 • Railway Sinking Funds in operation £2,00,000 converted to Rs. 26,52,850, vide item (a) above.

The capital portion of Railway Annuities £18,31,838-13-8 converted to Rs. 2,42,97,964 (roundly) but only a portion of this has been adjusted to make up the total of Rs. 3 crores=Rs. 1,36,76,150, vide item (d) above.

No payment has been made during the year in respect of the Capital portion of the annual payment in redemption of India's outstanding liability in respect of the British War Loan [vide item (c) above].

The amount shown under the sub-lead F represents expenditure in India while those under G corresponding to items (a) and (d) above represent expenditure booked in the Secretary of State's accounts. All the above payments have been examined in audit and found to be in order. The appropriations to the depreciation fund of the 5 per cent. Rupee Loans and payments therefrom were in accordance with the undertakings given by the Government of India.

^{*} These adjustments are quite distinct from those relating to the "Outstanding Silver Debt" shown against item 2 on the credit side of the Account of Purchases and Sales of Silver appended to the Appropriation Account of Grant No. 71.—Currency.

Loans and Advances by the Central Government.

25. The transactions under this head and the balances outstanding at the beginning and end of the year are given in the following table:—

	(In thousands of rupees.)							
	Balance outstand- ing on 1st April 1935.	Advances made in 1935-36.	Total.	Recoveries made in 1935-36.	Balanco outstand- ing on 31st March 1936.

- (a) See paragraph 26.
- (b) Difference of 60,53 from the last year's closing balance due to (i) 60,00 being the value of assets transferred to the New Delhi Municipal Committee, and treated as a loan to the Committee, and (ii) 53, being the value of certain works completed in 1934-35 and transferred to the Delhi Joint Water Board, treated as a loan to the Board.
 - (c) Actual balance in whole rupees is Rs. 13,72,613.
- 26. Advances to Provincial Louns Fund.—The Provincial, Loans Fund was established with effect from 1st April 1925 to concentrate all loans transactions between the Central and Provincial Governments in a self supporting fund and to systematize the arrangement for administering the same. All advances granted by Central to Provincial Governments are now made through this fund which is administered by the Government of India.

All capital liabilities of the Provincial Governments to the Government of India outstanding on 31st March 1925 were transferred to the fund on the 1st April 1925. Sums required for the purpose of new advances to Provincial Governments are advanced to the fund by the Government of India from time to time, as required, and these, together with the repayments falling due on account of previous loans, constitute the capital of the Fund. The Capital Account is also credited or debited with any surplus or deficit, as the case may be in the Income Account at the end of each year, after the payment of interest to the Central Government and other expenses, if any.

The rate of interest charged by the Government of India to the Provincial Loans Fund on the advances made to it is determined with reference to the cost of new borrowings to the Government of India from time to time. The rate for 1935-36 was 3 1/4 per cent. per annum, as against 3 1/2 per cent. for the previous year.

Any surplus in the Capital of the Fund which may not be required for the time being for the purpose of new advances, may be utilised towards the reduction of advances made to it by the Government of India under such conditions as may be determined by them according to the circumstances of the case. There was no such surplus during the year under review as will be seen from the following table. No repayment was, therefore, made by the . Provincial Loans Fund to the Government of India during 1935-36.

An annual report on the working of the Fund is prepared by the Government of India. The report on the working during the year 1935-36 has not yet (January 1937) been issued. Audit comments thereon, if any, will appear in due course.

The following statement sets forth the assets and liabilities of the Provincial Loans Fund as on the 31st March 1936:—

4 posts

Liabilities.

(i) Advances from the Government of India .	1,86,15,43	(i) Advanc	es to t Govern				
(ii) Income transferred from Income Account from 1925-26 to 1935-36 .	43,17	(ii) Cash	•	•		50	
•	1,86,58,60					1,86,58,60	

The following points connected with the administration of the Fund are of interest:

- (1) The terms of repayment for the following advances have not yet been settled:—
 - (i) Advances to the Government of Bombay in connection with the Lloyd Barrage Scheme. The repayment in this case was to have commenced in 1935-36.
 - (ii) Advances to the Government of Bengal to cover their overdrafts at the end of 1931-32, 1932-33 and 1933-34.
- (2) In view of the conversions effected during 1935-36 of the loans raised in 1925-26, 1929-30 and 1931-32, the Government of India reduced, with effect from 1st October 1935, the rates of interest by ½ per cent., 1/2 per cent. and 1 3/4 per cent. respectively on the outstanding balances of advances made to the Provincial Governments during 1925-26, 1929-30 and 1931-32 from the Fund and also on the equivalent portion of the advances sanctioned to the Fund by the Government of India during those years.
- (3) On the institution of the Provincial Autonomy on 1st April 1937, the Provincial Governments will generally assume complete responsibility for their future loans and borrowing policy. The Government of India have, therefore, decided, with the sanction of the Secretary of State, to wind up the Provincial Loans Fund as soon as may be and to undertake the consolidation of the existing provincial debts.
- 27. Loans to Indian States, Public Bodies and Persons, etc.—The following advances of importance are included under this head:—

									Balance on 31st March 1936.
(1)	Loans to Indian States			•					13,72,44
(2)	Loans to Presidency Co	rpora	tions	inclu	ding :	Port I	rusts	•	4,67,93
(3)	Loans to Port Funds						•		28,11
(4)	Loans to Mofussil Mur	nicipal	lities	and .	Distri	ict an	d othe	er	
(-)	local Fund Committ	ees		•			•		91,68
(5)	Advances under special	Laws	3	•		•			35,85
	Advances to Cultivator								16,47
(7)	Advances to Landholde	ers an	d oth	er No	tabili	ties			10,40
(8)	Miscellaneous Loans an	ıd Adı	vance	s		•	•	•	13,72

The rate of interest charged on these advances in the year 1935-36 varied for special reasons in individual cases, from $3\frac{1}{4}$ to $3\frac{3}{4}$ per cent. The interest realised during the year amounted to 28,73 or $1\cdot4$ per cent. of the balance of these advances.

Detailed accounts of loans to Istimrardars of Ajmer and to Cultivators: falling under items (5) and (6) above are kept by the departmental authorities.

There was a total write off of 2,55 consisting of 2,25 and 30 in respect of items (4) and (6) respectively, details of which have been given in the succeeding sub-paragraphs.

Loans to Indian States.—Final decisions on outstanding points connected with the Bahawalpur Sutlej Valley Project Loan have been reached. The payments made by the Bahawalpur Durbar to the end of October 1936 towards. the liquidation of the loan have been mentioned in paragraph 1 of the Important Comments under Grant No. 99. As a result of the decision of the Government of India, with the approval of the Secretary of State for India, to waive interest on the loan for two years from the 1st October 1933 to 30th September 1935, the approximate amount of interest remitted for the year 1935-36 amounted to rupees seventy lakhs.

An outstanding balance of 32,03 relating to other state transactions: (Punjab) has been converted by the Government of India into a regular loan bearing interest at $4\frac{3}{4}$ per cent. per annum and repayable in fifteen equated instalments with effect from the 1st April 1936, vide paragraph 2 of the Important Comments under Grant No. 99.

In Bombay, a suspension of repayment of 59 was sanctioned for various: reasons involving one case of default to the extent of 3. In that province, in one case repayment of Rs. 15 lakhs was made in advance by three years and in another case the acknowledgment of the balance has not been received.

A loan of Rs. 2 lakhs was granted to a certain State in the North West: Frontier Province during the year, free of interest, to be recovered from the subsidy of the ruler of the State in forty half-yearly instalments of 5 each.

Loans to Presidency Corporations including Port Trusts.—The loan of 17,655 on account of the value of the Port Block taken over by the Calcutta Port. Trust in 1870, for which the Port Commissioners were paying a half yearly interest of 40, was fully liquidated in September 1936 with the approval of the Government of India.

Out of the loans aggregating 2,87,71 bearing interest at 4 per cent. per annum granted to the Port Commissioners, Calcutta, for the construction of the Kidderpore Docks up to the year 1893 (mentioned in paragraphs 25 and 30 of the Audit Reports 1935 and 1936 respectively), the balance outstanding on the 31st March 1936 was 1,65,91. A sum of 41 on account of unpaid portion of suspended repayment of principal in previous years, was paid on the 3rd April 1935 in addition to the regular equated half yearly instalments of 7,07, and the Government of India waived the levy of any penal interest for the delay of this arrear payment. The Port Commissioners proposed to repay during the year 1936-37 the outstanding balance of the loan. The proposal was sanctioned by the Government of India in December 1936; but later on it was decided by the Port authorities to make a payment of Rupees 30 lakhs only towards the repayment of the loan on the 1st February 1937, sanction to the acceptance of which was accorded by the Government of India.

Loans to Port Funds.—A loan of Rs. 2 lakhs was granted to the Vizaga-patam Port Fund in March 1935. Orders were issued by the Government of India in March 1936 that the loan should be treated as interest free and that the actual terms of repayment should be left over for consideration at a later date when the income of the port exceeded the expenditure, or in 1940-41, whichever was earlier. It has since been decided by the Government of India (November 1936) that the loan should be converted into a grant-in-aid and that the provision for the same will be made in the budget for 1937-38.

Loans to Mofussil Municipalities and District and other local Fund Committees.—The Government of India sanctioned during 1936-37 the write off of the balance of 2,25 plus interest 2 outstanding against the Quetta Municipality owing to the earthquake.

Advances to Cultivators.—Out of the total write off of 30 under this head as mentioned above, Baluchistan alone is responsible for 20 due to the earthquake, the Andamans and Madras being accountable for 8 and 2 respectively. Defaults in repayment to the extent of 9 occurred in an Agency in the North West Frontier Province.

Advances to Landholders and other Notabilities.—In regard to the loan of 16,25 bearing interest at 3 per cent. per annum granted to a certain estate in Bengal mentioned in paragraph 30 of the last Report, the balance outstanding on the 31st March 1936 stood at 4,73 which was further reduced by accelerated payments aggregating 57 made torwards the capital during 1936-37 and accepted under the orders of the Government of India. These payments were not connected with the defaults previously made in the repayments of instalments from March 1931 to September 1934, which have, in accordance with an arrangement made with the Government of India, been postponed till 1946, interest being charged at the rate of 3 per cent. per annum till realisation. The principal now (January 1937) outstanding stands at 4,00 the next half yearly instalment falling due for payment on the 30th March 1937.

Miscellaneous Loans and Advances.—There was a case of repayment of 5 in advance, with the approval of the Government of India, in respect of cloans to a certain foreign Government.

28. Advances to Government servants.—These advances represent temporary loans to Government servants for building houses, purchasing conveyances and other similar purposes. Although the funds for these purposes are provided entirely from the resources of the Central Government, the loans are granted to personnel under the control of both the Central and Provincial Governments. The rate of interest charged on these advances given in each year, beginning 1st October and ending 30th September, is the rate charged on advances to the Provincial Loans Fund during the financial year, comprising the first half of the above mentioned period.

Amounts aggregating 12 on account of principal and 1 on account of interest were written off as irrecoverable, about a half of these being due to the Quetta earthquake. Six cases of remission of interest amounting to 1 have been reported from Assam. Several cases of delay in repayments, suspension of recoveries and non-acceptance of balances pertaining to certain provinces and areas have come to notice, but none of them is so important as to merit special mention here. There were ten cases (nine of motor car advance and one of motor cycle advance) pertaining to the Defence Services, in which insurances were not renewed in time. Suitable action has, however, been taken in all the cases by the Accounts Officer concerned to safeguard the interest of Government.

Out of the interest free advances granted for building and repairing houses to sufferers from the Bihar earthquake of 1934, 1,75 remained outstanding on the 31st March 1936 (84 and 91 respectively in the books of the Accountants General, Bihar and Posts and Telegraphs). Interest-free advances aggregating 15 were granted during 1935-36 under the sanction of the Governor General in Council to the Posts and Telegraphs employees affected by the Quetta earthquake. Of this amount, 4 remained outstanding at the end of the year under report.

- 29. The accounts of Government undertakings of a commercial or quasi-commercial nature for which a commercial system of accounts is maintained have been reviewed in the Commercial Appendix to this Report. A review of the following other subjects which are of interest from a financial point of view is given in this chapter:—
 - (a) Financial results of Irrigation Systems.
 - (b) Administration of residential buildings.

A general review of the Road Development Fund and subventions to the centrally administered areas from the Road Development Account will befound in the Important Comments under Grant No. 73—Civil Works. A review of the two new funds created from the revenue surplus of 1935-36 is given in paragraph 20 of this Chapter.

30. Financial results of Irrigation Systems.—Irrigation works are classified as Productive or Unproductive according as the net revenue (gross revenue less working expenses) derived from each work on the expiry of ten years from the date of closure of the construction estimate covers or does not cover the prescribed annual interest charges on the capital invested.

The financial results shown here for a series of five years relate to works of the Unproductive class as there are no Productive Irrigation Works in the Central Areas.

The figure of Capital at end of the year [item (1)] and working expenses [item (3)] include certain indirect charges and the working expenses exclude interest charges which are shown separately [item (6)]. The net revenue [item (4)] represents the difference between gross receipts [item (2)] and working expenses [item (3)].

AJMER-MERWARA.

(All figures except percentages are in thousands of rupees.)

	1931-32.	1932-33.	1933-34.	1934-35.	1935-36
(1)	(2)	(3)	(4)	(5)	(6)

year	1,15	1,15	1,16	. 1,16	1,15

These works are all irrigation tanks. Compared with the year 1934-352 the decrease in receipts during 1935-36 is due to a smaller area having been irrigated while the increase in the working expenses is due to expenditure on improvements and special repairs to certain tanks.

BALUCHISTAN.

	1931-32	1932-33	1933-34	1934-35	1935-36
(1)	(2)	(3)	(4)	(5)	(6)
(1) Capital at charge at end of the year	38,37	35,51	35,74	35,77	35,81
(2) Gross receipts of the year .	39	38	28*	64†	45
(3) Working expenses of the year	49	95	82	66	62
(4) Net revenue surplus or deficit (—)	10	57	54	2	-17
(5) Percentage of (4) to Capital	-0.24	-1.61	-1.51	07	48
(c) Simple interest for the year	1,48	1,42	1,42	1,40	1,38

^{*} Excludes Rs. 7,874 erroneously credited to Land Revenue instead of to Irrigation.

The Pishin Canal system was remodelled at a cost of about 5 lakhs in 1930-32 and it was anticipated that there would be an increase in the gross receipts of Rs. 70,000. The full increase was not however expected to be realised before 1935-36 and then only if grain prices recovered. The gross revenue from this canal system for 1935-36 amounts to Rs. 34,342 against Rs. 38,731 in 1930-31, the year just preceding the remodelling. There has thus been no improvement in revenue.

The scheme of remodelling carried out in 1930-32 comprised inter alia the construction of a pumping plant for irrigation by pumping at an estimated cost of Rs. 1,47,379. This pumping scheme is now regarded as unsuccessful under the present conditions, and the local Administration has submitted proposals to the Government of India for a scheme of vineyard cultivation in the area commanded by the canal. The new scheme if it is approved and proves to be a success as anticipated by expert opinion is estimated to yield a return in the first 10 years of over one lakh and a half of rupees against a total expenditure of Rs. 75,000.

Administration of residential buildings.

- 31. General.—The annual standard rent of a residential building, as recoverable from a Government servant, is calculated on its capital cost excluding the cost of the site (including expenditure on its preparation) and is either—
 - (i) a percentage of the capital cost equal to the rate of interest fixed for the year of its construction plus an addition for house or property tax payable by Government and for maintenance and repairs, or
 - (ii) 6 per cent. of the capital cost, whichever is less.

The rent liability of a Government servant is further limited to 10 per cent. of his emoluments. This, in general, is the reason for the low percentage of the surplus of actual realisations over maintenance charges, on the capital cost of Government residential buildings.

[†] Includes Rs. 22,640 pertaining to the year 1933-34 adjusted in 1934-35.

32. New Delhi.—The financial results for 1935-36 of the administration of residential buildings in New Delhi are summarised below:-

A.—BUILDINGS—TABLE I.

Category.	Capital cost (including cost of site).	Actual realisations.	Actual cost of main-tenance.	Net receipts.	Percentage of (5) to (2).

^{*} See footnote † under table I regarding increase of Capital cost and consequently of standard rent compared with 1934-35.

rent free and the residences of his staff.

† The increase in capital cost in categories (3), (4), (6) and (7) is due to the addition of 39 officers' houses, 33 quarters for Members of Legislature, 85 Unorthodox and 542 Orthodox clerks' quarters.

Compared with the figures of 1934-35, the actual realisations of rents show an increase in all categories except (2) and (5). The decrease of Rs. 552 and Rs. 1,221 respectively in the latter is due to the buildings having been occupied for a shorter period than in 1934-35.

The net receipts have fallen from 55 per cent. of the standard rent in1934-35 to 48 per cent. in 1935-36, due to increase in the standard rent owing to the addition of new buildings in categories (3), (4), (6) and (7). The percentage of the actual cost of maintenance to estimates has also come down from 104 in 1934-35 to 98 in 1935-36 on account of smaller expenditure on special repairs.

The general question of pooling the rents of residential buildings in New Delhi referred to in the review for 1934-35 is still (January 1937) under the consideration of the Covernment of India.

The actual receipts have not covered the maintenance charges this year as, in addition to the usual cause that the majority of the buildings are occupied for a part of a year only, two new factors have arisen—(1) There has been heavy expenditure on renewals mainly on Cazetted Officers' bungalows, (Rs. 20,000 nearly), and (2) the rates of rent have been reduced owing to a, revision based on decreased rates of depreciation and repairs.

Compared with 1934-35, the increase in the capital cost under category (2) is due to an increase in the scale of furniture and that in categories (3), (4), (6) and (7) is due to the provision of furniture in the newly constructed buildings.

33. Simla.—The following tables give a summary of the financial result for 1935.36 of the administration of residential buildings in Simla and of furniture supplied for use in them.

Corresponding totals of 1934-35	1,84,534	4,41,880	42	83

The increase in the cost of maintenance compared with 1934-35 in the-case of categories (2), (3) and (4) is due to expenditure on special repairs to certain buildings.

There is a decrease in realisations of Rs, 1,291 in the case of category (3) and Rs. 1,103 in the case of category (6) compared with 1934-35. In the former case some of the buildings were occupied free of rent or by incumbents on lower rates of pay, while in the case of the latter the buildings were occupied for a shorter period than in 1934-35.

The actual receipts under categories (3) and (4) also fall short of the standard rent partly because a number of houses are occupied free of rent under the rules in the Simla Allowance Code.

[†] Exclusive of quarters for the Manager, Government of India Press, which is occupied free of rent.

[‡] Seven of the Unorthodox clerks' quarters of "A" type are reserved for the accommodation of Members of the Legislature.

- (6) Rajputana.—The increase of 11 net in the capital cost (col. 2) as martly due to one building having been nercompared with the last year is partly due to one building having been permanently allotted as a residence and brought into the capital and revenue compared with the last year is partly due to one building having been peracounts for the first time and partly to the improvements made in one of the manently allotted as a residence and brought into the capital and revenue buildings. The first time and partly to the improvements made in one of the standard rent by Rs. 5.610 owing to some buildings remaining vacant of the standard rent is Rs. 17,051. The realisations fell short for the greater part of the vear and the recovery of rent at concessionary for the standard rent by Ks. 5,610, owing to some oundings remaining vacant rates under the Fundamental Rules.

 The standard rent by Ks. 5,610, owing to some oundings remaining vacant at concessionary rates under the Fundamental Rules.
- (7) Central India.—The decrease of 14 net in the eapital cost (col. 2) the conversion of one building as compared india.—The decrease of 14 net in the capital cost (col. 2) into a circuit house and (ii) the difference between the cost of one building into a circuit house and (ii) the difference between the cost of one building transferred from the Defence Department to the Public Works Department transferred from the Defence Department to the Public Works Department Holkar and of another transferred from the Public Works Department Stafe. The total etandard rant is Re 25 ggo The ranlications fall chart of State. The total standard rent is Rs. 25,889. The recovering having been to the Holkar
- btate. The total standard rent is Rs. 25,889. The realisations fell short of made at concessionary rates under the Fundamental Rules. made at concessionary rates under the Fundamental Rules. (8) Bengul.—The increase of 1 nct in the capital cost (col. 2) represents of 1 nct in the capital cost (col. 2) represents the cost of sanitary installations in two quarters less a small amount on account

of reduction in the cost of site of a building tentatively shown in the last year's account. The amount of standard rent realisable was Rs. 35,552. Some buildings remained vacant for varying periods and two were occupied rent-free. As in the last year, no rents were recovered from the Chaplains at Calcutta and Howrah pending the transfer of parsonages to the Indian Church.

- (9) Assam.—The reduction of 8 net in the capital cost (col. 2) is due to exclusion of a building at Sadiya which, as a result of revaluation, was classed under the category of residences from which an adequate return in the shape of rent is not expected. The maximum rent realisable was Rs. 9,831. One building remained unoccupied for one month and three days.
- (10) Bombay Presidency (excluding Sind).—The increase of 19 net in the capital cost (col. 2) is due to (1) inclusion of a building formerly classed in the category of residences from which adequate return in the shape of rent is not expected (Rs. 18,000) and (2) inclusion of a capital expenditure incurred during the year (Rs. 1,000). The actual realisations fell short of the maximum amount realisable by Rs. 37,966. One building remained vacant for the whole year and some for a part of the year. One building was occupied rent-free and in some cases recoveries were restricted to 5 per cent. of the occupants' emoluments. The excess maintenance charge as compared with the previous year is due to heavy special repairs carried out during the year.
- (11) Sind.—The maximum rent realisable was Rs. 15,251. One building remained vacant throughout the year and a few others for short periods not exceeding three months in each case.
- (12) Bihar and Orissa.—The increase of 45 net in the capital cost (col. 2) is due to the addition of a building. The maximum rent realisable was Rs. 17,260. One building was occupied rent-free and four buildings at concessionary rates. Three buildings remained vacant for a part of the year.
- (13) Madras.—The maximum rent realisable was Rs. 10,542. The short realisation is due to the operation of rule restricting recovery to 10 per cent. of emoluments.
- (14) Burma.—The increase of 1,41 net in the capital cost (col. 2) is due to inclusion of the buildings in the Putao area formerly treated as Provincial buildings. The total standard rent realisable was Rs. 18,612. Five buildings remained vacant for long periods while two buildings were occupied by officers entitled to rent-free concessions.
- (15) Baluchi-tan.—The increase of 7 net in the capital cost (column 2) as compared with the last year is due to (1) conversion of a hut and furniture godown into quarters and (2) additions and alternations to two other buildings. The standard rent realisable was Rs. 38,163. Five buildings were occupied free of rent by entitled persons. Thirteen buildings remained vacant for varying periods. Short-recovery of Rs. 16,000 roundly was due to buildings in Quetta, Mastung, and Kalat having been destroyed by earthquake.

CHAPTER III.—GENERAL REVIEW OF THE RESULTS OF AUDIT

35. Review of demands for grants.—Eighty five demands for grants (excluding those for Posts and Telegraphs and Railways) amounting to Rs. 29,08,72,000 were moved in the Legislative Assembly and voted by it with three nominal reductions of Rs. 100 each in Demand Nos. 18.—Salt, 32.—Home Department and 79.—Baluchistan and a further reduction of Rs. 4,30,999 in Demand No. 39.—Army Department. The total Demand was more than that for 1934-35 by roughly Rs. 3½ crores owing to larger amounts being provided mainly in the demands noted below:—

							(In lal	ths of rupe	es.)
16.—Customs .								14	
70.—Indian Stores D	Department	•						14	
73.—Civil Works .	·					•	•	20	
74.—Superannuation	ı Allowances a	ind Por	isions	•	•	•	. •	13

	l Sind (new de			•	•	•	•	20	
99.—Loans and Adv	ances bearing	interes	st	•	•	•	•	2,68	
				•			_	3,49	

There was, however, an appreciable reduction of about Rs. 35 lakhs under 71—Currency as compared with the Demand for 1934-35.

Subsequently, supplementary demands for Rs. 4,39,60,000 (including five new demands) were moved in the Legislative Assembly and voted by it with a reduction of Rs. 100 in demand No. 79—Baluchistan.

- 36. Reductions made by the Legislature in Demands for Grants.—There were altogether five reductions made by the Legislative Assembly as mentioned above, viz., three reductions of Rs. 100 each and one of Rs. 4,30,999 in the original and one of Rs. 100 in the supplementary demands for Grants. As the three reductions of Rs. 100 each in the original Demand for grants were made without specifying any particular sub-heads, they have been shown in the appropriation accounts under the sub-head "Reduction made by the Legislative Assembly".
- 37. Restoration by His Excellency the Governor General.—The reduction of Rs. 4,30,999 made by the Legislative Assembly in the original demand No. 39—Army Department, leaving a balance of Re. 1 only, was restored by the Governor General in Council under Section 67-A (7) of the existing Government of India Act.
- 38. Supplementary grants during the year.—Thirty nine supplementary demands for grants were moved on three occasions, viz., 2 in April 1935, 3 in September 1935 and 34 in March 1936. The demands were voted by the Assembly with the reduction of Rs. 100 in one case as mentioned in paragraph 35 above. Supplementary demands are not ordinarily to be arranged for until it is fairly certain that they will be necessary. There were however, special reasons for the presentation of the supplementary demands during April 1935 and September 1935 in certain cases as detailed below:—
- (1) Demand No. 76 of April 1935 for Rs. 2,00,000.—The grant was required to meet expenditure in connection with the celebration of the Silver Jubilee of His Majesty the late King Emperor George V in May 1935. The approval of the Standing Finance Committee was obtained on the 29th March 1935 when it was too late to include the item in the budget estimate for 1935-36. The expenditure being in respect of a new service, the supplementary grant was necessary under Rule 50 (1) (ii) of the Indian Legislative Rules.

- (2) Demand No. 92-A of April 1935 for Rs. 27,65,000.—The grant was required to meet the expenditure anticipated during the year under report in connection with the transfer of the Imperial Institute of Agricultural Research from Pusa to Delhi and was necessitated by the rejection on the 27th March 1935 by the Legislative Assembly of the proposal to meet the cost of the transfer from the revenue surplus of 1934-35 as mentioned in paragraph 24 of Chapter II of the Audit Report, 1936.
- (3) Demand Nos. 63-B and 69-B of September 1935 for Rs. 1,000 each.—These were token grants in respect of expenditure from the Civil Aviation and Broadcasting Funds created out of the revenue surplus of 1934-35 (vide Serial Nos. 1 and 2 of the table in paragraph 65 of Chapter III of the Audit Report, 1936), and were obtained in pursuance of the undertaking to bring the detailed schemes met from the funds to the notice of the Legislative Assembly.
- (4) No. 76 of September for Rs. 1,83,000.—The expenditure on certain special Committees being regarded as on a new service, the supplementary grant had to be obtained under the rule cited in item (1) above.
- 39. A list of the larger supplementary grants with brief explanations of their purpose is given below:—

Rs.

(1) 25.—Interest on ordinary Debt and Reduction or Avoidance of Debt—

D.—Sterling Debt—

To meet the additional expenditure incurred in connection with the flotation of 3 per cent. stock, 1949-52 and for the management of the rupee debt in England.

(2) 31.—Foreign and Political Department—

D.—Postage, Telegram and Telephone charges . . . 1,15,200

To meet increased expenditure on telegraphic correspondence due to sudden changes in the political situation in the Frontier, the introduction of Reforms, etc.

(3) 59.—Agriculture—

Q.—Payments from sugar excise duty to sugar manufacturing provinces 6,43,000

The original provision was made in Demand No. "76-B", but according to correct accounts classification, payments from the sugar excise duty have to be adjusted under the head "Agriculture", hence the provision.

(4) 71.—Currency—

C .- Currency Note Press-

C. 1.—Press—

C. 1 (4).—Supplies and Services 4,17,500

To meet excess due mainly to the increased current demand, and the consequent increased demand for reserves, of Rs. 5 and Rs. 10 notes and of paper required to print these notes.

To meet additional expenditure due to (i) increased coinage owing to the demand for small coin having been heavier than anticipated and increased manufacture of weights and measures for the Bombay Government, (ii) replacement of obsolete by up to date machinery and furnaces at the Bombay mint, and (iii) purchase of large size Silver Jubileo Medals from the Royal Mint for sale in India.

To meet payments made to the Delhi and New Delhi Municipalities and the Notified Area Committee, Civil Lines, Delhi, as their share of a Provincial motor tax imposed in the Delhi Province during 1934-35.

(15) 82.—Andaman and Nicobar Islands—

Account II.—Forests-

A.—Conservancy, Maintenance and Regeneration—

A. 1.—Timber and other produce removed from the Forest by Government Agency

1.49,000

To meet additional expenditure on repairs to certain Andaman Forest Department vessels and increased charges connected with the sale of match logs.

(16) 92. A.—Capital Outlay on Schemes of Agricultural Improvement and Research-

Removal of the Imperial Institute of Agricultural Re-

search from Pusa to Delhi Province-

A. J.—Acquisition of land 4,00,000 23,20,000

To meet the anticipated expenditure during the current year in connecton with the transfer of the Imperial Institute of Agricultural Research from Pusa to Delhi.

(17) 96.—Commuted value of Pensions—

A. -Payments of commuted value of Pensions 1.58,000

To meet the excess expenditure on account of commuted value of Pensions of the Posts and Telegraphs and Railway Departments.

(18) 98.—Interest Free Advances-

A.—Advances Repayable, India—excluding all Book-keeping adjustments and Advances on which interest is charged-

A. I.—Civil Advances 2,12,000

To meet the grant of advances made by the Bihar Government to brick burners in connection with earthquake reconstruction.

C.—Bronze Coinage Account—

C. 1.—Bronze Mintage Account—Purchase of Metal 5,60,000

D .- Nickel Coinage Account-

D. 2.—Nickel Mintage Account—Purchase of Metal 3,17,000 To meet the cost of metal the purchase of which was necessitated by heavier ceingge

than anticipated.

40. General results of appropriation audit.—The following statement compares the total grants or appropriations for 1935-36 with the total disbursements.

	(In thousands of rupees.)					
Voted.	Revenue and Capital Expenditure.	Loans and Advances.	Total.			
(I) Original grants—						
(a) Voted by the Assembly (net) (b) Certified by His Excellency	17,33,51	11,70,90	29,04,41			
the Governor General .	4,31	••	4,31			
 (2) Supplementary grants voted by the Legislative Assembly (3) Authorised by His Excellence 	4,27,60	12,00	4,39,60			
the Governor General	.,	11.00.00				
(4) Net aggregate grants	21,65,42 20,56,42	11,82,90 10,79,16	33,48,32 31,35,58			
(6) Less (—) or more (+) than granted	$-1,09,00$ $5 \cdot 03$	-1,03,74 8 • 77	$-2,12,74$ $6\cdot35$			

Ir Non-voted.	n thousands of rupees. Revenue and Capital Expenditure.	Loans and Advances.	Total
	Rs.	Rs.	$\mathbf{R}\mathbf{s}$.
(1) Criginal appropriations (net) . (2) Additional appro riations, reappropriations and surrender sanctioned by the Finance De	s- 8	•	30,47,04
partment (net)	. 89,62	• •	89,62
(3) Net aggregate appropriations.	31,36,66	1.	31,36,66
(4) Aggregate disbursements .	31,37,13	••	31,37,13
(5) Less (—) or nore (+) than appro riated	n +47		+47
(6) Percentage of (5) to (3) .	01	••	'. <i>01</i>

No authority is competent to reduce a grant voted by the Legislative Assembly. In the case of non-voted appropriations the Finance Department is competent to sanction reductions of, or additions to the appropriations and for this reason separate statistics are not exhibited above of additional appropriations, reappropriations and surrenders respectively for non-voted heads.

41. Savings on voted grants.—Savings occurred in 76 out of 90 voted grants. A list of the more important cases is given below. No supplementary grant was voted in these cases except under grant No. 92-A.

The figures of savings and their percentages shown against grants Nos. 88, 93 and 96-A in the list give no indication of the control of expenditure or of accuracy of budgeting as the grants only represent token votes for minus expenditure. The saving in Grant No. 95-A in which there was no expenditure against the original grant is no reflection on budgeting as it was owing to a subsequent change in policy that the grant was surrendered.

No. and name of Grant.	Grant.	Expenditure.	Savings.	Percent- age of savings.			
(1)	(2)	(3)	(4)	(5)

with the institution of the Provinces of Orissa and Sind	20,00,000	• •	20,00,000	100

The whole of the provision was surrendered, as the expenditure debitable to the Central Government for the two new Provinces of Sind and Orissa was met from a separate fund opened for the purpose (Grant 76-E).

96 A.-Expenditure on Retrench-

The gross expenditure during the year was less than the amount transferred to revenue for making adjustment of previous years' charges by equated payments.

27.—Delhi Capital Outlay . . . 52,45,000 37,76,928 14,68,072 28

Mainly for want of requisite sanctions to certain detailed estimates and resultant delays in completing all formalities before the works could be started.

Besides the grants detailed above, two other grants, viz., Grants No. 63-B , and No. 73 deserve special mention, as considerable savings of the same nature as under Grants No. 92-A and No. 97 occurred under individual sub-heads of those grants involving what may be regarded as essentially 'Works expenditure'. The estimating and control of such 'Works expenditure' have been dealt with in the 'Important Comments' under the accounts of the Grants concerned. Speaking generally, administrative difficulties, delays due to land acquisition, or in sanctioning detailed estimates and other inevitable features more or less incidental to Works Projects contributed to the savings in these grants. Savings of this kind might perhaps be best discounted by a suitable system of lump cuts in the estimates of the year as originally The Public Accounts Committee in paragraph 10 of their last report have approved of such cuts as a useful and necessary corrective applied by the Finance Department. They have emphasised at the same time that in framing their estimates the Departments concerned must themselves aim at closer estimating, paying the utmost regard to the trend of past actuals.

42. Savings on Non-voted appropriations.—The term 'appropriations' is used here to denote the total group of non-voted appropriations for a subject corresponding to a 'grant' in the case of voted expenditure. Savings occurred in 53 out of 80 non-voted appropriations. The largest percentages of savings to final appropriations were 18 in the case of Grant No. 29—Council of State and 30 in the case of Grant No. 30—Legislative Assembly and Legislative Assembly Department.

Savings in non-voted appropriations are generally on a smaller scale than in voted grants as in the former case the saving is reckoned on the final appropriation which, as indicated in paragraph 40, may be smaller than the original appropriation in those cases where sums have been surrendered to and accepted by the Finance Department, whereas in the case of voted expenditure no such reductions of original or supplementary grants are possible even though in these cases definite amounts may be surrendered in the course of the year.

43. Statistics of savings or excesses on the entire voted grants and non-voted appropriations as compared with previous years.—The statement furnished below shows how the savings and excesses in respect of the entire grants and appropriations in 1935-36 taken together compared with those in previous years.

			Rev	enue and Ca Expenditur	apital e.	Disbursements of Loans and Advances.

44. A small excess has occurred this year in the non-voted expenditure. With the elimination of the excess of Rs. 18,99 thousand under Grant No. '93.—Currency Capital Outlay' which is peculiar to this year, the excess of Rs. 47 thousand or 0·01 per cent. would, however, be converted into a saving of Rs. 18,52 thousand, i.e., 0·59 per cent. of the final appropriation, which is greater than that of the last year.

The savings of Rs. 7,38, Rs. 12,91 and Rs. 20,00 thousand under Grants Nos. 76-B, 76-F and 95-A respectively, (vide the relevant appropriation accounts and the Notes thereunder) are of a special nature and are not, therefore, a reflection on the accuracy of budgeting. The saving under 76-F is due to the fact that the actual revenue surplus of 1935-36 did not come up to the expectation at the time the supplementary grants were obtained and thoseunder the other two are due to a change of classification, as a result of which the expenditure was booked under Grants Nos. 59 and 76-E, respectively, under which supplementary grants were voted by the Legislative Assembly for the purpose. Excluding these savings in order to arrive at a correct appreciation of the position, the result is a saving of Rs. 68,71 thousand, i.e., 3.17 per cent. of the final grant in the voted portion of the total Revenue and Capital expenditure, which compares favourably with the results of previous four years. The percentage of savings under Loans and Advances although still high is the lowest within recent years and indicates considerable improvement over the results of the last three years. A review of the percentage figures appearing in the combined section for 'Voted and Non-voted' of Revenue and Capital expenditure indicates an improvement in the results of 1935-36 over those of the previous four years.

45. Excesses over voted grants.—The following statement shows the excesses over individual voted grants requiring excess grants to be voted by the Legisdative Assembly, with the reasons for the excess in each case:—

In sixteen other cases noted below the excesses are small in proportion to the expenditure and call for no comment—(1) No. 18.—Salt (Rs. 365), (2) 19.—Opium (Rs. 207), (3) 27.—Staff Household and allowances of the Governor General (Rs. 1,336), (4) 28.—Executive Council (Rs. 98), (5) 35.—Department of Education, Health and Lands (Rs. 534),(6) 38.—Commerce Department (Rs. 279), (7) 53.—Archaeology (Rs. 560), (8) 54.—Mines (Rs. 645), (9) 63.—Aviation (Rs. 37), (10) 65.—Census (Rs. 50), (11) 66.—Emigration—Internal (Re. 1), (12) 70.—Indian Stores Department (Rs. 615), (13) 73.—Civil Works (Rs. 603), (14) 82.—Andamans and Nicobar Islands (Rs. 287), (15) 85.—Hyderabad (Rs. 1,431), (16) 86.—Expenditure in England, Secretary of State for India (Rs. 915).

47. Excesses over voted grants and non-voted appropriations compared with previous years.—The following table shows the number of cases in which excesses over voted grants or non-voted appropriations have occurred in the past five years, as well as the total amount of these excesses under ordinary expenditure (revenue and capital combined) and loans and advances respectively-

							Revenue and Capital Expenditure.		Disbursements of Loans and Advances.		
		Vote	d.				Number.	${ m Rs.}000$	Number.	Rs. 000	
1931-32							7	21,87	••		
1932-33							11	27,83		• •	
1933-34							8	1,47,96		••	
1934-35							24	1,77,74	i	8	
1935-36	•		•	•	•	•	$\overline{12}$	8,77	ĺ	2,70	
	1	Von-vo	ted.					•		•	
1931-32				•			16	3,03	• •		
1932-33							26	22,64	••	••	
1933-34			•				16	1,35	• •	• •	
1934-35	•	•					21	13,93	• •	••	
1935-36	•	•	•				25	19,70	••	••	

48. The principal grants contributing to the excesses in 1935-36 are shown in paragraphs 45 and 46 ante.

The following grants or appropriations contributed respectively 90 and 96 per cent. of the voted and non-voted excesses of 1935-36.

Voted Grants.			-		Rs. 000
Revenue and Capital Expenditure—					
Refunds	•	•	•	•	7,68
Loans and Advances—					
Interest Free Advances					2,70
Non-voted appropriations.					
Revenue and Capital Expenditure—					
Currency Capital Outlay					18,99

The excess under the Capital and Revenue heads in the voted section comes to Rs. 8,77 thousand which is less than the corresponding figures of the previous four years; but if the unusual items in 1933-34 are excluded, the figure compares unfavourably with that year and is two and a half times greater than in that year. An excess, of Rs. 2,70 thousand has occurred this year under grant for Loans and Advances against an excess of Rs. 8 thousand in the last year. No excess, as noticed in the last year's Report, occurred under 'Commuted value of pensions' but the excess under 'Refunds' is as high as Rs. 7,68 thousand, which is about three and a half times of that of the last year and contributes largely to the total excess of the year. The number of excesses in the voted section is 13 against 25 in the previous year and 8 in 1933-34. The number of excesses in the non-voted section is the highest within recent years excepting 1932-33. With the elimination of the item shown above under non-voted, which is peculiar to this year, the excess, however, comes to Rs. 71 thousand which is the lowest within recent years.

- 49. Savings under pay of officers and pay of establishments.—As in previous years, explanations for savings in the original appropriations relating to pay of officers and pay of establishments have been omitted from the appropriation accounts in many cases when they are due to changes of personnel, to posts not having been filled and to the part utilisation or non-utilisation of the provision for leave salary.
- 50. Loss or Gain by Exchange.—In accordance with the practice of previous years, no explanation of the loss or gain by exchange has in general been recorded in the appropriation accounts. This sub-head is required only when the rate of exchange departs from 1s. 6d. the rupee and as the rate is difficult to forecast in advance, no original provision was made against the sub-head. Actually the average rate for the year was 1s. 6.09d. per rupee, so that in general there has been a small gain by exchange, shown in the accounts as a minus figure of expenditure against the sub-head.
- 51. General comments on the accuracy of budgeting.—The following table gives an indication of the closeness of estimating in recent years. It relates to expenditure on revenue and capital accounts under all grants (Voted) and appropriations (Non-voted) taken together and disbursements for loans and advances respectively.

Percentages of savings (—) or excess (+) for a series of years compared with the grant, original plus supplementary, in case of voted and final appropriations in case of non-voted.

					and Capital enditure.	Loans and Advances.
				Voted	Non-voted	(Voted only)
1931-32				-8.62	-2.85	10.81
1932-33				7.64	-0.31	$-37 \cdot 13$
1933-34		•	•	$-3 \cdot 43$	$-2\cdot65$	$-23 \cdot 27$
1934-35				+5.82	0.43	$-49 \cdot 23$
1935-36			•	-5.03	+0.01	-8.77

For the reasons stated in paragraph 40 above these percentages are not comparable as between voted and non-voted.

A comparative view of the results of the last five years has already been given under paragraph 43 and certain comments on the same will be found in paragraph 44.

Budgeting and control of expenditure.

52. As explained in paragraph 8 of the Prefatory Remarks, a Grant voted by the Legislative Assembly or a non-voted appropriation provided by Government is divided into subheads in detail of which the appropriation account is prepared. If the original budget estimates under all the sub-heads are framed accurately which is of course the ideal aimed at—it will not be necessary, on the one hand, to surrender excessive grants or appropriations or, on the other hand, to increase the original provisions, either by reappropriation from other sub-heads or by obtaining supplementary grants or additional appropriations. In so far as this ideal is realised in practice, there will be no appreciable variations to be entered in columns I and 4 of an appropriation account. In practice, however, this ideal is difficult of attainment in the majority of cases. In the course of the year, there frequently arise new items of expenditure, which it was not possible to forecast when framing the original estimates, usually about six months before the commencement of the year. other hand, subsequent events may bring about savings in the actual requirements as compared with those originally estimated and provided for. cases are dealt with by the controlling officers in accordance with standing instructions-excesses being met by economy in other directions, postponement of expenditure under other items within the same demand or, in the last resort, by obtaining supplementary grants from the legislature or additional appropriations from Government, while savings are to be surrendered to the Finance Department immediately they are foreseen, if they are not required to meet excesses under other sub-heads. As explained in paragraph 1 of the Notes on the covering page of the Grand Summary, such reappropriations, where sanctioned, and surrenders, where accepted appear as variations in column I of the appropriation account.

It follows from what has been explained above that the more nearly the budgeting under a Grant approaches the ideal of accuracy, the less will be the extent of variations appearing in column 1 and the control will become more or less automatic, there being negligible or practically no variations to be shown in column 4. In demands where variations have occurred, there is of course a falling off in the accuracy of budgeting and the remedial measures adopted therefor would be largely reflected in the modifications in the original appropriations as depicted in column 1. The degree of control, i.e., the extent to which such remedial measures have been successfully applied by the controlling officers, can, however, be guaged by studying how far the actuals have conformed to the modified appropriations, as brought out by the extent of the variations as entered in column 4 of the appropriation accounts.

52-A. Under the orders issued by the Finance Department in 1926 for the control over expenditure, controlling officers were required to maintain independently a set of departmental accounts on the basis of returns received from their disbursing officers and certain other statistical details furnished by accounts officers, and to have these accounts reconciled monthly with the accounts maintained in accounts offices, the latter being the authoritative set. In this way the controlling officers were placed in possession of the latest information in regard to the progress of expenditure, and were thus enabled to exercise effective control.

In the case, however, of those offices and departments which were eserved by accounts offices separated from audit, the accounts prepared by the accounts offices took the place of the departmental accounts and the accounts officers were directly responsible for assisting the controlling officers in the control of expenditure. On the abolition of the scheme for the separation of accounts from audit at the end of 1931, difficulty was experienced by accounts officers in giving effect to the above procedure in its entirety owing mainly to depletion of staff as a result of retrenchment. A modified system was, therefore, introduced in 1933, which, among other things, required reconciliation of departmental accounts with accounts office figures twice a year.

The Government of India in the Finance Department re-examined the above procedure in the light of the recommendations of the Central Public Accounts Committee on the accounts of 1933-34 and issued further instructions on the subject in October 1935. These instructions, which will be found in Appendix VIII to the Report of the Public Accounts Committee on the accounts of 1934-35, were designed to secure a more efficient control of expenditure. The necessity for reviewing expenditure thoroughly and examining all possible sources of savings before submitting any applications for supplementary grants was impressed on all controlling officers. Stress was also laid upon the necessity for the surrender of all savings to the Finance Department immediately they were foreseen without waiting till the end of the year unless they were required to meet likely excesses owing to either (i) an unforeseen emergency or (ii) under-estimating or insufficient allowance for factors leading to the growth of expenditure, which were definitely foreseen at the time, no savings being held in reserve for possible future expenditure. These instructions were issued only about the middle of the year under review and the actual results do not give any indication that they have been implicitly followed by all the officers concerned. Reference may also be made in this connection to paragraphs 55 and 57 below regarding the non-observance of these instructions in the matter of obtaining supplementary grants and surrendering voted savings.

In paragraph 1 of the proceedings of the first meeting of the Public Accounts Committee held on the forenoon of the 17th July 1936, the Hon'ble the Finance Member (Chairman) drew the attention of the Committee to the Finance Department circular memorandum of October 1935 and explained that the procedure laid down therein would not become fully operative till the autumn of 1936. The full effect of the instructions may, therefore, be left to be considered on the results of 1936-37, for which year the initial estimates should have been framed on the lines indicated in the Finance Department circular memorandum.

53. The variations under individual sub-heads in the several appropriation accounts were in many cases due to diverse administrative causes, casualties and other incidents over which controlling and disbursing authorities apparently had little control. Making due allowance for such cases, the explanations under the individual sub-heads in the appropriation accounts still disclose a number of instances which might come in for the general criticism made by the Public Accounts Committeee in the first sub-paragraph of paragraph 10 of their last Report.

As in previous years, excesses under individual sub-heads in some appropriation accounts have been explained as due to book debits having been received towards the end or after the close of the year. In order to be able to exercise more efficient control over expenditure, the controlling authorities should keep themselves informed about the outstanding liabilities.

Again, in several cases savings resulted from expected debits not having been raised during the year. This contingency can, as observed by the Public Accounts Committee, be guarded against by obtaining definite information as to the intentions of creditors in respect of the presentation of their claims.

Another source of variation was in connection with the purchase of stores and materials either in this country or abroad. Uncertainty about the time of arrival of materials makes it difficult to determine whether the charges for their cost, customs duty, etc., would appear during the current or the next year. Variations due to this cause can, to some extent, be avoided by not placing orders for the purchase towards the closing months of the year, where possible.

In several appropriation accounts it has been noticed that reappropriations were sanctioned under individual sub-heads in the wrong direction thereby enhancing the variations still further.

- 54. Specific instances of faulty control over expenditure due to various causes have been mentioned either in the Notes or in the Important Comments below the appropriation accounts concerned. The following cases appear to merit mention here:—
- (i) In paragraph 36 of their Proceedings last year, the Public Accounts Committee commented adversely on the wide departure from the original programme of the Civil Works Grant. They thought that the Demand should be precisely stated, and in the actual expenditure there should be a reasonable conformity with the Demand. The 'Works expenditure' included in the different Grants such as Civil Works, Civil Avaition, etc., in the year under review has been subjected to a special review in the light of the observations of the Public Accounts Committee, and the results of this review have been included as Important Comments under the Appropriation Accounts of the Grants concerned. Generally speaking, there has not only been a departure, more or less considerable, from the original programme, but an indication of a somewhat general tendency towards over-budgeting for Works expenditure. The officers responsible for submitting budget estimates do not appear to have made adequate allowance for such general features as the usual delays in according technical sanctions to estimates for Works, delays on account of land acquisition proceedings and correspondence with different Departments, etc. The only exception in this regard is the excess that has occurred under Grant No. 73, but this exception in fact proves the rule, as the excess was entirely due to underspending on the Works Grants proper, with the result that the Establishment Charges had to be distributed over a smaller Works outlay, thus leading to an excess.
- (ii) Particular reference might also be made in the same connection to the Important Comments under Grant No. 73—Civil Works, which bring out the fact that owing to the Grant including the transactions in respect of the subventions to the Road Development Fund—an item over which the spending officers of the Public Works Department have no control whatever—the total figures give no indication as to the actual results achieved in the matter of the control of the really controllable part of this grant.
- (iii) Note I under Grant No. 75—Stationery and Printing shows that no portion of the large saving of Rs. 1,62,386 in the voted section of the grant was surrendered. On the contrary a supplementary grant of Rs. 1,36,000 was obtained from the Assembly and proved unnecessary.
- (iv) The control over expenditure relating to sub-heads A—Customs, B—Taxes on Income and C—Salt of Grant No. 77—Refunds has been exercised centrally by the Central Board of Revenue for three years in succession. In

the appropriation account for 1933-34 a marked improvement in the voted section was noticed as a result of this central control and a hope was expressed that it would be possible for the Board to show still further improvement. The results of the year under report do not, however, indicate improvement.

- (v) There seems to have been overbudgeting in Grant No. 94—Capital Outlay on Vizagapatam Harbour during the last two years. The variation between the original grant and the actual expenditure increased from 20 per cent. in the previous year to 56 per cent. in the year under report. The Administration anticipated a saving and formally surrendered a sum of Rs. $5\frac{1}{2}$ lakhs during the year, but in spite of it, there was a further saving of Rs. $1\frac{1}{2}$ lakhs or 22 per cent. of the amount kept by the Administration in their hands. This indicates an apparent deterioration in control. See also Note 5 under this grant.
- (vi) The final excess (Rs. 2,69,613) under Grant No. 98—Interest Free Advances occurred mainly under sub-heads A. 1 and D. 2 (1) and was unforeseen. In spite of supplementary grants obtained for three consecutive years, viz., Rs. 12,00,000, Rs. 6,00,000 and Rs. 2,00,000 during 1935-36, 1934-35 and 1933-34, respectively, excesses occurred in the Grant as a whole both during 1935-36 and 1934-35. It has, however, been explained by the controlling authority that the disbursements covered by this grant are not susceptible of accurate estimation or close control.
- (vii) The total saving of Rs. 1,06,43,911 in Grant No. 99—Loans and Advances bearing interest during the year under report as against Rs. 4,45,20,867 in the preceding year indicates an improvement. Out of the total saving, a sum of Rs. 78,47,000 was surrendered to Government in March 1936. As explained in paragraph 54 of the Audit Report, 1935, effective control of this grant is almost impossible (cf. paragraph 57).
- (viii) The following cases indicate how the control of expenditure was more or less affected by changes in policy after the original budget had been sanctioned:—
- (1) The provision for payments from the sugar excise duty to sugar manufacturing provinces during 1935-36 was, as for similar payments in 1934-35, made under Grant No. 76-B—Miscellaneous Adjustments between the Central and Provincial Covernments (sub-head F) corresponding to the major head of account "51-A". As the correct accounts classufication of such payments was decided upon by the Auditor General to be "34.—Agriculture", a supplementary grant had to be obtained in March 1936 under Demand No. 59.—Agriculture (sub-head Q) to cover the change. The saving under the former was taken into account in applying for a supplementry grant to meet the excess expenditure under sub-head C of that Grant, but no formal reappropriation was sanctioned through oversight. The supplementary grant voted for sub-head C. 1 and the saving under sub-head F intended to be reappropriated to sub-head C proved to be much in excess of requirements.
- (2) A sum of Rs. 20,00,000 was originally provided in the budget for 1935-36 under Grant No. 95-A for construction of buildings for the new capitals of the Provinces of Orissa and Sind. It was subsequently decided that the expenditure debitable to the Central Government on the adaptation of old and construction of new official buildings for these two new Provinces would be met from a separate fund opened for the purpose (Grant No. 76-E and Serial No. 6 of paragraph 61 of this Chapter). The entire provision under this capital head was, therefore, resumed. The effect of this decision on Grant No. 73--Civil Works was, that the charges on this account and the transfer of those charges to the fund remained uncovered in the appropriation account of this Grant [sub-heads A. 1 (1).—Voted and U].

(ix) The following is another instance of funds having been initially provided during the course of the year under an appropriation other than the one against which charges were eventually decided to be adjustable.:—

A total amount of Rs. 93,849 was initially provided under sub-heads E. 4 (1) to E. 4 (4) with a corresponding minus amount under the Dcduct sub-head E. 5 (1) in the Non-voted Appropriation of "Frontier Watch and Ward". The expenditure to the extent of Rs. 84,757 was initially accounted for under the former heads and finally debited against the "Fund for Special Frontier Expenditure inculding development' through the latter head during the year under review. In accordance with the decision arrived at after the close of the year that the charges were debitable to the ordinary heads under Political Appropriation (Major head 29.—Political), transfers were made to sub-heads K. 7 (1) to K. 7 (4) where there was no provision with the result that the excesses under these sub-heads remained uncovered and the provisions under the relevant sub-heads of "Frontier Watch and Ward" were not ultimately operated upon.

55. Unnecessary Supplementary grants.—In accordance with the undertaking given by the Auditor General to the Public Accounts Committee of 1935, the number of cases in which supplementary demands presented to the Legislative Assembly proved to be unnecessary in the last five years is shown below:—

JI (11 · 1										
	year.							N	o. of case	es.
	1931-32	•							3 .	
	1932-33						•		6	
	1933-34				. •				6	
	1934-35								7	

In their Circular Office Memorandum, dated the 9th October 1935, referred to in the third sub-paragraph of paragraph 52-A above, the Finance Department laid down that before sending an application for a supplementary grant, an examination of the whole grant should be made to see whether there were likely to be savings under any of the other sub-heads to meet an anticipated excess expenditure. The Public Accounts Committee in paragraph 10 of their Report, last year, expressed themselves as satisfied with these instructions, especially in the matter of their preventing unnecessary supplementary grants. These instructions do not appear to have been strictly followed in three cases, in the year under report, where the ultimate savings were more than the amount of supplementary grants voted by the Legislature, as will be seen from the details shown below. On the whole, an improvement is, however, noticed this year as seven such cases were reported in 1934-35 and six cases each in 1933-34 and 1932-33:—

No. and Name	Amount of supplemen-	Savings in		
			tary Grant.	Grant.
			Rs.	$\operatorname{Rs.}$
17.—Taxes on Income .			49,000	66,256
73.—Civil works			5,60,000	5,97,830
75.—Stationery and Printing			1.36.000	1.62.386

Some important cases are also shown below, where the supplementary grants obtained were much in excess of requirements:—

No. and Name of Grant.	Amount of supplementary Grant.	Savings in Grant.
	$\operatorname{Rs.}$	Rs.
69.—Miscellaneous Departments	54,000	40.579
76-B.—Miscellaneous Adjustments between the	~	20,000
Central and Provincial Governments .	8,57,000	7,37,830
96.—Commuted value of Pensions	1,58,000	92,474

In none of the six cases shown above was the expenditure considered to have been on a new service not contemplated in the budget.

56. Unnecessary supplementary non-voted appropriations.—The following are the instances where supplementary appropriations obtained during theyear proved ultimately to be unnecessary:—

No. and Name of Grant or Appropriation. Amount of supplementary A	Final sav- ings in the Appropriation.
Appro-	rppropriation.
22.—Irrigation, Navigation, Embankment Rs.	Rs.
and Drainage Works—Charged to	
Revenue 8,000	18,117
51.—Botanical Survey 703	2,794
Bangalore 4,074	5,335

57. Surrender of voted savings.—The following table shows (a) the percentage of the total voted amounts surrendered by the Controlling Officers and accepted by the Finance Department to the total actual savings in all thevoted grants and (b) the corresponding percentage which the final unsurrendered savings bear to the grants:—

Year. R		Revenue	and Capital	Los	Loans and		
		Exp	enditure.	Advances.			
		(2)	(3)	(4)	(5)		
		(a)	(b)	(a)	(b)		
		82	1.98	`13	9.37		
		85	1.67	60	$14 \cdot 96$		
		80	$2 \cdot 67$		$23 \cdot 27$		
		75	1.10	(()	$21 \cdot 24$		
	•	59	$2 \cdot 56$	74	$2 \cdot 54$		
	•	•	Exp (2) (a) 82 85 80 75	$ \begin{array}{cccccccccccccccccccccccccccccccccccc$	Expenditure. Adv. (2) (3) (4) (a) (a) (b) (a) (a)		

The figure under column (a) in the section for Revenue and Capital expenditure is the smallest within the last five years, indicating a deterioration in the control of expenditure. The percentage of final unsurrendered savings is higher than in the previous year.

The figures relating to Loans and Advances apply to Grants Nos. 98 and 99. As explained in paragraph 54 of the 1933-34 Report, the control of Grant No. 99 is very difficult. The figures of this year, however, indicate an improvement over the results of the previous years, and also over the results of

Revenue and Capital expenditure of the year under report.

As already stated in the third sub-paragraph of paragraph 52-A above, it was laid down in the circular memorandum issued by the Government of India, Finance Department, in October 1935 that no savings should be held in reserve for possible future excesses but they should be surrendered to the Finance Department immediately they are foreseen without waiting till the end of the year. On reviewing the several appropriation accounts it would appear that this instruction has not been followed in the majority of cases, as orders accepting surrenders of savings with the few exceptions noted below, emanated from the Finance Department only during the closing months of the year, viz., January to March 1936:—

Serial No. and Name of Gr	rant.			Amount.	When surrendered and accepted by the Finance Department.
				$\mathbf{R}\mathbf{s}.$	
1. 67—Emigation External				358	May 1935.
2. 52—Zoological Survey				1,000	August 1935.
				703	October 1935.
4. 20—Stamps				200	December 1935.
5. 45—Police				500	December 1935.
6. 48—Survey of India .			•	5,000	December 1935.
7. 92A—Capital outlay on	sch	eme	s of		
Agricultural Improv			and		
Research	•		•	2,64,000	December 1935.

- 58. General conclusions regarding control over expenditure.—(i) In the case of a non-voted appropriation, budget provision is augmented or reduced by the allotment of additional appropriation or by the acceptance of surrenders by the Finance Department. The percentage of final savings to the final modified appropriations is, therefore, an index of the standard of control. This year, there were two cases in which the final savings were more than 10 per cent. of the final modified appropriations against six cases in 1934-35 and three in 1933-34.
- (ii) Excesses over voted grants and non-voted appropriations are another index of control as supplementary grants or appropriations should have been obtained in time to cover the same. In the year under review, the number of such excesses is 13 (voted) and 25 (non-voted) against 25 (voted) and 21 (non-voted) in the preceding year. The number of excesses in the non-voted section is the highest within recent years. With the elimination of the unusual excess in Grant No. 93, the total of the figures for excesses in the non-voted section is, however, the lowest within recent years. The total of the figures for excesses in the voted section compares favourably with those of previous four years.
- (iii) There were 3 cases (out of 37) in which supplementary grants obtained during the year became unnecessary as compared with 7 (out of 45) in the last year and 6 (out of 33) in each of the years 1933-34 and 1932-33 (see paragraph 55).
- (iv) The statistics (vide paragraph 57) of percentages of savings in grants for Revenue and Capital expenditure, which were offered for surrender and accepted and percentages of final unsurrendered savings show a deterioration this year. The same statistics in respect of grants for Loans and Advances, on the other hand, indicate a marked improvement.

Notwithstanding the remarks that have been offered elsewhere as to the room that apparently exists for further improvement, it may be concluded generally that there has been an improvement in the control over expenditure.

59. Secret Service expenditure.—The accounts of expenditure treated under orders of Government as on secret service are not subject to scrutiny by audit authorities, and the administrative officers furnish an annual certificate to the Audit Officer in a prescribed form. It is reported that all certificates for the year under report required by the rules were duly received and

accepted as in order by the audit officers concerned.

60. Fund for the Reconstruction of Earthquake Damage (Bihar).—As explained in paragraph 57, on page 33 of the Audit Report, 1935, a sum of Rs. 2,72 lakhs was carmarked out of the revenue surplus of the Central Government for 1933-34, for financial assistance to be rendered to the Provinces of Bengal, and Bihar and Orissa, which suffered from the earthquake disaster of 1934. This sum was credited to a special deposit head "Fund for Reconstruction of Earthquake Damage" by debit to the head "52—Extraordinary charges (Grant 76C)" in the accounts for 1933-34.

As, however, it was subsequently considered that the entire amount was not required for this purpose, a sum of Rs. 62 lakhs was withdrawan from the fund in 1934-35, reducing the amount credited to the Fund to Rs. 2,10 lakhs,

see paragraph 64 (iii) on page 38 of the last Report.

The expenditure on this account debited to the Central Government up to the end of 1935-36 is Rs. 1,10 lakhs, and the balance available on the 31st March 1936 amounts to Rs. 1,00 lakhs.

As the Government of India have now decided to limit their liabilities in this respect with a view to bring the matter to a state of finality before the

advent of provincial autonomy, orders have been issued by them to pay to the Bihar Government the whole of the available residue of the fund, after meeting the demands of the Bengal Government during the year 1936-37. This payment is to constitute a complete discharge of all the valid liabilities undertaken by the Government of India in the matter.

61. Accounts of funds created from revenue surpluses.—In compliance with the desire expressed in paragraph 24 of the proceedings of the Public Accounts Committee of August 1935, a progressive account of the payments from the funds created from the revenue surpluses is given below. The genesis of the funds created from the surpluses of 1933-34 and 1934-35 (Serial Nos. 1 to 5) was explained in paragraph 64 of the last Report and that of the funds created from the surplus of 1935-36 (Serial Nos. 6 and 7) has been described in paragraph 20 of Chapter II:

		Re	ceipts.	Expen	diture.	
Serial No.	Name of the fund and the year of surplus.					Balance at the end of 1935-36.
	•	During 1935-3 6 .	To end of 1935-36,	During 1935-36,	To end of 1935-36,

*The expenditure met from the Funds has been duly audited.
† The sum of 62 lakhs withdrawn from the Fund in 1934-35 is included in the figures in col. 5.
See paragraph 60.
‡ In the footnote below paragraph 65 at page 39 of the last Audit Report it was stated that the question of adjustment of the expenditure of Rs. 2,362 against this fund in 1935-36 was under consideration. It has since been decided by the Government of India that the expenditure in question should not be debited to this fund.

Outside Audits.

- 62. During 1935-36 the accounts of thirtysix civil offices and sixteen Public Works Divisions were test audited locally by the Outside Audit Department of the Accountant General, Central Revenues, and grants-in-aid to local bodies were audited in the course of the audit of their respective accounts.
- 63. The accounts of ninetysix civil and Public Works Offices were test audited locally through the agency of other Principal Auditors.
- 64. Grants-in-aid to the New Delhi Municipality and the maintenance of its general accounts.-It was stated in the Appropriation Report for the year 1934-35 that there was room for improvement in the budgeting system of the New Delhi Municipal Committee, and that numerous irregularities were noticed in the maintenance of its general and works accounts, as also the pro forma accounts of the Power House and Water Supply installations. The following steps have since been taken to improve the position:-
 - (i) It has been decided by the Government of India that, with effect from 1936-37, the grants to the Municipality will not be made

- only on the basis of the estimates of the Municipality but shall have reference also to the audited accounts and the accumulated balances, the grant in any year being made only on a provisional basis, subject to readjustment in the following year in the light-of the audited accounts.
- (ii) To improve the internal accounts of the Municipality, a qualified resident accountant subordinate to the Accountant General. Central Revenues, has been posted there with effect from the 2nd November 1936; this accountant will conduct a continuous audit. The arrangement will continue for three years in the first instance and will not affect the annual test audit by the staff of the Accountant General, Central Revenues, except that the latter will be reduced by half. The accounts of the capital undertakings will cease to be pro forma in any way and for each concern there will be a proper Balance Sheet and a Profit and Loss statement leading to real costing accounts.
- (iii) The Financial Representative of the Government in the Municipal Committee has been empowered to call from the executive for papers on any matter having financial significance and to make any representations which he may desire, either to the President of the Committee or to the Chief Commissioner.

Audit of Customs Revenue.

- 65. The text-examination of the receipts of Customs revenue during the year 1935-36 was carried out with satisfactory results by the Maritime Accountants General concerned. Revisions of classification and assessment with recurring financial results were, as usual, the main feature of the test audit activity. In addition, various suggestions made by audit for better protection against losses or leakage of revenue have been adopted by the Custom Houses. The items noticed and set right in audit being generally of technical importance, there is no case of particular interest to bring to the notice of the Public Accounts Committee.
- 66. Store Accounts.—The appropriation accounts of the grants or appropriations covering expenditure on the purchase of stores have been supplemented by store accounts showing the transactions in connection with stores actually carried out during the year. Such store accounts will be found under grants No. 18—Salt, No. 22—Irrigation, etc., No. 48—Survey of India, No. 51—Botanical Survey, No. 58—Public Health (vaccine sera, etc., at the Central Research Institute, Kasauli), No. 59—Agriculture, No. 72—Mint, No. 73—Civil Works and No. 94—Capital Outlay on Vizagapatam Harbour. They also contain, where possible, a review on the stores position. Any important changes in the position after the close of the year up to the time of preparation of the Report are also mentioned in the review, where possible. Comments on the stores position of commercial undertakings will be found in Chaper III of the Commercial Appendix to this volume.

SUMMARY OF IMPORTANT MATTERS DEALT WITH IN THIS VOLUME.

67. Cases of financial irregularities and other matters which appear to be of interest are mentioned in the Notes and Important Comments below the respective appropriation accounts in Part II of this volume. The following more important points, arranged according to the Departments of the Government of India concerned, appear to merit special attention. Similar instances regarding control over expenditure will be found in paragraph 54,

while paragraph 52 contains some general observations explaining how the Appropriation Accounts give an idea of the accuracy of budgeting and the degree of control under each grant.

Finance Department.

- 68. Grant No. 25—Interest.—The Important Comments below this Grant bring to light cases of frauds perpetrated by means of forged endorsements on Government Promissory Notes standing in the names of certain ladies. The total amount of loss to Government involved in these cases worked up to Rs. 22,129, of which a portion (Rs. 6,040) was made good by the Bankers in whose favour two of the notes had been ultimately renewed.
- 69. Grant No. 71—Currency, Treasury Defalcations.—Four cases of defalcations in treasuries involving Rs. 7,32,000 in the aggregate (Bihar Rs. 7,06,000, North-West Frontier Province Rs. 15,000, Bengal Rs. 10,000, and Burma Rs. 1,000) have been mentioned in the Important Comments below this Grant as against five cases last year amoutning to Rs. 74,070 (Burma three cases Rs. 9,983, Bombay one case Rs. 61,000 and Central Provinces one case Rs. 3,087). The cases pertaining to the North West-Frontier Province, Bengal and Burma indicate laxity of supervision. In the Bihar case, which is the most important as involving on exceptionally large amount, the question of disciplinary action, etc., is still under the consideration of the local Government.

In Burma, where only one defalcation has been noticed this year as against three in the last year, the local Government issued in April 1935 a special set of instructions to Sub-divisional Officers to verify sub-treasury balances in the course of their tours in addition to their annual inspection. Instructions have also been issued for the guidance of District Officers when they carry out their usual inspections of district treasuries and sub-treasuries. These orders will, it is hoped, improve the efficiency of work in the treasuries and sub-treasuries of the Province.

As a sequel to the institution of the Reserve Bank of India with effect from the 1st April 1935, the *pro forma* accounts of Surplus Silver Stock, Silver Redemption Reserve and Purchases and Sales of Silver have, for the first time, been appended to the accounts of this Grant (cf. paragraph 3 of Chapter I).

- 70. Grunt No. 77—Refunds.—Note 5 under this Grant refers to the decision of the Government of India accepting the recommendation of the Public Accounts Committee in paragraph 17 of their Report on the accounts of 1934-35 that with effect from 1937-38, there will be no separate Demand for Refunds and consequently no appropriation account for this Grant.
- 71. Grant No. 99—Loans and Advances.—Paragraph 1 of the Important Comments below this Grant mentions that final decisions on the points connected with the Bahawalpur Sutlej Valley Project loan have been reached and exhibits the payments made by the Bahawalpur Durbar to the end of October 1936 towards the repayment of the loan.

It has been stated in paragraph 2 *ibid* that the outstanding balance of Rs. 34,14,895 on the 31st March 1935 relating to other state transactions was reduced to Rs. 32,03,244 and this reduced balance which relates to Bahawalpur State has, under the orders of the Government of India, been converted into a regular loan bearing interest at 4\xi\$ per cent. per annum and repayable in fifteen equated instalments of Rs. 3,03,414 each with effect from the 1st Apri 1936.

72. General.—The position regarding the fund for the reconstruction of the Bihar Earthquake damages has been explained in paragraph 60. It has now been decided by the Government of India to pay to the Bihar Government the whole of the available residue of the fund after meeting the demands of the Bengal Government during 1936-37. This payment is to constitute a complete discharge of all the valid liabilities of the Government of India in the matter.

Central Board of Revenue.

73. Grant No. 16—Customs.—In paragraph 65 of this Chapter the results of the test audit of Customs revenue during 1935-36 have been described.

Paragraph 2 of the Important Comments below this Grant deals with Customs revenue fraud rendered possible by a defective procedure which has since been rectified.

74. Grant No. 18—Salt.—It has been mentioned in the concluding portion of the review on the stores position of the Madras Salt Department below this Grant that after the clearance of the present stock of salt, which is expected to be completed by the 31st March 1937, there will be no stock of Government salt at the Madras depot.

The increase of 868.861 maunds in the closing balance on the 31st March 1936 in the Bombay Salt stores is due to the facts stated in paragraph 1 of the review below this Grant. In view of the high balance (2,446.513 maunds), steps have been taken to restrict the production during 1936-37.

Home Department.

75. Grant No. 89—Delhi.—The misappropriation of Rs. 1,000 mentioned in paragraph 1 of the Important Comments below this Grant was rendered possible by non observance of the departmental rules. The officer concerned have been censured for neglect of their duty.

Paragraph 2 *ibid* brings to light a series of defalcations of the deposit money in certain Courts mainly due to dishonesty of the subordinate staff against whom suitable action has been or is being taken. The question of disciplinary action against the departmental officers concerned is under consideration.

Foreign and Political Department.

- 76. Grant No. 79—Baluchistan.—The Important Comments below this Grant deal with the various measures of relief adopted by the Government of India in connection with the Quetta carthquake of the 31st May 1935. The expenditure on this account during the year under report was practically confined to relief, temporary housing and salvage, though a beginning was made with clearance. The completion of clearance, the beginning of reconstruction and the final allocation of some items of relief expenditure were made in 1936-37 and will be dealt with in the next Report.
- 77. Grant No. 81—Aimer-Merwaru.—The defaleation of Rs. 23,140 in a school dealt with in the Important Comment below this Grant was rendered possible primarily by the non-observance of the rules relating to the maintenance of eash books by the local authorities who are responsible for the assessment and collection of Government revenue, the maintenance of proper accounts thereof and the verification of the departmental figures of receipts with those adjusted in the books of the Accounts officer concerned. The eash books and accounts also remained unchecked by the Inspecting officers for a number of years. To prevent a repetition of such cases, the necessity for observing the relevant rules has been impressed upon all concerned.

78. Non-voted Appropriation—Politic il.—Paragraph 1 of the Important Comments under this account mentions a recurring liability of Rs. 8,031 per annum imposed upon the Central Government as a result of the amendment of an Act of a Provincial Government in 1927. A total payment of Rs. 72,280 on this account for the period of nine years from 1927-28 to 1935-36 had to be made by the Central Government during the year under report and a recurring payment of Rs. 8,031 per annum will continue to be made from 1936-37 onwards. In this case the Secretary of State recognised that a situation might arise in which a Provincial Legislature might pass laws inconsistent with the terms of an agreement made in the past between Government and a ruler of an Indian State.

Paragraph 2 ibid deals with certain outstanding claims aggregating Rs. 70,962 against a Foreign Government. The matter is under correspondence in the Government of India, Foreign and Political Department.

79. Non-roted Appropriation—Frontier Watch and Ward.—Paragraph 1 of the Important Comments below this account depicts the position relating to the Khassadar and other unauthorised excluded funds in the North-West Frontier Province, the delay in the closing of which was noticed by the Public Accounts Committee in paragraph 13 of their Report on the accounts of 1934-35.

Paragraph 2 *ibid* describes how a sum of about Rs. 10,000 representing good conduct pay was overdrawn by some non-entitled persons in a Corps and why it had to be written off finally. The irregular payment was discontinued with effect from the 1st November 1935.

Department of Industries and Labour.

80. Grant No. 22—Irrigation, etc., charged to Revenue.—The financial results of the unproductive Irrigation systems in Ajmer-Merwara and Baluchistan have been embodied in paragraph 30 of Chapter II.

Paragraph 1 of the Important Comments under this Grant brings to light a loss of Rs. 3,600 due to defective supervision of a work, for which the officer concerned was duly punished. No recovery could be made from the contractor as he was killed in the earthquake.

Paragraph 2 ibid shows how a loss apparently occurred owing to deviations from the original designs and estimates for the construction of a river flood protection bund.

- 81. Grant No. 63—Aviation.—The Important Comments below this Grant deal with the execution of a work with lighter specifications accepted from a firm without any reduction in price in certain special circumstances.
- 82. Grant No. 63-B—Expenditure on the Development of Civil Avidtion met from the Fund.—The irregularity connected with the measurement of a work mentioned in paragraph 7 of the Important Comments indicates neglect of duty and laxity of supervision for which suitable action was taken against the officers concerned. No financial loss to Government was involved as the amount (Rs. 5,589) paid in excess was recovered from the contractors.
- 83. Grant No. 70—Indian Stores Department.—Note 2 below this Grant exhibits the net excess of expenditure over income in the Indian Stores Department as a whole as well as in the Commercial and Non-Commercial sections thereof. The financial working of the Department indicates that there has been considerable increase in the activities of all sections of the Department showing a net improvement of Rs. 1,68,098 as compared with the year 1934-35 and of Rs. 4,00,303 as compared with 1933-34. The account of the Metallurgical Inspectorate shows a net profit of Rs. 1,15,775 as against Rs. 53,492 in 1934-35.

The defalcations mentioned in the Important Comment under this Grant were facilitated by negligence and lack of supervision on the part of a junior Gazetted officer who was censured and who made good the loss.

84. Grant No. 73—Civil Works.—The financial results of the administration of the residential buildings in New Delhi, Simla and other areas have been given in paragraphs 31 to 34 of Chapter II.

Clause (5) of the Audit officer's Report on the stock accounts in Note 8 indicates that the whole of the surplus stock in the Central Public Works Department on the 31st March 1936 valued at Rs. 55,454 was utilised by issue to works by December 1936.

Paragraphs 1 to 10 of the Important Comments below this Grant give a synoptic review on the administration of the grant as a whole for the first time this year. Similar reviews relating to works expenditure have also been given under Grants No. 63-B, 92-A, and 97 as well as under the Non-voted appropriation account for Frontier Watch and Ward. These reviews indicate how far the original programme of the works grant was followed and whether there was room for improvement in the budgeting of the works expenditure (see also paragraph 54 (i) of this Report).

Paragraphs 14 to 20 *ibid* give a description of the constitution and accounting procedure of the Road Development Funds, particulars of unspent balances of subventions from the Central Road Development Account with respective Provincial Governments and Centrally Administered Areas, transactions relating to the Fund which appear under the various sub-heads of this Grant and the actual expenditure incurred on works of road development during 1935-36 with total commitments at the close of the year in regard to uncompleted works.

Paragraph 11 *ibid* deals with the difficulty in disposing of a Central Government building purchased in 1906 at a cost of Rs. 2,30,250.

Paragraph 12 gives a case in the Central Public Works Department of non-submission to a committee of a demand for the cost of the maintenance of certain grounds.

- 85. Grant No. 95-A—Capital Outlay connected with the institution of the Provinces of Orissa and Sind.—As stated in the Note below this Grant, the entire provision under this capital head was resumed owing to a subsequent decision to meet the expenditure from a separate fund opened for the purpose (cf. serial No. 6 of paragraph 61).
- 86. Grant No. 97—Delhi Capital Outlay.—Note 3 below this Grant includes a table showing the total expenditure against fresh sanctions since the re-opening of the project for the New Capital at Delhi during 1933-34 and the total up to date expenditure since its inception.

Department of Education, Health and Lands.

- 87. General.—The steps taken for improvement in the budgeting system of the New Delhi Municipal Committee and the maintenance of its general and works accounts, as also the *pro forma* accounts of the Power House and Water supply installation have been mentioned in paragraph 64.
- 88. Grant No. 48—Survey of India.—The audit comment on the stores account of the Photo Litho Office, Calcutta, mentions that the closing balance of the year (Rs. 2,13,919, though slightly less than that of the previous year, was still more than twice the total issues during the year (Rs. 88,377).
- 89. Grant No. 51— Botanical Survey.—The Director's review indicates that substantial steps were taken to liquidate the surplus stocks of quinine

and the quantity at the close of the year above the Reserve stock of 150,000 lbs. was 7,870 lbs. which would prove inadequate to meet the normal annual distributions.

The audit comments on the Store Accounts show that the heavy drop in the stock of quinine products during the year under report was mainly due to a reduction in the manufacture of Trade Quinine amounting to Rs. 3,24,000 and to the free distribution of about Rs. 8,90,000 worth of quinine to the various local Governments except Bengal.

- 90. Grant No. 53—Archæology.—A loss of Rs. 2,004 from the sale proceeds of tickets for admission to the Archæological Areas in a Fort has been men tioned in paragraph 1 of the Important Comments below this Grant.
- 91. Grant No. 58—Public Health.—The statement of financial results of vaccine, sera, etc., at the Central Research Institute, Kasauli, appended to this Grant exhibits that in the manufacturing section of the Institute there accrued a profit of Rs. 64,630 during the year under review as against Rs. 16,229 in the previous year. This also indicates an increase in expenditure during the year under report as compared with the previous year. The reasons for the increase in both the profit and the expenditure have been given in the Director's comments at the end of this Grant.
- 92. Grant No. 59—Agriculture.—In Note 5 below this Grant the net deficiency of income over expenditure in respect of the Karnal Sub-section for 1935-36 to the extent of Rs. 41,885 as against Rs. 36,764 in the previous year has been accounted for.

Paragraph 1 of the Important Comments below this Grant gives a brief history of the origin of the Sugar Excise Fund, describes the accounting procedure thereof, and furnishes information as to the total amount realised and distributed and the balance available up to the end of the year under report.

Paragraph 2 *ibid* mentions that the Government of India decided in April 1936 to re-establish the experimental creamery at Anand.

Commerce Department.

93. Grant No. 69—Miscellaneous Departments.—The working results of the Scheme for the Registration of Accountants described in the Audit Comments below the Income and Expenditure Accounts appended to this Grant show a surplus of Rs. 3,451 in 1935-36 as against a deficit of Rs. 12,480 in the preceding year with the reasons for the betterment of the position. The net deficit resulting from the four years' working of the scheme since its inception stood at Rs. 27,268 at the close of the year as against Rs. 30,007 at the beginning of the year.

Railway Department.

94. Grant No. 94—Capital Outlay on Vizagapatam Harbour.—The review on the stores position of the Vizagapatam Harbour Construction states that, after the final close of the Construction Project on the 31st March 1937, the stores in stock will have to be classified between stores required for Open Harbour and those not required for Open Harbour, the latter being disposed of to the best advantage and the former being taken over by the Open Harbour at some assessed value, so that depreciation may be charged to the Construction estimate before it is closed.

The closing balance of the value of stores (Rs. 4,44,512), which shows a decrease of Rs. 52,763 as compared with the opening balance, is expected to be further reduced to less than rupees four lakhs as a result of the sale of surplus stores and scrap materials which is in progress.

CHAPTER IV.—POINTS OUTSTANDING FROM PREVIOUS REPORT.

95. The Finance Department of the Government of India will presumably as usual, present to the Committee on Public Accounts a statement showing the action taken or proposed to be taken on various outstanding points raised by previous committees.

There are no important outstanding points which, from an audit point of view, merit special mention in this chapter.

PART II.

Appropriation Accounts of sums expended in the year ended 31st March 1936, compared with the sums granted by the Legislature in respect of voted Expenditure and those appropriated by the Finance Department in the case of non-voted Expenditure.

NOTES.

- 1. (a) In the Accounts and in the Statements of expenditure on important new works—
 - "O" stands for original grant or appropriation and appears in column 1 only when a figure is shown against it, and is omitted from that column when the figure against it is nil or when the original grant or appropriation without any modifications is taken direct into column 2.
 - "M" stands for modifications sanctioned by competent authorities in the case of non voted appropriations (i.e., supplementary appropriation, reappropriation, withdrawal or surrender).
 - "S" stands for supplementary grant voted by the legislature.
 - "R" stands for residual modifications sanctioned by competent authorities other than the legislature in the case of voted grants (i.e., re-appropriation, withdrawal or surrender).
- (b) The figures shown in the second column of the accounts against all sub-heads as well as against "Totals—Non-voted" are the figures as they stand after all modifications including withdrawals or surrenders. But the figures shown in the same column against "Totals—voted" represent merely the totals of the Original and Supplementary grants, unaffected by withdrawals or surrenders. In order to neutralise the effect of reductions made in the Voted provision under different sub-heads on account of withdrawals or surrenders, a sub-head "Surrenders or withdrawals within Grant" is opened, where necessary, as the last sub-head in the accounts. In the case of a grant in which reappropriations, etc., affect the sub-head "Deduct—Recoveries", the adjusting sub-head mentioned above is divided into "Gross" and "Deductions", in order that the totals for "Gross" and "Deductions" in the Appropriation Account may correspond with those for "Gross" and "Deductions" in the Grant concerned.

Where a Grant is divided into two or more 'Accounts', an adjusting sub-head "Surrenders or withdrawals within the Account" appears in each of the 'Accounts' affected, in order to agree the figures in the second column against "Totals—voted" with the total figures voted by the legislature in respect of that Account. Where an 'Account' in which reappropriations, etc., affect the sub-head "Deduct—Recoveries", the adjusting sub-head referred to above is divided into "Gross" and "Deductions". In order to neutralise the effect of reappropriations, etc., among the different 'Accounts' within the same Grant, another sub-head "Transfers from or to other Accounts" is opened immediately above the "Totals" of the Accounts of the concerned Grant. In the appropriation accounts of this kind, the total amount of surrenders or withdrawals within the voted section of the grant as a whole is not manifest from the abstract of accounts, although the individual accounts of the grant exhibit, where necessary, the total amount of surrenders or withdrawals within the accounts against a distinct sub-head opened for the purpose. The total amount of surrenders or withdrawals has, therefore, been mentioned in a Note below the abstracts of such accounts.

Where, against a token grant obtained for a net minus provision, reappropriations under the various sub-heads have the effect of adding to the allotment so as to produce a different minus figure, an adjusting sub-head "Modifications within Grant" is opened to neutralise the effect of additional funds allotted by reappropriations, so that the appropriation account may be for the original grant as shown in the Book of Demands. In the case in which reappropriations affect a "Deduct" head in the grant, the adjusting sub-head mentioned above is split up into "Gross" and "Deductions".

To distinguish the various adjusting sub-heads mentioned above from ordinary ones, no letter is prefixed to any of them.

2. Capital expenditure incurred in England is shown in the same grant or appropriation in which the corresponding Indian expenditure is included. As regards revenue expenditure incurred in England, part of the expenditure is included in two separate grants No. 86 and 87 while the rest of the expenditure is booked in various other grants and appropriations. As for exchange, see paragraph 50 of the Report.

- 3. The main object of the note under a sub-head is to explain divergencies :-
 - (1) between the grant or appropriation for the sub-head as originally voted or sanctioned and its final figure as modified by supplementary provisions, surrenders and reappropriations, i.e., to explain additions or modifications shown in column 1, a list of important supplementary grants with brief explanations of their purpose being given in paragraph 39 of Chapter III;
 - (2) between the final figure in column 2 and the actual expenditure in column 3, the difference between which appears in column 4.

In the case of (1)-

No explanation is generally given (a) if the modification is less than Rs. 1,000, and

- (b) if it is for Rs. 1,000 or more, but is less than 15 per cent. of the original provision. In the case of (2)—
 - (a) No explanation is given where the saving is less than Rs. 100, and
 - (b) No explanation is ordinarily furnished -

if the saving is less than				•			than 'of	is also less per cent. the final ropriation.

Notes.

- 1. Though the percentage of savings in total grants, both voted and non-voted is small, considerable variations are noticeable under individual sub-heads within the grant. The appreciable saving in the voted section was caused by the saving in the original appropriation under sub-head E. 5 which was partially counterbalanced by excesses under other sub-heads.
- 2. Sub-head A. 11.—Voted. The total expenditure under "Grants-in-aid, Contributions and Donations" is made up of contributions to the following Institutions:—

Danilan	ć'					Rs.

3. The actual receipts realised and expenditure incurred during the year on account of overtime and holiday allowances and grants-in-aid, contributions and donations (i.e. sub-head A. 3. plus sub-head A. II) are detailed below:—

									Receipts. E	xpenditure.
									Rs.	Rs.
Bengal	•	•	•	•	•	•	•	•	2,52,509	2,67,260
Bombay	•	•	•	•	•	•		•	2,49,915	3,36,548
Burma			•						1,81,464	1,38,889
Madras	•	•	٠	٠	•	•	•	•	65,602	81,157
									7,49,490	8,23,854(a)
								-		

The position regarding the treatment of these receipts and expenditure is fully explained in the explanatory note to this demand contained in the detailed estimates for Demands for Grants submitted to the Legislative Assembly.

4. Remission of Revenue—Remission of Revenue and abandonment of claims to revenue were sanctioned for an amount of Rs. 14,162 during the year, in Burma (Rs. 7,719) and Madras (Rs. 6,443) due mainly to the parties concerned being either insolvent or not traceable.

IMPORTANT COMMENTS.

The total customs receipts and the net expenditure of the Department have been as follows in recent years:—

(Figures in lakhs of rupees). Expenditure.

							\mathbf{R}	eccipts.			
									Sub-head B.	Other Subheads.	Total.
(1)								(2)	(3)	(4)	(5)
1931-32	•		•	•	•	•	•	46,44	18	70	88
1932-33	•	•	•	•		•	•	51,95	28	63	91
1933-34	•		•	•	•	•	•	47,16	31	66	∂ 97
1934-35		•		•	•	•		52,67	31	78	1,09
1935-36	•	•	•	•	•	•		54,11	34	82	1,16

The increase of expenditure over that of the last year occurs mainly under sub-heads A. 13 and C. 5 (5 lakhs), on account of payments to the Salt Department in Madras due to the amalgamation of customs work in that Department; and sub-head B (3 lakhs) due to the revision of the amounts payable to Cochin and Travancore Governments.

⁽a) Includes Rs. 36,614 booked under 18-Salt representing the overtime and holiday allowances paid to members of the Salt Department in Madras in respect of Customs work done by them.

2. Fraud on customs revenue.—In December 1934, a large consignment of 66 packages was brought to a shed in a Customs office for examination and a declaration was furnished that they contained "provisions" which were assessable to duty at a comparatively low rate. During the course of clearance on the following morning before office hours, the last 6 packages were seized on suspicion after they had passed the Customs Office gate, on the basis of information received. On examination these 6 packages were found to contain silk and other articles assessable at a much higher rate of duty. The other 60 packages, which had already been cleared, were also brought back from the importer's place and examined, but nothing irregular was found in them. Investigations showed that the six packages seized, though belonging to the same importer, did not form part of the consignment of 66 brought to the examination shed but were taken direct from a godown where they had been stored prior to the examination and were cleared along with 60 packages from the shed. A duty of Rs. 351 had been paid on the 66 packages on the basis of the contents as "declared" but the duty payable on the articles found in the 6 substituted packages amounted to Rs. 2,118.

The six packages were confiscated subject to a redemption penalty of Rs. 3,500 and a direct penalty of Rs. 4,000 was imposed by the Collector on the importer, which was, however, remitted as a result of a revision application to the Governor-General in Council on the ground that the evidence did not justify the imposition of the penalty. The Collector did not find sufficient evidence to justify criminal action against the clearing agents or their representatives.

The complicity of the officers-in-charge of the particular sheds was also investigated. The behaviour of one of them subsequent to the seizure gave cause for suspicion although there was no evidence of corruption. This officer was, however, punished by the stoppage of his increments of pay for two years without prejudice to future increments, for carelessness and neglect of duty.

The fraud was rendered possible by the fact that neither of the two lots of packages stored in the customs shed and godown had any identifying marks on them. This defect in procedure was rectified by the introduction of a system of stencilling such "Nil" marked packages with distinguishing numbers before customs examination to prevent the possibility of subsequent substitution.

The practice of allowing such "Nil" marked consignments to be stored and cleared from customs sheds was found to be a long standing one and investigations brought to light presumptive evidence that the importers had taken advantage of the loophole in the system on previous occasions also. The Collector came to the conclusion that the fraud had not been practised regularly on a large scale in the past. He found, however, that even a few cases involved substantial sums and he had little doubt that thousands of rupees must have been lost*.

^{*}Accountant-General, Bengal.

GRANT No. 17.—TAXES ON INCOME.

Major Head and Sub-head.	Final Appropriation.	Actual Expenditure.	Excess + Saving —.

Notes.

1. The excess under "A. 3.—non-voted" is responsible for the excess over the grant as a whole in the non-voted portion. The family of an officer in the Income Tax Department, Punjab, left for India in October 1935 and returned in March 1936. Provision for the passage either way was not made, while a sum of Rs. 2,165 was surrendered from this sub-head in March 1936, thereby causing an excess of Rs. 2,384 in the Punjab circle. The current control was apparently not effectual.

The saving in the voted Section was caused by sub-head A. 2.—voted.

2. Among the individual sub-heads of the voted section of this grant, the most prominent saving in the original appropriation occurs under sub-head A. 2. Similar large savings occurred under the same sub-head in the accounts of 1934-35 and 1933-34. In two other sub-heads, viz., A. 3 and A. 6 appreciable excesses occurred in each of the last three years.

3. Considering the amount of total saving in the grant, the supplementary grant voted by the Assembly (Rs. 49,000) was unnecessary. 4. Remissions of Revenue.—The following important cases have been reported:—										
Area.	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,		************		2110 40		-6	_	ount.	Reasons for write off.

## Notes.

1. The total amount of surrender under this grant is Rs. 1,416, of which Rs. 696 was effected from Account I and Rs. 720 from Account II.

2. The excesses over the original grants under sub-heads A. 2 (2) and A. 7 in Account I and J. 3-Voted in Account II mainly account for the excess over the total gross voted grant and the excess recoveries under sub-heads A. 4 (6) and A. 8 in Account I and J. 10 (1) and J. 10 (2) in Account II are responsible for the savings under total voted deductions.

#### Notes.

1. Losses.—The following appreciable losses have been reported :-

Account I.—Sub-head A. 2 (4) (b).—Write off of other works (Rs. 2,032), write off of plant and machinery (Rs. 24,866). Sub-head A. 3 (4) (b).—Write off of buildings (Rs. 3,639). Sub-head A. 4 (4).—Write off of Stores (Rs. 13,210).

2. Remission of Revenue-

Nature. Amount.

Reasons for remission.

Rs.

Remission of excise duty and price of salt issued 8,621 free to villagers at Luni (Pachbadra).

Relief was afforded to the estab--lishment and villagers at Luni as there is no shop anywhere in the vicinity of the Salt tract.

## Other Salt Sources—Store Account for 1935-36.

	Bombay. maunds.	Madras. maunds.
Salt in store on 1st April 1935 (including wastage to be written off)	1,577,682	1,140,262
Salt manufactured, excavated or purchased during the year	3,602,850	380,182
Total .	5,180,532	1,520,444
Removed by purchasers during the year	2,733,422†	753,645‡
Wastage, etc., written off	566	60,459
Total .	2,733,988	814,104
Balance in store on 31st March 1936 (including wastage		
to be written off)	2,446,543*	706,340
	or 2,427,562 maunds at Rs. 1-13-3 and 18,981 maunds at Rs. 1-12-3 per maund.	Rs. 1-11-10 permaund.
Value	Rs. 44,71,400	Rs. 12,28,737

*The opening balance on 1st April 1935 was actually 1,577,681.60 maunds instead of 1,577,682 maunds and hence the actual closing balance is reduced by I maund.

- † Includes 1,582 maunds issued free to Indian States under treaty obligations.
- ‡ Includes duty-free issues for fish-curing and industrial purposes and for supply to French Government.

#### Observations.

The value of the closing balance represents the gross value inclusive of duty at Rs. 1-9-0 per maund. The net value, therefore, is:—

Bombay Rs. 6,48,677; Madras Rs. 1,25,081.

Bombay.—No special agency was employed for verification and revaluation of salt at Kharaghoda. It is stated that it is not possible to verify the actual stock of salt on hard until the stock is completely cleared. The loss and wastage or gain would be ascertained and accounted for at that stage as prescribed by the orders of the Government of India, Finance Department (Central Revenues) issued in 1933.

In Sind, there was an old stock of about 2,478 maunds to the end of November 1935. A fresh stock of 20,750 maunds was added in November and December 1935 and hence the verification of the stock could not be carried out.

The signatures of the officers in immediate charge of the stores and of the Accountant in the case of Kharaghoda Store, who are responsible for the preparation of these store accounts have been obtained by the Accountant General, Bombay.

Madras.—It has been certified by the Collector of Salt Revenue that the stocks of salt in the several factories have been verified by the Factory officers concerned and they are reported to be correct. Stocks were also verified by the Inspectors and Assistant Conniscions during their inspection and found correct. The store account obtained bears the signature of the Collector.

#### Review of the stores position of the Madras Salt Department.

Salt was manufactured on Government account under the menepoly system in the 1935 season in three places, viz., Polavaram, Markkanam factories and Ernere group of factories which supply salt to Madras depot. The stock at the close of the year under review at the depots, exclusive of wastages to be written off was 0.42 lakks of maunds at Polavaram, 0.58 lakks of maunds at Markkanam and 5.93 lakks of maunds at Madras depot. On account of unfavourable weather conditions, manufacture proved a failure in 1936 at Polavaram and Markkanam factories, the quantities stored being 6,642 maunds and 21,776 maunds respectively against 50,000 maunds fixed for each. Owing to poor stocks at Polavaram, sales were restricted to 4,000 maunds per month from June 1936 and to 3,000 maunds from October 1936 and at the latter rate the present stock will be just adequate till the beginning of 1937 season. The stock of Government salt at Markkanam which is intended solely for meeting the indents from the French Government at Pondicherry is adequate for the purpose. As stated in the review, included below the grant account of the previous year, the Ennore group of factorics working

under the monopoly system were closed from 1st January 1936. They have, however, been reopened with the exception of Kattur factory from 2nd January 1936, as factories for the manufacture of salt for general sale under the modified excise system. The stock of salt at Polavaram and Markkanam factories at the end of November 1936 was 8,592 maunds and 46,758 maunds respectively. The stock of salt at the Madras Depot at the end of November 1936 was 171,124 maunds, and as the contractor is removing not less than 50,000 maunds on an average per month, the clearance of the entire stock of Government salt is expected to be completed by 31st March 1937.

Review of Salt Stores, Bombay, furnished by the Accountant General, Bombay.

The large closing balance is due to increased manufacture of salt rendered possible by a favourable season, the opening of new pans in place of old ones which were abandoned as they did not produce sufficient quantity of salt, and the removal of difficulty in getting brine from a long distance. Steps have been taken to restirct the production during 1936-37 in view of the large balance.

The sales of salt increased by  $2\frac{1}{2}$  lakhs of maunds during the year. In the expectation that the excise duty on salt would be reduced the removals of salt were held back towards the end of 1934-35. The deficit was made up in the first quarter of the year 1935-36. On account of wastage 566 maunds were written off during the year. A quantity of 48,668 maunds has been written off after 31st March 1936 as loss and wastage on the total clearance of the 1934 salt stored in the open stores under the orders of the Central Board of Revenue.

Item (2) of the Store account includes a quantity of 5,439 maunds which were found on actual clearance of the 1935 salt stored in the closed stores.

The stock of Salt was not verified for the reasons stated in paragraphs 3 and 4 below the Store account.

#### IMPORTANT COMMENT.

Control over expenditure in the Amalgamated Department of Customs and Salt in Madras.—It was stated in the comments against this grant in the Appropriation Accounts 1934-35 that, as a result of the amalgamation of the Salt and Customs (Outports) Departments in Madras, the control of expenditure had become difficult during that year, but that it was expected that matters would improve from 1935-36 with the introduction of a detailed accounting procedure approved by the Government of India. The results in the appropriation account in respect of the Madras circle this year, however, do not indicate that this hope has as yet been fully realised. As regards the variation under the head J. 1.—Pay of officers (voted), there has been an excess of ·6 per cent. in 1935-36 against 2·9 per cent. saving in 1934-35. Under the head J. 3.—Allowances and Honoraria (voted), however, there has been an excess in 1935-36 of 5·8 per cent. as against a saving of 5·3 per cent. in the previous year. This variation is, however, accounted for by the special reasons set forth in the explanation under this head.*

* Accountant General, Madras.

#### Notes.

1. As in the last year, sub-head B is responsile for the large total saving in the voted section of the grant, the amount of which suggests that the demand for this grant was susceptible of closer estimating.

Out of the saving of Rs. 1,17,586 in the voted section, a sum of Rs. 19,488 only was surrendered to Government, the percentage of unsurrendered saving this year being -2.8 against -2.0 in the preceding year, while the percentage of variation in the final appropriation under the non-voted section compares as + ·1 against -5.9. Thus the deterioration in the control over expenditure noticed in the last year's report still persisted during this year as well.

2. Appreciable savings occurred under sub-head D. 4 for the same reason this year as in the last year.

#### Notes.

- 1. The final saving in the non-voted section of the grant is mainly attributable to subhead B. 2—non-voted, the saving under which was augmented by the recovery from the Currency Note Press of a  $\frac{2}{5}$ ths share of contribution for leave of the Master (Rs. 2,167). This recovery should not have been made and will be discontinued in future. The large saving in the voted section which amounts to  $8\cdot 1$  per cent of the grant, was caused chiefly by sub-head B. 1 (4) and B-1 (8); this saving was however, turned to an excess of ·18 per cent by the amount surrendered to Government.
- 2. Sub-head B. 1(6).—The revised procedure for calculating leave contributions on the sanctioned rates of pay of the staff for the whole year instead of for the duty periods only, which has been introduced in the Currency Note Press from 1935-36, has not yet been adopted in the Security Press. Steps have been taken to secure uniformity of procedure in the two Presses.

Notes.

^{1.} The variation under the sub-heads B, C. 3 (1)(1) and D. 5. are mainly responsible for the total saving in the voted section of the grant.

^{2.} The saving in the non-voted section works out to 5.88 per cent. of the final appropriation against 2.7 per cent. during 1934-35. The saving in the voted section however works out to 13.76 per cent. of the total grant as against 3.78 per cent. during 1934-35. Taking into account the amount surrendered out of it, the saving was reduced to 5.41 per cent. of the grant as against 0.6 per cent. during 1934-35.

^{3.} The numerous modifications and reappropriations in column 1 indicate that the original estimating was not sufficiently precise. See also the general remarks on the control of 'Works' expenditure in paragraph 54 (i) of Chapter III of the Audit Report.

5. Pro-rata distribution of Establishment and Tools and Plant charges.—The general principle regulating the adjustment of establishment charges is that establishment employed solely on a particular work is debited to that work and the remaining charges distributed over the various heads of account in proportion to the works expenditure concerned. For this purpose in Baluchistan the cost of Sub-divisional Establishment is first divided equally between Major head '15' and Major heads '16' and 'XIII' and the share of each of the latter two heads is determined in the proportion of the works expenditure under each head. The establishment charges of the Assistant Executive Engineer and his office are similarly divided in the rates of five-sixth and one-sixth between Major heads '15' and '16' and 'XIII'. The further division between the latter two heads is made in the proportion of works expenditure under each head. The cost of establishment including the Superintending Engineer and his staff engaged mainly on miscellaneous works is debitable to Major head '15'. In Rajputana, where the establishment employed on Irrigation and Civil Works is joint, the charges are debited initially to the Civil Works grant and a share of the cost of establishment is recoverable from this grant at a fixed percentage rate. In this area, the establishment which collects irrigation revenue is under the Land Revenue Department and a share of this expenditure is debited to irrigation revenue expenditure. Both in Baluchistan and Rajputana, Tools and Plant charges are debited initially to Major heads '15' and '41' respectively and the share chargeable to other heads is calculated at a fixed percentage rate.

The system of distribution of establishment charges on the basis of works expenditure is known as the *pro rata* method and the variations under sub-head D. 6 (2) are attributable more or less to the difficulty of working out the exact share of establishment charges relating to any particular sub-head.

## Audit Officers report.

 $\begin{array}{c} \text{Totals} \left\{ \begin{array}{l} \text{XIII.--Working Expenses} \\ \text{15.--Other Revenue Expendi-} \end{array} \right. \end{array} .$ 

The stock was verified during the year by the sub-Divisional Officer incharge of the stores and no revaluation was done during the year. There was a profit of Rs. 202 (roundly) which has been adjusted during 1936-37. The stores accounts were certified to be correct by the Accounts Officer.

#### IMPORTANT COMMENTS.

Loss due to defective supervision.—The realignment of an Irrigation Water course was undertaken during 1934-35 and the work was completed in March 1935 at a cost of Rs. 14,131. It appears that damage owing to bad work came to light soon after, and that the replacement of the same was sanctioned in June 1935. This cost Government Rs. 3,600. Departmental investigations showed that the work had not been properly supervised by the Sub-Divisional Officer who has been punished by removal from the Sub-Divisional charge for a period of five years and permanent forfeiture of increment for two years. No recovery could be made from the contractor who was killed in the earthquake.

It may be mentioned in this connection that the description of the new work as given in the bills and vouchers submitted to audit did not show clearly that the charges related to the rectification of bad work originally paid for at full rates.

2. Loss due to deviations from the original designs and estimates.—A river flood protection bund was constructed in September 1935 at a cost of Rs. 61,791 against an estimate of Rs. 60,000 but due to heavy floods in the river in February 1936 a portion of the bund was washed away and the remainder considerably eroded. A sum of Rs. 74,270 is estimated to be spent in the re-making of the damaged portion of the bund and constructing along with the repairs, certain other works which were found necessary.

A comparison of the original estimate with the work actually executed showed that material deviations were made from the original estimate. The original estimate provided for the construction of a toe wall and the pitching of the whole length of the bund but in actual execution, the toe wall was altogether omitted and out of a total length of 4,200 feet of bund only a length of 800 feet was pitched.

The Government of India have agreed that the damage to the bund was due to the failure to construct the above two items of work as provided for in the original estimate. They consider, however, that the alternative plan adopted, of developing a cut in the river was not unreasonable, as it would, if it had been a success, have protected the bund by diverting flood-water away from it, even more effectively than the provision of the toe wall and extra pitching. The officer responsible for the difference between the work actually executed and the work provided in the original estimate was killed in the earthquake and this hampered further investigation, but the Government of India consider that the fact that the plans actually adopted were not completely successful can at the worst only be ascribed to an error of judgment. The Government of India have also observed that the behaviour of rivers on flood is not always calculable with exactitude and damage to flood protection bunds must be expected periodically.

### NOTES.

Deductions

1. The saving in the voted section has been mainly contributed by sub-heads D. 9 and D. 10.

-2,78,000

42,39,000

-2,74,308

41,67,826

+3,692

71.174

- 2. A review of the Debt Redemption Scheme for the year, with which sub-heads F and G under "Appropriation for Reduction or Avoidance of Debt" are concerned, will be found in paragraph 24 of Chapter II of the Report.
- 3. Sub-head A I (1).—The sub-head A 1 (2)—Reserve provision for service of New Loans has been abolished and amalgamated with this sub-head with effect from 1935-36.

#### IMPORTANT COMMENTS.

1. Loss of Government money by fraud.—A Covernment promissory note for Rs. 5,000 standing in the name of a certain lady was negotiated by means of a forged endorsement and ultimately renewed in favour of a bank. The forger was prosecuted and convicted. Thereafter, a suit was filed against the Secretary of State, by the lady, claiming the value of the note transferred by the forged endorsement and it was defended on the plea of negligence on the part of the plaintiff. The suit, was,

however, decided against the Secretary of State on 19thMarch 1935 and a decree was passed for Rs. 5,016 and costs plus interest on the decretal amount at 6 per cent. per annum from the date of the judgment. This has resulted in a loss of Rs. 6,506 (the value of note Rs. 5,016 plus interest Rs. 75 plus costs Rs. 1,415) recorded under the sub-head "A-5 Miscellaneous" in this Grant. In addition, a sum of Rs. 1,257 payable to the Government Solicitor, who defended the case, was debited to the contingent charges of the Controller of the Currency. An appeal was preferred in this case but it failed and was dismissed with costs. This involved a further loss of Rs. 6,788 to Government during 1936-37 (Rs. 1,721 being debitable to sub-head A. 5—Miscellaneous under this Grant and Rs. 5,067 to the Contingencies of the Controller of the Currency).

- 2. Yet another case of a similar nature has occurred in 1936-37, when a promissory note for Rs. 1,000 standing in the name of another lady was stolen in August 1934 and sold to a Bank after forged endorsement and renewed. The culprit was arrested and convicted by the Bombay High Court and the lady put forward a claim for the value of the note. The loss in this case to Government amounted to Rs. 2,038 including the decretal amount, interest and costs.
- 3. A similar case, in which two Government promisory notes standing in the name of a certain lady were dealt with by forged endorsements resulting in a loss of Rs. 6,040 to Government was reported on page 81 of the Appropriation Accounts for 1933-34. The entire amount of loss involved in this case was made good by the bankers in whose favour the notes were ultimately renewed.*

^{*} Accountant General, Bengal.

\\Voted .		•	7,25,000	7,38,556	+13,556

#### Note.

As usual, the variation under sub-head A-3(voted) is mainly responsible for the final excess in the voted section of the grant. The large final saving under non-voted section of the grant is attributable to the variations under sub-heads A. 1. and A. 3 (non-voted). The variations under "A. 3.—non-voted and voted" show a deterioration as compared with the previous year's results.

#### Nores.

The expenditure on the Posts and Telegraphs and Railway Audit establishments which was formerly booked in details under the respective departmental heads is with effect from 1935-36 being included under this demand; the total expenditure in respect of both the departments being cleared by a lump deduction equal to the expenditure. (See paragraphs 10 and 11 of Chapter I).

2. The grant under '2—Railways' corresponding to "43—Audit" was increased by a supplementary vote to the extent of 78 thousand and it was treated as automatically increasing the corresponding plus and minus provisions under the Audit Demand without any formal sanction.

#### Note.

Sub-head H.—Grants in-aid to Vizagapatam Port.—The Government of India have decided that as for some years the income of the Vizagapatam Port will not be sufficient to meet the ordinary expenses of the Port, excluding interest charges on capital outlay, an annual grantin-aid should be made to the Port Fund Reserve Account, commencing from the year 1935-36, to enable it to meet the annual deficit in the ordinary working of the Port.

## GRANT No. 47.-LIGHTHOUSES AND LIGHTSHIPS.

Col. 1.—In anticipation that a surrender of Rs. 56,000 indicated in the Revised Estimates was being accepted by Government the additional appropriation was subsequently obtained to provide for certain payments earlier than expected. No intimation of acceptance of the surrender was, however, received. Col. 4.—Excluding the additional appropriation, the saving is Rs. 45,320, due to fewer indents (about Rs. 10,933), reduction in prices (about Rs. 5,600) and liabilities carried forward to 1936-37 (about Rs. 28,787).

#### Nores.

 The total voted saving in the Indian portion of the Grant has been mainly caused by the group sub-head E. and is chiefly due to inevitable fluctuations in demands from outside bedies for survey work and supplies of maps, instruments, etc.

The percentage of variations under this group head for the four years ending 1935-36 are +7.6, -3, -2 and -6 respectively.

2. Reappropriations under sub-heads D. 3-Voted and E. 5 were in the wrong direction, and that under sub-head D. 9 proved to be much in excess of requirements.

- 3. Sub-heads B. 4, C 4, and D-4.—It was explained by the Controlling Officer in the previous year (vide Note 2 on page 133 of the Appropriation Accounts for 1934-35) that variations in connection with customs duty on stores purchased outside India were not susceptible of control, the main difficulty lying in the fact that it could seldom be known until the last moment what proportion of the stores indented for would reach India in the current or the next financial year. The Controlling Officer explained that the submission of indents for English Stores was unavoidably delayed during the year under report, thus making the position still more uncertain and stated that steps had been taken by him to prevent recurrence of delay in the submission of indents in future.
- 4. Sub-heads B. 5 and D. 8.—Until the financial year 1935-36, the Mathematical Instrument Office levied charges from other branches of the Survey of India for work done for them, and provision for expenditure in their budgets was made accordingly with an off-setting recovery of an equal amount in the deduct sub-head pertaining to the Mathematical Instrument Office. Some time after the budget for 1935-36 had been framed, it was decided that the Mathematical Instrument Office being a branch of the Survey of India and constituted for the subsidiary service of that Department should not charge other branches of the same Department.

Statement of maps of the Map Record and Issue Office for 1935-36.

CALCUTTA:								

The 7th October 1936.

Review on the store account of the Map Record and Issue Office, Calcutta, for 1935-36.

The store account this year calls for no special comment.

The Map transactions at Dehra Dun are separately compiled by the Geodetic Branch Map Office and are independently audited by the Accountant General, United Provinces.

Final effect has been given to all suggestions hitherto put forward by Audit.

The physical verification of stock by the Officer-in-Charge was carried out throughout the year at frequent intervals.

O. N. PUSHONG, CALCUTTA; Superintendent, The 7th October 1936. Officer in Charge,

Map Record and Issue Office.

Audit Comments.—The closing stocks of Maps held at the Map Record and Issue Office are compared below:—

1931-32	•	•	•		•	•	•		•	1,978,345
1932-33	•							•		2,077,123
1933-34	•	•						•	•	2,146,202
1934-35	•	•	•	•	•		•		•	2,188,713
1935-36	•	•	•					•		2,213,873

The number of maps superseded and written off during the year 1935-36 amount to 44,578 as against 23,077 in 1934-35.

Store Account of the Photo Litho Office, Survey of India, for 1935-36.

Categ	ories.	Opening Balance.	Received.	Issued.	Surplus stock disposed of.	Closing Balance.

Result of stock verification .- No difference.

Agency employed for revaluation or verification.—Running checks throughout the year by a stock check clerk and frequent test checks by gazetted officers deputising for the officer in charge.

General.-No dead stock was written off.

- (a) Includes Rs. 634-2-0 as spare parts of machinery held in Store as dead stock on 1st April 1935, but excludes Rs. 6,824-1-0 on account of stores held in the sub-store of paper, etc., on 31st March 1935.
  - (b) Includes Rs. 13,576-10-6 as spare parts of machinery held in Store as dead stock.
- (c) Includes Rs. 5,801 on account of free supply to survey units and Rs. 13,415-8-6 as spare parts of machinery held in Store as dead stock.
  - (d) Represents Book value of surplus stock, etc., disposed of in 1935-36.
- (e) Excludes stores held in the sub-store of paper, etc., on 31st March 1936, viz., Rs. 10,877-4-0, but includes Rs. 795-4-0 as spare parts of machinery held in Store as dead stock.
- (f) Most of these stores are not produced in India and so large stocks have to be held in case of emergency.
- (3) Includes Rs. 13,000 of zinc plates. These are sufficient for the printing of about 300 maps in colours. If storage space were available, plates would be kept standing ready for a reprint. Owing to lack of storage space, old plates are cleaned off and used again and the stock of new plates cannot be taken into use.
- (h) Approximate 1 1/3 years supply. As some articles are only obtainable abroad, a larger stock of these has to be kept.
- (i) A special class of paper not manufactured in India is required for printing maps. In 1914-1920 great difficulties were experienced in getting suitable paper and therefore large stocks are now maintained.

AMULYA RATAN BANERJI,

Store Accountant.

G. F. HEANEY, Major, R. E., Officer in Charge, Photo Litho Office, Survey of India.

M. L. BISWAS, Chief Store Keeper.

R. M. ROY, 15-10-36.

Assistant Accounts Officer,
Office of Accountant General, Bengal,

CALCUTTA; 26th September 1936.

Calcutta.

Review on the store account of the Photo Litho Office, Survey of India, Calcutta, for 1935-36.—Stocks were subject to a routine running check and routine test verification during the year.

- 2. Surplus stocks to the extent of Rs. 1,476 were disposed of by public auction in the year under review.
- 3. Total value of issues during the year was Rs. 88,377 against Rs. 85,443 of 1934-35 whereas the total value of receipt was Rs. 55,127 against Rs. 96,159. The stores have been valued and accounted for on the same system as was in use last year.
- 4. This great reduction in the value of receipts and consequently in the value of the closing balance is due to two main causes.
  - (1) The receipt of a considerable part of the indent for European Stores for 1935-36 after the close of the financial year.
  - (2) Arrangements to purchase certain items of stores such as plate glass, for photographic negatives, in India which had previously to be imported thus reducing the amount which it is necessary to keep in reserve to meet emergencies.

G. F. HEANEY.

CALCUTTA;
The 26th September 1936.

Major, R. E., Officer in charge, Photo Litho Office, Survey of India, Calcutta.

Audit Comment.—The closing balance of the year which amounted to Rs. 2,13,919 though slightly less than that of the previous year was still more than twice the total issues during the year which amounted to Rs. 88,377.

Store Account of the Maps published and stocked by the Survey of India Department at Dehra Dun for 1935-36.

Review on the store account of the Map Record section of the Geodetic Branch, Dehra Dun for 1935-36.

- 1. Two stock verification registers showing the number of copies of each map actually found in stock, the number given in the ledger concerned and the number found in excess or deficit, were opened with effect from July and November 1935.
- 2. Numerous ledgers showing both receipts and issues of all scales and classes of maps are maintained.

DEHRA DUN;
The 28th August 1936.

F. C. PILCHER, Officer-in-Charge.

Audit Comment.—The annual statement of the Map store account at Dehra Dun for 1935-36 was found to be correct subject to the following remarks:—

The Surveyor General ordered that the summary of accounts should clearly indicate the disposal of all maps published at Dehra Dun except Forest Maps. In the annual accounts the Extra-departmental maps were excluded. The procedure adopted appeared contrary to the orders of Surveyor General and their exclusion would require further clear orders of the Surveyor General.

The number of maps (13,719) shown as issued did not agree with the number of maps (16,074) worked out in the office file showing rough and day to day issue of maps. The difference of maps (2,355) would require reconciliation. Besides this difference, there were other minor discrepancies requiring reconciliation which have been brought to notice in the objection statement*.

^{*}Accountant General, United Provinces.

#### Note.

The saving in the voted section of the grant was mainly contributed by the savings in the original appropriation under sub-head B. It has been explained that owing to a change in the method of accounting in 1933-34, and several other factors, a closer estimate was not possible.

- 1. The Controlling Officer explained that Government was approached about the middle of March for regularising the savings and excesses under various sub-heads including A. 2. (voted) B. 1 (non-voted), B. 2, B. 3 (voted). It appears, however, that the factors leading to savings and excesses under A. 2 (voted), B. 3 (voted) and B. 1 (non-voted) at any rate were known sufficiently early to admit of regularisation being made during the course of the year. This indicates room for improvement in control over expenditure.
- 2. Sub-head B. 6.—The expenditure recorded under this sub-head represents cost of extraction of Quinine Sulphate and Cinchona Febrifuge from Government of India Cinchona bark at the Government of Bengal Quinine Factory, Mungpoo, for the year 1935-36, and has been duly audited by the Accountant General, Bengal. It was mentioned in note 2 on page 140 of the Appropriation Account for 1934-35 that the question of maintenance of store accounts in the Quinine Factory at Mungpoo had not then been decided by the Government of India. Orders have since been issued by them and accordingly fully priced stock accounts of certain major items of stores, are now being maintained.

As a result of the test audit of the accounts for 1934-35, it was found that a sum of Rs. 3,906 was debited against Government of India in excess, in the accounts of that year. The question of the necessary re-adjustment is under the consideration of the Government of Bengal

A. BANERJEA, Head Clerk, Botanical Survey of India.

C. C. CALDER,

Director,

Botanical Survey of India.

CALCUTTA:
The 12th November 1936.

Certified that the stock of Government of India quinine sulphate for the year 1935-36 was verified as follows:—

The stock at Indian Museum by the Director, Botanical Survey of India.

The stock at Mungpoo by the Quinologist to the Government of Bengal.

The stock at Naduvattam by the Deputy Director of Agriculture, Ootacamund.

There was no appreciable shortage, depreciation, etc., of quinine sulphate. No revaluation was made, nor was any outside agency employed for the verification of the stock at the Indian Museum, Mungpoo and Naduvattam.

C. C. CALDER,

(b) Last year's account showed lbs. 256,284 and Rs. 1,60,177 in the quantity and the value columns respectively against the closing balance of Java Bark. The increase of the opening balance by lbs. 100 and Rs. 63 in the year under report is due to a correction made in a local audit conducted after the submission of the store accounts last year.

Mungpoo; }
The 3rd July 1936.

S. C. SEN, Quinologist to the Government of Bengal, Government Quinine Factory, Mungpoo.

Certified that I have verified the stock of bark for the year 1935-36 as far as practicable without actual weighing, except on arrival, and found it correct. One consignment of Java and one of Burma were reweighed in my presence and the original weight confirmed. No agency was employed for the verification of the stock.

Mungpoo; The 3rd July 1936.

S. C. SEN, Quinologist to the Government of Bengal.

Review.—Substantial steps were taken to liquidate the surplus stocks inasmuch as 49,451 lbs. were distributed free to the various Local Governments except Bengal. The quantity above the Reserve Stock of 150,000 lbs. is only 7,870 lbs. which will inevitably prove inadequate to meet the normal annual distributions.

Manufacture of tablets went on as usual. A small quantity of Cinchona Febrifuge tablets was manufactured with a view to comply with indents from the Punjab.

C. C. CALDER,

CALCUTTA: The 12th November, 1936. Director, Botanical Survey of India. † Audit Comments on the Store Accounts of the Botanical Survey of India.

1. The following table compares the total value of stocks (Quinine and Bark) at the close of the last three financial years:—

			,	*
(1)		1935-36. (2) R <b>s</b> .	1934-35. (3) Rs.	1933-34. (4) Rs.
Quinine—				-
Sulphate	•	28,41,660 13,454 488 1,37,133 2,166 29,94,901	42,45,588 13,935 3,988 *1,77,183 <i>Nil</i> . *44,40,694	48,17,826 6,107 Nil. 1,90,323 Nil. 50,14,256
Bark at—	-	· · · · · · · · · · · · · · · · · · ·		
Mungpoo	•	2,79,813 46,255	2,81,422 43,179	3,36,377 10,964
Total		3,26,068	3,24,601	3,47,341
	_			

^{*} Exclusive of Rs. 24,462 erroneously included last year in the audit comments.

The heavy drops in the stock of the quinine products during the year 1935-36 was mainly due to a reduction in the manufacture of Trade Quinine amounting to about Rs. 3,24,000 and to the free distribution of about Rs. 8,90,000 worth of quinine to the various local Governments except Bengal.

There has been a slight accumulation in the stock of Bark during the year.

2. The Government of India agreed to the waiving of the annual verification of their stock of Crude Quinine at Mungpoo on conditions, among others, that separate accounts are kept of each bin and that as each bin is cleared, any excess or shortage found is adjusted. Six bins of quinine were used up during 1935-36 and an excess of about Rs. 2,900 in one bin and a total shortage of about Rs. 26,700 in the other five bins have been reported to the Government of India for their orders for the necessary adjustment in accounts. In his report, the Director, Botanical Survey of India, states that the excess is mainly due to errors in analysis on which the estimates of the quinine sulphate content of crude quinine was based. In his opinion the percentages of gain and loss appear to be normal.

[†] Accountant General, Bengal.

### IMPORTANT COMMENTS.

Short credit of Rs. 2,004 (round) into a Government Treasury of the saleproceeds of tickets for admission to the Archæological Areas in a Fort .- Out of the sale-proceeds of admission tickets to the Archæological area in a Fort during the period from November 1931 to 31st May 1933, sums aggregating Rs. 2,004 (round) were not credited by the Custodian of the Area, a

retired Military Officer, who was a part-time officer. Under standing orders the Custodian was required to credit the amount of the daily saleproceeds of tickets into the treasury on the morning of the following working day and to send each month to the controlling officer a statement showing the total number (specifying the serial numbers) of tickets sold and their value supported by a consolidated treasury receipt. The check of these statements in the office of the controlling officer revealed discrepancies which the Custodian was asked to reconcile. This he did for some time but later on, avoided the submission of the monthly accounts and consolidated treasury receipts on one pretext or another. This necessitated a check of the accounts on the spot which revealed short credit of the amount referred to and also showed that the books and accounts had not been kept in a satisfactory manner by the Custodian ever since his appointment in 1931. The accounts for the period from November 1931 to May 1933 were also locally audited by the audit office and the total amount of short credit noticed therein was found to agree with the figures worked out by the controlling officer.

The Government of India, to whom the case was reported, came to the conclusion that the primary responsibility for the total loss lay with the Head of the Department but as he had retired from service, no disciplinary action against him was possible. Of the other three officers, who held charge of the circle from time to time, one was exonerated and the remaining two warned for the future. As regards the Custodian himself, the Government of India observed that an unsuitable appointment to the post involving the control of daily and varying receipts of money was the primary cause of the loss and more care should be exercised in such selections in future. As under legal advice no criminal responsibility on the part of the Custodian could be maintained and as he was reported to have no property, the question of recovery from him could not be pursued and the Government of India sanctioned the write-off of the loss of Rs. 2,004 (round).

To prevent a recurrence of such losses, the relevant departmental rules and orders have been suitably amended.

2. Recovery of Rs. 27,830 by the Archæological Department in a land acquisition case relating to a tomb under that Department.—To improve a tomb which is a Central Protected Monument, some land around it was acquired in May 1919 under the Land Acquisition Act at an estimated cost of Rs. 13,885. As a result, however, of an appeal preferred by the owners of the land, the award was enhanced to Rs. 39,855 which was paid by the Archæological Department in March 1926.

On a further appeal by Government to the High Court the case was finally decided in June 1933 with the result that while the Archæological Department had to pay a sum of Rs. 3,477 on account of enhanced compensation to one party, the amounts of Rs. 14,425, Rs. 13,305 and Rs. 100 aggregating Rs. 27,830 were ordered to be recovered from the other three parties.

Only the last mentioned amount has so far been recovered. The latest correspondence on the subject shows that the judgment debtor in respect of the first amount is dead and that his legal representatives have already been brought on record and that there is every likelihood of the recovery of the decretal amount. As regards the second party, steps are being taken to realise the whole amount by attachment of the party's immovable property in another district.

#### Note.

Central Museum, Calcutta.—In accordance with the wishes of the Public Accounts Committee, as expressed in its preceedings of the year 1934, a statement is given below showing the total Receipts and Expenditure attributable to the Central Museum, Calcutta. The excess of expenditure over total receipts was Rs. 1,59,194. This was met to the extent of Rs. 894 by reduction of the General Museum Furd in the custedy of the Trustees and the balance from the public funds either by way of grants-in-aid (of which the Bengal Government contributed Rs. 7.975) or direct expenditure of the Government of India.

#### CENTRAL MUSEUM, CALCUTTA, 1935-36.

#### Notes.

- 1. The excess in the non-voted section occurred under sub-head A. 1, and amounted to 3·19 per cent. of the final appropriation in the grant during this year as against only '39 per cent. during the previous year.
- 2. Provision for the expenditure of the All India Medical Council was formerly made in Grant No. 57 under the respective sub-heads, e.g., Pay of officers, Pay of Establishments, etc., subordinate to the group head C—Other Medical Establishments. As the Council is a non-Government Body, provision has been made for the first time this year under the sub-head E.—grants for medical purposes.

FATEH CHAND, Head Clerk.

CENTRAL RESEARCH INSTITUTE, KASAULI;

Dated 24th August 1936.

J. TAYLOR, Lt.-Colonel, I.M.S.. Director.

^{1.} The attention of the controlling officers has been drawn to the instances of wrong provision noticed in Bengal under the sub-head D. 3 (3) Voted and in Bombay under the sub-head D. 7 (3) voted. The case of over-estimation under sub-head D. 3 (4) and that of want of provision under sub-head E. 8 are brought to notice.

Store Accounts for the year 1935-36 of sera, vaccines, etc., manufactured at the Central Research Institute, Kasauli.

				Opening balance.	Receipts during the year.	Utilizations, sale and other dispo- sals during the year.		Closing balance.

⁽a) Transferred from stores to the vacuumising department.

The stocks of (i) empty capsules not vacuumised, (2) filled up capsules of sera and vaccines and of vaccumised capsules and (3) vaccines finished but not bottled are regularly checked as follows:—

In the case of (1) by sample check along with that of all other stores, quarterly by the Store Clerk, half yearly by the Assistant to Director and annually by the Director who records the result in the several stock registers and submits a certificate of this to the Director General, Indian Medical Service.

In the case of (2) and (3) yearly and monthly respectively by the Assistant Director in charge of sera and vaccines manufacture, the result of verification being recorded in the registers at the time of check.

The result of the checks exercised is always satisfactory and the last check was made on the 31st December 1935 in respect of (1) and on the 31st March 1936 and 1st August 1936 respectively in respect of (2) and (3).

The position of the stores is satisfactory and the closing balances are not unnecessarily large.

FATEH CHAND, J. TAYLOR,

CENTRAL RESEARCH, INSTITUTE, KASAULI;

Dated 24th August 1936.

FATEH CHAND, J. TAYLOR,

Colonel, I.M.S.,

Director.

Comments of the Director on the financial result for the year 1935-36 of the manufacture of vaccines, sera, etc., at the Central Research Institute, Kasauli.

A profit of Rs. 64,630 accrued to the Institute during the year under review against Rs. 16,229 in 1934-35. This is mainly due to increased sale of cholera and mixed typhoid and paratyphoid vaccines and antivenom serum as may be seen from the following comparative statement:—

	,							Unit.	Sold in 1934-35.	Sold in 1935-36.
1								2	3	4
Cholera vaccine	•		•	•		•	•	c.cs.	808,784.5	1,652,085.5
Mixed typhoid and	parat	yphoi	id va	ccine				"	350,957	396,790.5
Mixed influenza vac	ccine .			••	•	•	•	**	19,380	26,386
Antivenom serum			•	•	•	•	•	Tubes of 40cc	36	••
", serum		•	•	•	•	•	•	Concentrated Tubes of 10cc	5,752	6,393

There is steady increase in the demand for antivenom serum which is bivalent against the venoms of the Indian Cobra and the Daboia, for use in treatment of snake-bite, this being the only source of its supply in India. The demand for cholera vaccine was also abnormal from area in which cholera was prevalent during the year in epidemic form and where mass inocculation was carried out. Under normal conditions the issues of this vaccine would be much less due to the fact that provinces to which supplies were formerly made have undertaken their own manufacture.

24,485 ccs.of antimenigococcus vaccine was also issued during 1935-36 free of charge for trial as an experimental measure. The cost of this, Rs, 3,060, at the rate of two annas per cc. fixed for mixed typhoid and paratyphoid vaccine, if added to income, will increase the profit to Rs. 67,690.

The increase in expenditure for 1935-36 as compared with the previous year has resulted chiefly from (1) promotion of officers to higher rates of pay, (2) discontinuance of the emergency cut in pay and (3) larger sale of products of the Institute which necessitated larger purchases.

J. TAYLOR,

CENTRAL RESEARCH INSTITUTE, KASAULI;

Colonel, I.M.S., Director.

Dated 24th August 1936.

Observations by Audit.

The accounts of the Central Research Institute, Kasauli, are audited once in 3 years. The last audit was conducted in May and June 1936. The accounts of vaccines, sera, and stores for 1933-34 and 1934-35 were audited and no remarks are called for. The accounts for 1935-36 had not been closed at the time of the last audit. They will be audited at the next inspection in 1939.

#### Notes.

1. Group head I.—The refunds made by the Indian Central Cotton Committee correspond to the drawings from the treasury, less cost of passage and leave salary which are borne by Government against leave and pension contributions paid by the Committee. Under Non-voted and voted heads the appropriation and expenditure compare as below:—

					Non-v	oted.	Voted.		
					Appropria-	Expendi-	Appropria-	Expendi-	
					tion.	ture.	tion.	fur .	
					$\mathbf{Rs.}$	$\operatorname{Rs}$ .	$\operatorname{Rs}.$	$\mathbf{Rs.}$	
Gross .					25,237	25,139	22,435	22,332	
Recoveries	•	•		•	25,237	25,139	21,135	-21,610	
		1	Vet	•			1,300	722	

- 2. The percentage of saving in the non-voted section of the grant, for which sub-head B. 1 is mainly responsible, amounts to 7.9 this year as against—.73 in the last year, while the saving in the voted section is attributable to sub-head O.
- 3. Reappropriations of considerable magnitude are noticed under sub-heads C. 4, C. 7, C. 8 C. 9, F. 3 (1) and J. 2. Although it has been stated that economy was exercised under some sub-heads to meet the cost of transfer of the Agricultural Research Institute from Pusa to Delhi during 1935-36 and 1936-37, savings under several sub-heads would seem to indicate some overbudgeting in the original estimates.
- 4. The capital expenditure in connection with the transfer of the Agricultural Research Institute, Pusa was provided by a supplementary vote under Grant No. 92-A, the other charges in connection with the transfer were met by reappropriation under this grant.
- 5. Sub-head C.—The Income and Expenditure Account of the Agricultural Sub-Station Imperial Institute of Agricultural Research, Karnal (late Imperial Cattle Breeding Farm Karnal) for 1935-36 has been audited and found correct according to the entries in the books, the scrutiny of which was restricted to two months' transactions of the year.

The income for the year under review was Rs. 33,854 against the expenditure of Rs. 85,395 resulting in a deficiency of Rs. 51,541 as against a deficiency of Rs. 46,495 m 1934-35. Excluding Rs. 9,656 on account of Depreciation of Buildings, Plant ard Machinery, the corresponding figure of deficiency for 1935-36 amounted to Rs. 41,885 as against Rs. 36,764 in 1934-35 and Rs. 21,769 in 1933-34. This was mainly due to less land leased on cash rental, less area sown under rice crop and farm share of Batai produce being lowered from ½ to ½rd, less sales of surplus wheat, gram, Bhoosa, standing crops, etc., transfer of 249·2 acres of land to the Imperial Agriculturist, feeding comparatively more milk to farm stock and turning milk into cheese for demonstration purposes.

- 6. Sub-heads A. and B.—The Income and Expenditure account of the Agricultural Research Institute, Pusa, for the year 1935-36 has been audited and found correct according to the books of the Institute, the extent of audit being limited to the check of the transactions for a month generally and to two months or more in certain cases.
- 7. Group head K.—The grants made for various schemes of research by the Imperial Council of Agricultural Research are credited to a deposit head. The actual expenditure incurred from time to time is recorded under sub-heads K. 1 to K. 5 and the equivalent amount transferred from the deposit head is treated at present as reduction of expenditure (sub-head K. 6). It has since been decided by the Auditor General in India that the amount representing the actual expenditure during the year transferred from the deposit head should, with effect from 1937-38, be taken to the corresponding revenue head instead of to the service head.

ACCOUNT of consumable stores of the Imperial Institute of Animal Husbandry and Dairying, Bangalore, for 1935-36.

						Total			78,300

* Includes Rs. 143 representing the book value of the stores sold in auction. Separate exhibition of amounts realised in auction and the consequent loss is not possible as unpriced articles also are included in the lots put up for auction.

† Consists of figures under the following categories:—(1) Fodder, etc. of dairy cattle (Rs. 3,379); (2) building materials (Rs. 37); (3) stores and spare parts for repairs to plant (Rs. 1,800); and (4) other miscellaneous stores (Rs. 3,692).

2. The stocks were verified by the Superintendent periodically during the year and  $n_0$  discrepancies were found except the following:—

•		Parti	cular	s.					Excess.	Deficiency.
	Bottle caps	•	•		•		•	•	(a) 2,600	
	Silage .					•			(b) 4,658 lbs.	(c) 12,374 lbs.
	Cotton seed					•				(d) $2,22\frac{3}{4}$ lbs
(a)	Excess found	in th	e con	signm	ent r	eceive	d fror	n the	firm packed in re	olls.
thi	Due chiefly t	a mais	tura	in the	nit.	after	onenii	no on	account of rain.	

(c) Due chiefly to mouldiness and dryage.

(d) Gone bad and unfit for cattle consumption. Used for manure.

The above excesses were taken in the stock book and accounted for and the deficiencies were taken in the loss register and written off under the sanction of the competent authority.

- 3. The verification was done periodically by the Superintendent of the Institute by actual count or weighment. The stores were not verified by any other agency. No revaluation of stock was done during the year.
- 4. No excessive purchases were made during the year and the closing stocks were not in excess of requirements.

Name of the Agency employed for the valuation-Imperial Dairy Expert, Bangalore.

BANGALORE; The 10th July 1936.	A. D. MANICKAVELU, Accountant, Imperial Institute of Animal Husbandry and Dairying, Bangalore.	S. COX, Superintendent, Imperial Institute of Animal Husbandry and Dairying, Bangalore.
--------------------------------	------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------

Audit Comments.—The valuation of the animals was made in accordance with the principles contained in the Government of India, Department of Education, Health and Lands, letter No. F. 199/33-A., dated the 3rd July 1936.

The store accounts for consumable stores and for the animals belonging to the Imperial Institute of Animal Husbandry and Dairying, Bangalore, for the year 1935-36 were test checked and the results were satisfactory.*

^{*} Accountant General, Madras.

Summary of Store Account of the animals belonging to the Agricultural Sub-Station, Imperial Institute of Agricultural Research, Karnal (late Imperial Cattle-Breeding Farm, Karnal) for the period from 1st April 1935 to 31st March 1936.

Name of Agency employed for the verifica-tion and revoluation. The Imperial Agriculturist, Imperial Institute of Agricultural Research, Pusa.

Method adopted for revaluation .

Each animal was inspected and its price estimated after allowing proper depreciation or appreciation over its previous year's value as the case needed. Due consideration was given to the present sale rates of pedigree animals of the herd.

Certified that the animals were actually counted and their number found to agree with the number shown in the Stock Register (Cattle yard Report Book).

KARNAL; Dated the 6th July 1936. S. M. JAMAL-UD-DIN,

Offg. Superintendent,

Sub-Station, Imperial Institute of Agricultural Research, Karnal.

#### ABDUL RAZAK,

Senior Auditor,

Local Fund Accounts, Punjab.

* Includes Rs. 3,745 representing the value of 40 bullocks transferred from the Pusa Section. The bullocks transferred were taken at nil value, but later they were valued at Rs. 3,745 at the time of revaluation of the live stock.

Audit Comments.—The increase in the closing balance of the value of animals on the 31st March 1936 as compared with the opening balance on 1st April 1935 is mainly due to the transfer of 40 bullocks the value of which stood at Rs. 3,745 on 31st March 1936, from the Pusa Section.

#### TMPORTANT COMMENT.

1. Sugar Excise Fund.—In accordance with the proposal in paragraph 26(d) of the late Hon'ble Finance Member's speech introducing the budget for the year 1934-35, an amount equivalent to one anna of excise duty per hundred-weight of sugar is set aside for distribution among the provinces where white sugar is produced, for the purpose of assisting the organisation and operation of co-operative societies among the cane-growers so as to help them in securing fair prices, or for other purposes directed to the same end. The exact amount available for distribution depends on the revenue actually realised from the exicse duty on sugar and grants from the fund are only made for schemes approved by the Government of India, a certain sum being kept aside as a central reserve fund for grants to centrally administered areas and for assisting special measures, if any, that may be necessary in any province.

† Accountant General, Punjab.

Grants made by the Central Government to Provincial Governments and local Administrations appear as expenditure of the former under Demand No. 59 (vide sub-head Q.) With the grants received by it, each Provincial Government builds up a deposit fund with the results that (1) these grants merge in the balances of the Provincial Governments concerned, (2) necessary transfer therefrom to the revenue head concerned is made at the end of each year to the extent of the actual expenditure incurred by the Government during the year on schemes approved by the Government of India, and (3) any unspent balances thereof remaining with the Provincial Government at the end of the financial year do not lapse to the Government of India but are utilised by the Provincial Government on expenditure on the same object during the succeeding year. A similar procedure is followed in respect of the centrally administered areas, where the actual expenditure charged in the first instance to the service head is ultimately transferred to the deposit head.

The total amounts realised and distributed and the balance available up to the end of 1935-36 are indicated below:—

										Rs.
(1) Amount	equi	valen	t to on	e ann	a per e	cwt. of	suga	r actu	ally set aside	12,15,645
(2) Amount	distr	ibute	d to t	he vai	rious j	provin	ces	•	Rs.	7,43,424

						T	otal		7,43,424	
(3) Balance	at th	le enc	l of 19	35-36	avail	able fe	or dist	ributio	on	4,72,221

N.B.—No allotment was made to centrally administered areas up to the end of 1935-36.

2. Government Research Creamery at Anand (in liquidation).—It was mentioned at page 170 of the last year's report that the creamery having been closed down in February 1932 as a measure of retrenchment, the assets valued at Rs. 52,000 in round figures excluding land, had not been disposed of, pending the decision of the Government of India, respecting the proposal to reopen the creamery. The Government of India have decided (April 1936) to re-establish the experimental creamery.

The loss on the sale of stores, etc., during the period from 1st March 1932 to 31st March 1936, including the net liquidation expenses, amounted to Rs. 1,822.

The verification of the stores at the Creamery, which are in the custody of a caretaker, has not been carried out during the year under review, as the services of the official, who was formerly doing the work, were not available. The Government of India, in the Department of Education, Health and Lands, have since (September 1936) nominated another official by whom the verification of the stores should be made in future.*

^{*} Accountant-General, Madras.

#### Notes.

- 1. The comparatively large saving in the voted section of the grant is mainly attributable to sub-head D.
- 2. The variations in column 1 under sub-heads D, E. 1, F. 2, H and P are brought to notice. The original estimates thereunder might apparently have been closer.
- 3. The Income and Expenditure account of the Dairy attached to the Imperial Institute of Veterinary Research, Muktesar, for 1935-36 was test audited by the Accountant General, United Provinces; and calls for no special audit comments.
- 4. Sub-head P.—There was only one important major work pertaining to this sub-head, the details of which are given below:—

Installation of a water supply system at the Imperial Veterinary Serum Institute, Izatnagar. Estimate Rs. 47,036; final appropriation Rs. 22,960; expenditure to end of March 1936, Rs. 22,490; in progress.

## IMPORTANT COMMENTS.

Construction of runways on a lunding ground.—To provide facilities for an all weather landing at a certain station, it was decided to construct two hard runways, one along each arm of the existing landing ground. The intention was to secure a firm course in all weathers at the cheapest specifications. The Provincial Public Works Department were accordingly asked to furnish detailed estimates for the three alternative specifications suggested by the various technical authorities consulted in the matter. The Road Engineer to the Government was firmly convinced that the usual depths of road metal used might be reduced and for Gaya he considered that 3" of moorum soling (in place of brick) with 2" of stone metal over, plus a seal coat of bitumen or tar, would be certainly adequate and that it might be tried experimentally. The advice of the Chief Engineer, Royal Air Force was also obtained before the Provincial Public Works Department was addressed. The estimates furnished were as below:—

#### Estimate of cost.

	Specification of surface.	Works Outlay.	Departmental charges leviable by Public Works. Department.	Total.
	(1)	(2)	(3)	(4)
		Rs.	Rs.	Rs.
(1)	4" depth of road metal consolidated to 3" with surface tarred over 3" brick soling (heavy specification).	57,840	16,773	74,613
(2)	3" mooram soling with 2" of stone metal over plus 2 coats of tar	40,421	11,722	52,143
(3)	2" stone metal plus tarring 2 coats without mooram soling (light specification)	28,070	8,140	36,210

The Provincial Public Works Department recommended the first specification in view of the circumstances of the case. The budget provision for the work, however, was Rs. 64,500 only (Works outlay Rs. 50,000, Departmental charges 14,500).

- 2. While these estimates were under the consideration, unofficial advice was also taken from the representative of a firm of contractors who was considered to be an expert in road making. After inspection of the site, the expert suggested brick on edge laid on  $\frac{1}{2}$ " sand cushion and covered with a tar priming coat with a 1" tar macadam carpet on top total thickness  $5\frac{1}{2}$  inches. After due consideration it was decided in consultation with the Chief Engineer, Royal Air Force, to entrust the work to the firm who made a lump sum offer of Rs. 64,500 on the 8th March 1934.
- 3. About a fortnight after this offer, the firm represented to the Head of the Department that on account of the earthquake (which occurred on 15th January 1934) there was a shortage of bricks and a rise in the price of labour and materials originally quoted by the Public Works Department on which the firm's estimates were based. It was, therefore, impossible to complete the work according to the specifications originally proposed. This representation was accepted by the Head of the Department in consultation with the Chief Engineer, Royal Air Force, and it was decided to construct the North-South arm of the runway to the heavy specification and the East-West arm to the lighter specifications, which appear to have

approximated to items 1 and 3 respectively of the specifications originally suggested by the Public Works Department as stated in paragraph 1 above. The work was done by direct contract with the firm, with the Chief Engineer, Royal Air Force, as Consulting Adviser, the specification and checking of work to be certified by that authority.

- 4. The specifications of the work were thus made lighter in the special circumstances explained above without any reduction of costs. It has been stated that the lighter specification was laid down as an experiment, so that if it proved successful there could be considerable saving in costs in similar places in future.
- 5. A lump sum contract for Rs. 64,452 was entered into with the firm on the basis of their tender dated the 24th February 1934. The work was completed on 30th June 1934 and final payment made. The runways were maintained by the firm for six months after completion and a certificate to this effect was recorded by the Head of the Department on 15th January 1935.
- 6. While the North-South arm of the runways proved successful, the treatment of the East-West arm was not found satisfactory during the monsoon, owing to (i) difficulties with sub-soil water and (ii) on account of low-lying land. Part of this runway sank to a depth of 3 or 4 inches and the problem of siting the runway on higher ground had to be investigated. Accumulation of water on low-lying land destroyed a portion of the lighter specification while a portion on higher ground remained substantially intact. As a result, part of the original runway on the East-West arm had to be abandoned, and additional land on higher ground had to be acquired in order to lay out the East-West runway. Accordingly in August 1935 an estimate amounting to Rs. 1,19,248 was prepared by the Central Public Works Department for additions and improvements to the landing ground including, among other items, the probable cost of resurfacing the North-South runway to an improved specification, and extending the East-West runway on higher land, resulting in the scraping of the original East-West runway, which was built to lighter specification. The work was commenced in January 1936 by the Central Public Works Department as part of the Capital Aviation Works programme (Grant No. 63-B).
- 7. It would be seen from the above particulars that work with lighter specifications was accepted from the firm without reduction in price in the special circumstances of the case and that the lighter specifications proved a failure.

#### Notes.

- 1. Prior to 1929-30, the administrative control of civil avaition buildings, aerodromes, landing grounds and other works connected with civil aviation vested in the Public Works Department and the expenditure thereon was accounted for under Grant No. 73-Civil Works. In 1929-30, the administrative control was transferred to the Director of Civil Aviation, and from that year all expenditure on civil aviation works was accounted for under Grant No. 63-Aviation. Since 1934-35, all expenditure of a capital nature on Civil Aviation has been accounted for under this Grant and financed from the Fund for the Development of Civil Aviation, which was created out of the Revenue surplus of 1934-35, and voted by the Legislature in March 1935. Expenditure on civil aviation met from ordinary revenues however continues to be accounted for under Grant No. 63-Aviation.
- 2. Sub-head A. 2 (1).—Non-roted—A provision of Rs. 18,100 was made under this sub-head in the Supplementary Appropriation which was subsequently reduced by Rs. 4,900 owing to non-utilisation of the provision of additional pay of an officer and the post of Engineer officer having been held by the Superintending Engineer, aviation circle, as a dual charge with a small additional pay.
- 3. Sub-head A. 2 (3).—Non-voted.—A provision of Rs. 5,000 was made under this sub-head in the Supplementary Appropriation which was subsequently reduced by Rs. 1,700 due mainly to less touring.

## IMPORTANT COMMENTS.

Review of the Grant and its administration.—The net amount being nil, a nominal demand for Rs. 1,000 was submitted to the vote of the Legislative Assembly in September 1935 for expenditure on Aviation Works during 1935-36. The provision made for the various schemes was also brought to the notice of the Assembly. A statement (Annexure A) showing the detailed figures of estimated cost, original provision, modified appropriation, and expenditure incurred separately for each work estimated to cost over Rs. 50,000 is appended to this account, while the following table shows the original provision, the modified appropriation and expenditure for the year for all works collectively:—

New Works .	٠	1,20	1,20	• •	1,20	1,20

## Sub-Head A .- Civil Aviation.

- 2. In the case of the Aviation Works, the large saving of 6,35 works out to 34 per cent. of the original provision. It was however reduced to 1.2 per cent. by the surrender of 6,13 in March 1936. The bulk of the savings occurred on items 1, 2, 4, 7 and 9 of Annexure A. In each case, the saving is said to have been due to works not having been commenced or completed during the year owing to unavoidable delay in obtaining sanction to estimates. In view of the fact that the supplementary demand was presented to the Assembly in the middle of the year, the estimate of requirements under this group of works could apparently have been closer. It is also for consideration whether a lump cut should not be made in future in the provision for works to allow for unforeseen delays.
- 3. The works, vide items 11 and 12 of Annexure A for which funds were provided by reappropriation had not been included in the list of works for which a token demand was presented in accordance with an undertaking that detailed schemes met from the Fund would be brought to the notice of the Assembly.
- 4. Sub-head B.—Meteorological.—The note below sub-head B.—Meteorological in the Appropriation Account indicates that the financial control of this class of works was susceptible of improvement.
- 5. Sub-head C.—Deduct—Amount transferred from the Fund, for the development of Civil Aviation.—The progressive account of expenditure met from the Fund will be found at Serial No. 1 of paragraph 61 of Chapter III of the Audit Report.
- 6. In February 1935 the Government of India decided to entrust to the Central Public Works Department the execution of the Capital Programme of Civil Aviation Works. The estimated works outlay on the programme excluding the cost of land and equipment is roughly Rs. 47,90,900. It was desired to complete the programme within a period of 2½ years. A temporary Circle of Superintendence and five temporary Divisions were added between March and June 1935 to the existing cadre of the Central Public Works Department to deal with the whole of the programme excluding the work ordinarily done by the Wireless Branch of the Posts and Telegraphs Department. The original programme is now under revision. The total expenditure on works incurred by Central Public Works Department to the end of 1935-36 was Rs. 8,72,443.
- 7. Over-measurement of a work.—In connection with the work of establishing a Civil landing ground for an aerodrome which was entrusted to the Public Works Department of a Provincial Government, the local Executive Engineer proposed estimate for Rs. 28,605 for removing the Railway embankment, filling borrow When the payments made to the contractors in March 1935 in accordance with the estimates were reported to the Government of India, they doubted the accuracy of the measurements of the work done and also considered the rate charged for the earthwork to be very excessive. The Executive Engineer and the Overseer concerned were thereafter placed under suspension by the Provincial Government pending a departmental enquiry. The enquiry showed that the Executive Engineer had either not checked the measurements or had checked them without due care or had intentionally passed them as correct. It was not possible to prove that the rate charged was excessive considering that the earthwork which was of considerable magnitude had to be done within a short time. No financial loss to Government was involved, as the amount paid in excess, viz., Rs. 5,589 was recovered from the Contractors and credited to Government in May 1935.

In view of the unusually good record of his service prior to the occurrence of the case, the Executive Engineer was not dismissed from Government service but was given the option of retiring from service from the date of suspension, viz., the 11th May 1935 which he accepted. For a similar reason, Government took a lenient view of the case against the Overseer who was found guilty of the irregular measurements, etc., and removed him from Government Service from the 12th May 1935 (the date of his suspension) on a compassionate pension.*

## Notes.

1. The excess over the total voted grant occurred under sub-heads A. I and A. 4. A reappropriation in the wrong direction is also noticeable under sub-head A. 4.

2. The total receipts realised during 1935-36 on account of Emigration Fees (External) amounted to Rs. 35,091.

## Notes.

- 1. Total fees on account of registration of Joint Stock Companies realised during 1935-36 (excluding fees relating to area grants or appropriations) amounted to Rs. 3,14,595.
- 2. Sub-head C.—Provision for charges on account of fees and travelling expenses paid to private persons appointed for investigation of Provident Insurance Societies was made under subhead C.—Allowances, Honoraria, etc., for the year 1935-36. In the accounts such charges are being adjusted under sub-head D.—Supplies and Services and Contingencies.
- 3. Total savings in the voted section of the grant which are attributable to sub-heads A, B and C work up to 9.6 per cent. of the grant against 5.5 per cent. in the last year. The unsurrendered balance of the grant which occurred under sub-heads A and B mainly in Bombay was 6.3 per cent. this year against 3.9 per cent. in the last year, which was in turn higher than that in the next previous year. This indicates further deterioration in the control over expenditure.

#### Notes.

- 1. The large saving in the voted section of the grant is mainly attributable to sub-heads H. 3., H. 4., J. 1. and J. 2. Though a supplementary grant was necessary, the amount voted proved to be much in excess of requirements under the sub-head H. 4.
- 2. The receipts on account of Patent Fees realised during 1935-36 amounted to Rs. 2,06,342 Against this the total expenditure under sub-heads D. 1. to D. 5. (Controller of Patents and Designs) was Rs. 93,110.
- 3. Total fees realised on account of Registration of Companies under Partnership Act, 1932 amounted to Rs. 19,195. The total expenditure under sub-heads K. 1. to K. 5. (Administration of the Indian Partnership Act) was Rs. 18,803.
- 4. Sub-head H. 5.—When presenting the Supplementery Demand for Rs. 27,000 in March 1936 it was stated that the excess expenditure would be partially covered by additional revenue. It is reported that the additional revenue realised during the last four months of the year as a result of the increased circulation of the "Indian Listener" amounted to Rs. 11,353.

# AUDIT COMMENTS.

The working result of the Scheme for the year 1935-36 shows a surplus of Rs. 3,451, as compared with a deficit of Rs. 12,480 in 1934-35. This is mainly due to the facts that—

- (a) the post of the Secretary remained vacant for about six months in the year 1935-36;
- (b) the present Secretary drew for the remaining six months of 1935-36 a salary of Rs. 900 per mensem as compared with Rs. 2,050 per mensem drawn by the previous Secretary in 1934-35;
- (c) in consequence of the above, there has been a decrease in Leave and Pensionary charges;
- (d) there has been an increase of Rs. 2,396 in the Annual fees due to the enrolment of an increased number of Accountants during the year 1935-36.

The benefit of the above factors has been partly offset by an increase of expenditure to the extent of Rs. 6,408 in the pay of Establishment and Rs. 1,421 in Allowances and Honoraria.

2. The working of the Scheme has resulted in a net deficit of Rs. 27,268 since its commencement, as explained below:—

^{*}The net amount required being nil, a nominal demand for Rs. 1,000 was submitted for vote of the Legislative Assembly.

## Note.

The entire expenditure has been met from the Special fund for the Development of Broadcasting constituted out of the surplus revenue in 1934-35 (ride Grant No. 69-A of the Appropriation Account for 1934-35). The progressive account of expenditure met from the fund will be found at serial No. 2 of paragraph 61 of Chapter III of the Audit Report.

#### Nores.

- 1. The difficulties connected with the estimation of recoveries treated as reduction of expenditure mentioned in previous reports, were under the consideration of the Government of India and it was decided that such recoveries should, with e 'ect from 1935-36, be exhibited in the accounts as revenue. This has caused a great divergence between the total final voted figures of 1935-36 and those of previous years. See paragraph 9 of Chapter I of the Audit Report.
- 2. Income and Expenditure Account.—The consolidated account of income and expenditure for the department as a whole with the necessary certificates of audit appears as Appendix XIX at page 107 of the Administration Report for 1935-36. A review of the financial position of the department appears in Chapter IX at page 45 of the same Report. The net excess of expenditure over income in the Commercial and Non-Commercial Sections and in the department as a whole was as follows:

							Expenditure. Rs.	Income. Rs.	Deficit. Rs.	
Commercial		•	•	•	•	•	21,22,109	17,76,961	3,45,148	
Non-Commercial	•	•	•	•	•	•	5,27,278	2,00,545	3,26,733	
Department as a	who	ole	•	•	•	•	(a) 25,26,894	(a) 18,55,013	(a) 6,71,881	

Items 11 to 19 (expenditure in England on Stores, leave salary, etc., paid in England, pensionary charges, Government Contribution to Provident Fund, interest on capital outlay, depreciation charges, stationery and printing charges, cost of audit and accounts and expenditure on retrenched personnel), on the debit side of the Consolidated Account appended to the Administration Report refer to expenditure included pro forma. The rent of Central Public Works Department buildings occupied by the Indian Stores Department at Simla, Delhi and Calcutta is not included in the account. The income shown on the credit side of the account represents amounts actually realised and pro forma credits for services rendered to the Non-Commercial departments of the Central Government against which no charges are made. *

- *Audit Officer, Indian Stores Department.
- (a) Excludes the amounts (Rs. 1,22,493) representing adjustments within the department.

# IMPORTANT COMMENTS.

Defalcations in an office.—In October 1935 the head of an office reported to the head of the department that a sum of Rs. 1,616 due to a certain firm on account of advertisement charges, was missing from the cash chest of his office. The case was investigated by Audit under the instructions of the head of the department and it was found that the firm's bills were charged off as usual in the cash book but the amounts were defalcated by the cashier who forged the payee's signature on the bills. He admitted his guilt and refunded the sum but he was prosecuted, sentenced to three months' rigorous imprisonment, and dismissed from service.

It was also found that a further sum of Rs. 1,854 on account of sale proceeds of tender forms had been misappropriated by the cashier and possibly by another clerk. As, however, there was not sufficient evidence to justify the criminal prosecution of the latter, departmental action was taken against him on the advice of the public Prosecutor and the Deputy Commissioner of Police, and he was dismissed from the service.

The defalcations were found to have been facilitated by negligence and lack of supervision on the part of a Junior gazetted officer. The officer was censured and his offer to make good the pecuniary loss to Government was accepted, but he was informed that he had the right to have his case submitted to the Public Service Commission on the latter point. He has, however, paid up the amount.*

*Audit Officer, Indian Stores Department.

#### Notes.

- 1. The final excess in the non-voted section of the grant is attributable to sub-head C. 2.
- 2. The excess under A. 5 and the saving under B. 2 apparently indicate room for improvement in conrtol over expenditure.
- 3. Interest and depreciation charges recovered from the Security Printing Press on account of machinery lent by the Currency Note Press were finally treated in the accounts of the latter as an item of receipt instead of as a reduction of charge, as provided for in the estimates. This final adjustment which was made after the close of the year caused an excess under sub-head C. 1(8).
- 4. The credit on account of the leave and passage contributions of the Master Security Printing has been wrongly adjusted. The result has been a saving under B. 2. Other Charges—non-voted in Grant No. 20, and a corresponding excess under sub-head C. 2.—Other Charges in this grant.
- 5. The total expenditure in this grant amounts to Rs. 19,78,517 this year as against Rs. 52,75,864 during 1934-35. The reduction in the expenditure is mainly due to the institution of the Reserve Bank of India with effect from 1st April 1935.

CALCUTTA:

J. W. KELLY,

The 17th July 1936.

Controller of the Currency.

Examined and found correct subject to the following remarks.

CALCUTTA:

R. B. BANERJI,

The 4th August 1936.

Assistant Accountant General, Outside Audit, Calcutta.

Audit Comments.—The closing balance on the 31st March 1936 as worked out amounts to Rs. 20,53,37,749, whereas the balance as reported by the Reserve Bank of India is Rs. 20,69,49,377. Thus there is a difference of Rs. 16,11,628 in the Bank balance which is due to the facts (i) that the sums of Rs. 3,11,228 and Rs. 15,23,717 which were credited in the Surplus Silver Stock Account at the Calcutta and Bombay Mints respectively during 1935-36 were adjusted by the Reserve Bank of India in the next year, and (ii) that the sum of Rs. 2,23,317 which was debited to the Surplus Silver Stock by the Calcutta Mint during 1935-36, was adjusted by credit to that account by the Reserve Bank in the year 1936-37.*

N. B.—The proforma account of Surplus Silver Stock is maintained in terms of weight of silver. This part of the account has, however, been maintained in terms of value in view of the fact that the surplus rupees held by the Reserve Bank are not kept physically separate from the Bank money.

^{*}Accountant General, Bengal.

CALCUTTA;

Examiner, Outside Audit, Calculta. The 25th January 1937. CALCUTTA;

# IMPORTANT COMMENTS.

- 1. Defalcations in treasuries.—The following cases of defalcations in Government treasuries occurred in the provinces indicated.
- 2. Bihar.—A series of defalcations amounting to Rs. 7,06,000 occurred in a certain currency chest at a treasury. The defalcations came to notice during the absence on leave of the treasurer. Enquiry showed that the defalcations had been going on from time to time for several years. Records pertaining to the currency chest were missing from the 1st April 1927 to the 8th December 1932, but from a comparison of the bulances recorded in the circle currency office with those of the treasury currency chest, still available in the treasury, it was possible to say that between these dates there had been a loss of Rs. 3,66,000. The balance of the amount of Rs. 3,40,000 was misappropriated from time to time between the Sth December 1932 and April 1936 when the defalcations came to notice. The treasurer has since died and a case against the heirs of the deceased for the recovery of the money is pending in a court of law. The question of disciplinary action to be taken against the officers concerned is also under the consideration of the local Government.

The amount of Rs. 7,06,000 has been made good by the Government of India to the Reserve Bank, and the Government of India have issued an order that the Bihar Government should pay to the Government of India the sum of Rs. 5 lakhs.*

3. North West Frontier Province.—On 3rd January 1935 the accountant of the office of a Political Agent brought a bill for the pay of Khassadars amounting to Rs. 60,263 for encashment at the sub-treasury. In token of having received the payment of the bill, the accountant signed the cash book of the sub-treasurer but declined to take delivery of the cash pending return next day of the Khassadar clerk who was absent from duty that day. The sub-treasurer after finishing his day's work left the entire sum in bundles of currency notes and coins on the floor of the double lock room and closed the treasury. The double lock room had a door of iron bars, and the notes which had been left on the floor of the room were exposed to outside view. On the 4th January 1935, the accountant and the Khassadar clerk came to take over the cash from the sub-treasurer, who on obtaining the keys from the sub-treasury officer opened the strong room. On counting the money, two bundles, one of five rupee and the other of ten rupee notes were found missing. to whom the matter was reported for investigation could not find definite evidence for the purpose of prosecution.

The loss was due to (1) the refusal of the accountant of the Political Agent to take delivery of the money for which he had signed the receipt; (2) the failure of the sub-treasurer to make proper arrangements for the safe custody of the money, and (3) failure of the sub-treasury officer to notice the money lying on the floor at the time of closing the treasury.

The accountant has been removed from the service for gross negligence of duty in dealing with Government money. The total loss was recovered from the treasurer. The sub-tresaury officer was severely reprimanded for laxity of supervision and lack of sense of responsibility. The guard on duty on the night of the loss has been disbanded.†

4. Bengal.—During the course of the verification of the currency chest balance by a Sub-Deputy Collector, while taking over charges of a sub-treasury, a shortage of Rs.10,000 in currency notes was noticed on 29th August 1935. The loss, so far as the Reserve Bank was concerned, was made good from the Government treasury balance.

^{*} Accountant General, Bihar.
† Comptroller, North West Frontier Province.

As a result of investigation it was suspected that the poddar of the sub-treasury must have stolen the bundle of notes during the verification by the Sub-divisional Officer of the balances on the 24th August 1935, but the poddar could not be placed on trial as he committed suicide shortly after the commencement of the police enquiry. A sum of Rs. 9,234 was, however, realised from his properties and a further sum of Rs. 20 representing the pay for one month due to him forfeited. The recovery of the balance of Rs. 746 has been ordered to be effected from the Sub-divisional Officer, who was a senior officer in charge of the sub-treasury during the absence of the sub-treasury officer on casual leave, and the sub-treasurer who failed to exercise proper supervision on the 24th August 1935.‡

- 5. Burma.—The treasurer of a district treasury discovered a shortage of Rs. 1,000 in his cash balance after the close of the day's work on the 1st August 1935. He immediately reported the fact to the treasury officer and the matter was thoroughly investigated by the departmental authorities, and by the Police, but could not be cleared up. It is probable that an excess payment of Rs. 1,000 was made on a certain bill owing to the carelessness of the shroff. On the day of the occurrence the time of the treasurer had been taken up to a great extent in making entries in his cash book and conducting a general supervision of the distribution of money. The actual payments were made by a chroff under his supervision. The shroff was held responsible for the double payment, and in view of his past record of careless work he was removed from service. The money was made good by the treasurer. The case was brought to the notice of the local Covernment and they did not consider that any further action was called for.§
- 6. As compared with the three cases of treasury detalcations aggregating Rs. 9,983 in Burma in the year 1934-35, there was in the year under report only one such case in a district treasury in that province involving a loss of Rs. 1,000 which was made good by the party concerned.

The working of the district treasuries is fairly satisfactory but the same cannot be said of the sub-treasuries in which there is considerable room for improvement.

In April 1935 the local Government issued a special set of instruction to Subdivisional officers to verify sub-treasury balances in the course of their tours in addition to their annual inspection. A set of instructions referred to in paragraph 5 of the Important Comments below this Grant at page 207 of the last report has also been issued for the guidance of District Officer when they carry out their usual inspections of district treasuries and sub-treasuries. These measures will, it is hoped, improve the efficiency of the sub-treasury work.§

#### Notes.

- 1. The total saving in the voted section of the grant is mainly attributable to sub-heads  $E_{\bullet}$ —Purchase of Local Stores and G.—English Charges (High Commissioner) on stores.
- 2. The new sub-head 'D.—Miscellaneous—Loss on refining gold 'was opened in the course of the year in view of the decision to debit Government with loss in refining gold exchanged for fine gold issued from the stock of gold held by the Mint Master on behalf of the Reserve Bank.
- 3. The pro forma accounts of His Majesty's Mints, Bombay and Calcutta, for 1935-36 have been audited and certificates of audit have been recorded on them for inclusion in the Mints' Administration Report. The audit department has no special comments to offer on those accounts.
- 4. A consolidated pro forma stock account has been appended to the Appropriation Account of Grant No. 71—Currency, showing the particulars of Surplus Silver (Bullion) left over with Government after the delivery of Rs. 50 crores in round figure to the Reserve Bank on the 1st April 1935 under Section 35 of the Reserve Bank of India Act and held at His Majesty's Mints at Bombay and Calcutta and by the Secretary of State for India-
- 5. Sub-head C.—There was a countervailing profit of Rs. 98,782 during the year at the Bombay Mint.
- 6. Sub-head F.—There was only one important major work pertaining to this sub-head, the details of which are given below:—
  - (i) New Merchants and Fine Silver Melting Department.—Estimate Rs. 88,000; final appropriation Rs. 87,500; expenditure to end of March 1936, Rs. 87,454; completed.

Agency employed for revaluation and verification-

The verification was done by one of the Mint Engineers between 23rd October 1935 and 10th February 1936.

Observation.—This statement does not include Dies and Collars. Bullion stocks which are verified by the Examiner, outside Audit, are also excluded.

M. STAGG,

Colonel,

Master of the Min

B. C. CHATTERJE,

Accountant.

Examined and found correct.

R. B. BANERJEE,
Assistant Accountant General, Bengal.

[†] This includes issues to Workshop and Die Department.

Review of Stores position.—The balance of consumable stores and value of die stocks held at the end of 1935-36, and of the three preceding years are as follows. The consumption for these years is also shown:—

•				Closing balance.	•		(includes sale
Year.							s stores).
			Stores.	Die stocks.	Total.	Stores.	Die stocks.
(1)			(2)	(3)	<u>(4)</u>	( <u>5)</u>	<u>(6)</u>
• •			Rs.	Rs.	$\mathbf{Rs.}$	Rs.	Rs.
1932-33 .	•		1,53,537	13,340	1,66,877	77,226	28,305
1933-34 .	•		1,08,311	9,320	1,17,631	1,19,800	68,435
1934-35 .			1,09,888	14,410	1,24,298	1,48,858	1,07,245
1935-36 .		•	1,50,749	19,985	1,70,734	1,37,001	87,475

The stocks held in the general stores were verified by an Engineer deputed for the purpose. As compared with that of last year, the balance of Rs. 1,50,749 is high.

This increase is mainly due to purchases in anticipation of a silver coinage.

The following items account for the increase in balances held at the end of the year.

									$\mathbf{R}\mathbf{s}$ .

3rd August 1936.

Master of the Mint.

Audit Comment.—The closing balance of consumable stores in the workshop and Die Department was not verified.*

# HIS MAJESTY'S MINT, BOMBAY.

Statement of stores, etc., for the year 1935-36.

•	Opening Balance	Value received	Value	utilised.	Closing balance
Particulars.	on 1st April	during the		Deficiency, etc., writ-	on 31st March
	1935.	year.	of.	ten off.	1936.
. (1)	(2)	(3)	(4)	(5)	(6)
	Rs.	Rs.	Rs.	Rs.	Rs.
	(a)	(b) & (c)	(c)	(c)	(d)
Consumable Stores	. 2,71,910	2,23,841	2,42,620	204	2,52,927

⁽a) Consists of Rs. 2,66,164, Rs. 4,290, Rs. 1,456 on account of Main, General Workshop and Die Department stores respectively.

⁽b) Includes Rs. 81 on account of surplus found on verification.

^{*} Accountant General, Bengal.

- (c) Since the abolition of commercial accounts in the Mint, no sub stores accounts in respect of the General Workshop and the Die Department are maintained, but the stock of stores on hand at the end of the year is evaluated at book rates from the lists prepared by the two departments. It is not, therefore, possible to split up the figures in columns (3), (4) and (5) in details of Main, Stores, General Workshop Stores and Die Department Stores.
- (d) Consists of Rs. 2,49,282, Rs. 2,295 and Rs. 1,350 on account of Main, General Workshop and Die Department stores respectively.

Total surplus found on verification was Rs. 81 and total deficiency found on verification was Rs. 204.

The verification was periodical. The stores were verified by one of the Mint Engineers. No revaluation of importance was made during the year. Bullion stocks were verified by the Examiner, Outside Audit in April 1936.

BOMBAY;
The 7th December 1936.

A. K. PATANKER, Accountant. A. J. RANSFORD, Major, R.E.,

Mint Master, Bombay.

I have examined the above account and according to the best of my information as a result of test audit of the books and a consideration of the explanations given to me, the account is correct.

R. SIVARAMAKRISHNAN,

Bombay; The 10th December 1936.

Assistant Accounts Officer, Accountant General's Office, Bombay.

Financial Review by the Mint Master on the Store Account of the year 1935-36.

The balance of Rs. 2,52,927 appears high inasmuch as it includes a large quantity of obsolete stores purchased in bulk during the late war, which owing to the temporary cessation of coinage in this Mint, were not being consumed. These stores are essentially Mint stores, and having no value in the local market, cannot be sold without heavy loss.

A heavy balance of crucibles must also be stocked in order to allow of suitable drying and annealing before use and to meet the sudden heavy demands for melting which have been experienced in the past.

The following list shows the balances of the above mentioned stores at the end of 1935-36:-

Die Steel .		•					•	•	98,653
Rolls				•					23,444
Steel Balls .									2,841
Buffer Blocks				er.					1,881
Steel Collars									3,849
Pig Lead .						•	•		1,836
Refined Lead.		•			•				1,554
								-	
									1,34,058
Crucibles .				_					32,345
			•	•		•		`-	
									1,66,403

It will be seen therefore that the balance of consumable stores was only Rs. 86,524.

These balances will gradually be reduced, now that the coinage has been restarted in this Mint.

The decrease of Rs. 18,983 in the closing balance is due to more consumption of stocks owing to the coinage operations that continued throughout the year.

The difference of Rs. 18,860 between the receipts and consumption of the year is due to limiting the purchases of the consumable stores to the minimum requirements.

The increase of Rs. 33,107 over the purchases of the last year is due to the special additions and alterations that were carried out in the Mint with the sanction of the Government.

HIS MAJESTY'S MINT,

A. J. RANSFORD,

BOMBAY:

Major, R.E.,

The 26th August 1936.

Mint Master.

^{2.} Sub-heads Q. 1 to Q. 4.—These sub-heads were opened in consequence of the decision that the appropriations for each of the sub-heads "Major Works", "Minor Works" and "Repairs" should be kept separate from one another and that, as far as possible, no reappropriations to and from these sub-heads should be made. The decision necessitated the maintenance, during the year of a separate conservation account for each of the above sub-heads, in addition to the Reserve, so as to permit of surrenders made by the various authorities being conserved under the sub-heads to which they relate and utilised only for those sub-heads.

3. Sub-head-P.—Represents the "Reserve" with the Government of India. The operations on the "Reserve" during the year were as follows:—

	Voted. Rs.	$Non ext{-}voted.$ Rs.

Total	92,473
	,

^{4.} Pro rata Distribution.—Civil works relating to the Central Government in the Provinces are generally carried out through the agencies of Provincial Governments or the Defence Department by the 'establishments employed under those Governments or by the Military Engineer Services, as the case may be. The total expenditure on account of establishment charges is distributed between the Central Government, Provincial Government and the Defence Department usually on the basis of the actual outlay of the year on the works of the respective authorities. This is known as the pro rata system of distribution. Any special establishment wholly employed on a work is, however, entirely charged to that work and is not included in the pro rata calculations. The pro rata share varies with the actual works expenditure and cannot be accurately estimated until the work charges for the year are definitely ascertained. It is this difficulty in estimating which is mainly responsible for most of the variations under sub-head I.

5. The pro rata system does not apply to the Central Civil Works executed by the Military Engineer Services, and the Governments of Madras, Bengal, Central Provinces and Coorg, who levy departmental charges at fixed rates.

Establishment charges are recovered in respect of works the cost of which is charged to other grants or of works of local bodies and are credited to this grant, vide sub-head I. 6. This recovery is effected at a rate based on the actual average cost for 5 years per hundred rupees of outlay on works, except for works charged to other grants and carried out by the Public Works Department as a standing arrangement, in which case the recovery is made on the pro rata basis outlined above. In the Central Public Works Department, however, the latter recovery has with effect from 1933-34, been made at a percentage rate fixed by Government on the basis of the normal works programme which will fully occupy the normal Public Works Department establishment.

Similar remarks apply to the charges on account of ordinary tools and plant used in the Public works department. The cost of special tools and plant, machinery, etc., required for a particular work or project is treated as a direct charge to the work or project concerned.

The following table compares the normal percentage rate fixed by the Central Government with the rates arrived at on the basis of actual annual expenditure of the Central Public Works Department. In this calculation the cost of caretaking establishment and of establishment employed on the administration of residential buildings including assessment of rent and accounting of rent recoveries has not been taken into account.

			Normal Rates.		errived at with refer- to actual expen- diture.		
•				1933-34.	1934-35.	1935-36,	
Establishment		•	14½ per cent.	$19 \cdot 79$	11.27	14.51	
Tools and Plant	•		I per cent.	1.9	$1 \cdot 20$	1.57	

Compared with the year 1934-35, the increase in the percentage charges for Establishment and Tools and Plant is due to smaller outlay on works and increased expenditure on establishment.

The following table shows the expenditure on works, Establishment and Tools and Plant for the last 5 years:—

#### (Figures in thousands of rupees.)

			1931-32.	1932-33.	1933-34.	1934-35.	1935-36.
Works			96,63	64,62	66,12	71,76	76,13
Establishment	:		23,45	18,43	19,47	12,40	16,91
Tools and Plant		•	1,69	1,53	5,62	85	1,77

The increase under the head "Establishment" and "Tools and Plant" as compared with the figures for 1934-35 is due to the expansion of the Central Public Works Department by the addition of a new circle of superintendence and 5 Divisions for Aviation Works and a new Division for Orissa Capital Works, and smaller recoveries on account of work done for other Government Departments, etc.

- 5. Remission of Rents.—A certain Government Building was in occupation of a hunt club for use as kennels for a period of about twenty-five years. In the year 1934, during the course of audit of the sanction to the estimate for the maintenance of the building it was discovered that no rent of the premises was being assessed and recovered. The matter was, therefore, referred to the administrative authorities. As the club was unable to pay arrears of rent or the full standard rent, and as the building, which could not be used as more than a godown, would probably have had to be dismantled or abandoned if not leased to the club, the Government of India accorded sanction to the recovery of rent at a concessionary rate of Rs. 200 per annum from 1st April 1935, waiving all demands for previous years, which amounted to about Rs 5,000 at the concessionary rate of rent and to about Rs. 20,000 at the full assessed rental value of the building.
- 6. Transfer of Assets.—The Government buildings known as (i) X-Ray Institute and (ii) His Excellency the Viceroy's Stables at Dehra Dun together with the land on which they stand (Book Value Rs. 2,23,545 and Rs. 1,18,000 respectively) were transferred to the Defence Department with effect from the 18th January 1934 and 6th May 1936. The payment by that Department of their present day market value of Rs. 2,15,000 and Rs. 87,700 respectively has been adjusted in the accounts for 1935-36.
- 7. Statements of expenditure on Important New Works are appended. No important new supplies of Tools and Plant have been reported. The statement of new works met from subventions from the Road Development Fund vide sub-head B. 3 has been appended to the Important Comments relating to the Road Development Fund.

## STATEMENT OF EXPENDITURE ON IMPORTANT NEW WORKS.

N. B.—In this statement detailed figures are given in regard to each work estimated to cost over Rs. 50,000, while the figures of appropriations and expenditure only are shown lumped together for (1) all Major works estimated to cost between Rs. 20,000 and Rs. 50,000; (2) Minor works estimated to cost Rs. 20,600 or less.

#### STOCK ACCOUNTS FOR 1935-36.

8. The following table exhibits the stock transactions of various Public Works Divisions under the audit control of the Accountant General, Central Revenues, for the year 1935-36 as collected from the accounts received from various Executive Engineers. This table does not include transactions or balances relating to tools and plant, road metal or materials charged direct to works:—

Name of Divisions or are	Name of Divisions or area.			Receipts.	Issues.	Closing balance.
			Rs.	Rs.	Rs.	Rs.
Central P. W. D. (inclusive of Ar Central India Divisions) .	njer s	and	92,576	1,26,836	1,50,498	68,914
Viceregal Estates Division .			18,590	30,067	31,881	16,776
Andamans and Nicobar Islands	•	•	31,890	93,982	92,591	33,281
Total	•		1,43,656	2,50,885	2,74,970	1,18,971

The stock held by the above divisions falls under the category of building and other materials and does not cover manufacture operations or the expenditure on the acquisition of land and kilns, etc.

- (2) The following additional information has been collected from the annual reviews of balances carried out by Executive Engineers.
- (a) With the exceptions noted below, the materials stocked are not in excess of the probable requirements of works for the subsequent twelve months:—

								Rs.
(i) Unserviceable stock	•		•					Nil
(ii) Serviceable stock in exce	es of requ	ireme	nts of	the ne	exttw	elve r	nonth	S

								<del>-</del>

#### Audit Officer's Report.

- (3) The officers in immediate charge of the stores have certified that the closing balances as shown in the above stores accounts represent the value of stock materials, the detailed quantity accounts of which have been maintained in accordance with departmental procedure prescribed for the purpose.
- (4) The officers in charge of stores have also certified that the stock was verified throughout their divisions in the course of the year in accordance with the departmental rules.
- (5) The total value of surplus stock on 31st March 1936 in the Central P. W. D. was Rs. 55,454 against Rs. 66,056 shown in the last year's report. It is reported (December 1936) that the whole of this surplus stock has been utilised by issue to works. It will also be observed with satisfaction that there has been a quick turn-over of stock in the Central Public Works Department.
- (6) The stock transactions of 1935-36 reported in other audit circles relating to Public Works Divisions were :—

Divisions.	Opening balance.	Receipts.	Issues.	Closing balance				
	Rs.	Rs.	Rs.	Rs.				
Assam	5,474	839	1,312	5,001				
"Issues" include loss of Rs. 203 on	account of re	valuation and	depreciation	.•				
Bengal (Sikkim)	5,628	<b>5,7</b> 50	5,410	5,968				
There was a profit of Rs. 52.								
Punjab (Gilgit Agency)	• •	5,500	• •	5,500				
The arrangements for supervision, verification and accounting seem to have been adequate								

#### IMPORTANT COMMENTS.

Review of the Grant and its Administration.—In examining the Appropriation Account of this grant for 1933-34, the Public Accounts Committee observed that though the variation under the total of the grant was not great, the variations in individual sub-heads were very large. They expressed the opinion that there was considerable scope for improvement in the budgeting for Civil Works, and hoped that as a result of the new rules issued in March 1934, the appropriation accounts of later years would show the desired improvement. The year 1935-36 is the first year for which the budget estimates were prepared in accordance with the new rules. Instructions were also issued by the Finance Department in October 1935 to strengthen the control of expenditure and to modify the procedure for obtaining supplementary grants.

- 2. In considering the Appropriation Accounts for 1934-35, the Public Accounts Committee commented adversely on the wide departures from the original programme of the Civil Works Grant and recorded the opinion that the Demand should be precisely stated and that in the actual expenditure there should be a reasonable conformity with the Demand. The following paragraphs contain a review of the position in this regard as disclosed by the actual figures of 1935-36.
- 3. The following table shows the original provision, the final appropriation and the actual expenditure on the grant as a whole:—

			Original provision.	Final Appropriation.	Actual expenditure.	Saving or excess compar- ed with final Appropriation.
Voted		•	2,10,25	2,15,85	2,09,87	<b>5,</b> 98
Non-voted			15,07	15,34	15,35	+1

There is an excess of  $\cdot 04$  per cent. on the total non-voted final appropriation as against a saving of  $3\cdot 4$  per cent. in the previous year. In the case of the voted grant, there is a saving of  $\cdot 18$  per cent. on the original grant and  $2\cdot 8$  per cent. on the final modified appropriation compared with an excess of  $\cdot 1$  per cent. and a saving of  $2\cdot 3$  per cent. respectively in the preceding year.

- 4. The final saving in the voted grant as in the previous year occurs mainly under sub-head 'R'. As the actual expenditure under this sub-head is dependent on the amount of additional revenue in a financial year derived from the extra duty of customs and excise on motor spirits (see paragraphs 1 and 2 of the Important Comments relating to Road Development Fund), it is not susceptible of regulation by the Public Works Department officers. It seems desirable that the 'works expenditure' proper should be separately exhibited in the Demands and accounts without being mixed up with transactions over which the spending officers of the Public Works Department have no control whatever. It is, therefore, for consideration whether sub-head 'R' should not be taken out of the grant for 'Civil Works' entirely and treated as a separate demand, if necessary.
- 5. Deleting the figures under sub-head 'R' for the purpose of the present review, the figures set out below will emerge as representing the portion of the Grant, which was really controllable by the officers concerned. These figures take the place of the figures shown under *voted* in paragraph 3 above.

			Original provision.	Final Appropriation.	Actual expenditure.	Savings or excess compar- ed with final Appropriation.
Voted	•	•	79,25	80,85	81,18	+33

The percentages of excess of actual expenditure on the original provision and the modified appropriation works out to 2.4 and .4 respectively against the corresponding saving of 1 and .5 per cent. respectively during 1934-35. The administration of the Grant may, on the whole, be said to be satisfactory.

- 6. As in the previous years, considerable variations have, however, occurred under the individual sub-heads, principally A. 1 (1) and (2), A. 2 (1), A. 3 (1) and (2), B. 1, B. 3 (1) and (2), E. F., G., I., J. (1) and (4), L. 2 (1) and (2), and T. Explanations of the variations have been recorded under each sub-head.
- 7. An analysis of the variations shows that the excess provisions under B. 3 (1) and (2) and T were due to the existing system under which the Standing Committee on Roads meets twice a year to consider the road development schemes. Public Accounts Committee raised the question in paragraph 36 of the proceedings on the accounts of 1934-35 (paragraph 15 of the Report) and recommended a change in procedure, whereby a complete programme for the year might be settled at the beginning of each year. The unforeseen expenditure on establishment due to Aviation Works being taken up by the Central Public Works Department, the Quetta Earthquake, and the decision to charge to this grant initially the expenditure on the construction of Sind and Orissa buildings, account for variations under sub-heads I. 2 (3) and I. 3 (3), E. 2 and I. 5 (1) and (2), and A. 1 (1), A. 1 (2) and E. 6, respectively. Another disturbing factor was the decision to classify as 'non-voted' the expenditure on the construction of some buildings at Gilgit; this accounts for variations under sub-heads B. 2 (2), F. 4, I. 3 (2), I. 4 (2), I. 5 (12) and L. 1 (1). The Jumna river training works at Delhi which were also unforeseen, account for variation under sub-head Gz

Barring the above, and some small items, the only important variations are due to provision having been made for works before technical sanction was accorded thereto, under sub-heads A. 1 (1), A. 2 (1), and A. 3 (1). This resulted in a saving of 2,03. The variation under I.6 and J. 1 also appears to be due to the fact that provision for recoveries of Departmental charges for works at the Agricultural Research Institute, New Delhi, was made long before estimates for the works were even administratively approved.

- 8. Instances of defective control have been mentioned in Note 1 below the appropriation account.
- 9. As stated in Note 2 above, Conservation Accounts in respect of 'Major Works', 'Minor Works', 'Repairs' and 'Other heads' were opened in consequence of the decision that the appropriations for each of the sub-heads above should be kept separate from one another and that, as far as possible, no reappropriations to and from these sub-heads should be made. No authority lower than the Department of Industries and Labour can make reappropriation from or to the sub-heads 'Major Works', 'Minor Works' and 'Repairs'.

A detailed analysis of these accounts indicates that of the sums originally provided under 'Major Works' 165 has been ultimately u tilised on purposes other than 'Major Works'. Similarly out of the grant for 'Minor Works' 32 has been transferred to sub-heads other than 'Minor Works', and 44 from under 'Repairs' to sub-heads other than 'Repairs'. Most of these transfers have taken place to the Establishment and Tools and Plant, sub-heads I. 6 and J. 4, as the anticipated recoveries did not materialise, by reason of the underspending of the provision for works in other Grants (vide last sentence of para. 7 above).

10. The following table shows, by classes of works, the amount provided in the budget, the modified appropriation and actual expenditure on works of all kinds:

•				Outlay co	mpared with				
Class of works.	Original provision.	Modified Appropriation.	Expenditure.	Original provision more+ less—.	Modified Appropriation more + . less —.				
(1)	(2)	(3)	(4)	(5)	(6)				
	(Thousands of rupees).								
New Major Works .	4.25	2,36	3,76	-49	+140				
Major Works in progress	49	76	75	+26	1				
Furniture in Viceregal Estates	86	56	57	29	+1				
Minor Works	*5,56	6,69	6,95	+139	+26				
Road Development Fund Works	3,38	4,45	4,44	+106	1				
Repairs	58,93	59,55	59,65	+72	+10				
Total .	73,47	74,37	76,12	+265	+175				

^{*} Includes provision of reserve with local Governments.

(i) New Major Works.—Excluding the expenditure [see sub-heads A. 1 (1) and U and items 15—18 of the statement of important new works] on the adaptation of old, and the construction of new buildings in the new provinces of Sind and Orissa and purchase of furniture for the Government Houses at Karachi (1,45), which does not affect the net grant as the amount is charged finally to the fund for the purpose, the expenditure on new major works was 2,31 of which 1,72 only was on works provided for in the budget and 59 on new works not contemplated when the budget was framed. In the case of the budgeted works important savings amounting in all to 2,38 occurred, mainly in the case of Serial Nos. (1), (3), (4) and (6) of the statement of Important New Works, due to want of technical sanctions, delay in selection of sites, late commencement of works, or delays in execution owing to unforeseen difficulties.

The important new works for which funds were provided by reappropriation from within the grant were:—

(I) Purcl	hase of	the A	uxilie	iry Fo	orce b	uildin	g at P	atna			•	•	33
(2) Const	tructin	g quar	ters f	or infe	rior s	ervan	ts of th	ıe Sur	vey of	India	at De	hra	
$\mathbf{Dun}$	•	•		•			•	•	•		•		26

The excess of 1,40 over the final appropriation is more than covered by the Sind and Ocissa works (1,45) which have been ultimately charged to the Fund for Sind and Ocissa Buildings.

(ii) Major Works in progress.—The total expenditure on major works in progress was 75 of which 71 was on budgeted works and 4 on works not provided in the budget. The notable increase over the original provision occurred in Serial No. (24) of the statement of Important New Works, due to insufficient provision to meet charges for land acquisition for want of information.

N.B. 1.—In this table voted and non-voted figures are taken together.

^{2.—}A detailed statement of expenditure on important new works is also appended (see Note 7) to which references are quoted below.

- (iii) Furniture in Viceregal Estates.—The provision both for purchases of new furniture and repairs and maintenance, has hitherto been made under sub-head A. 1 (1). As the actual expenditure is accounted for under 'Original Works' for new purchases and under 'Repairs' for repairs and maintenance, variations both under sub-heads A. 1 (1) and E. 1 between the budget provision and final appropriation were inevitable. The Administrative Authority has accepted the audit proposal that budget provision should in future follow the accounts classification.
- (iv) Minor Works.—The variation between the original provision and the modified appropriation (Net 1, 13) is due mainly to provision of funds for unforeseen new and urgent works (1,00) vide explanations under sub-heads A. 1 (2) and A. 3 (2). A sum of 92 was reappropriated from the 'Reserve for unforeseen works and repairs' (sub-head P) for new Works, vide details below Note 3 under the Appropriation Accounts.

The net excess of 26 over the final appropriation is due mainly to the adjustment of 44 [see sub-head A. 1 (2) Voted] after the close of the year in respect of new buildings in the provinces of Sind and Orissa referred to in sub-paragraph (i) of this paragraph, counterbalanced by small savings in other provinces. This does not affect the net grant as mentioned in the said sub-paragraph.

In paragraph 36 of their proceedings for 1934-35, the Public Accounts Committee commented on the manner in which the provision under "Reserve" in the Civil Works Grant was being used and desired that it should be limited only to throw forwards of expenditure on uncompleted projects of the previous year and for genuinely unforeseen minor works. The necessary amendments to the rules embodying these suggestions and other changes which the Auditor General considers suitable, are under the consideration of the Government of India.

- (v) Road Development Fund Works.—Please see Important Comments below relating to the Road Development Fund and the statement of Road Development Fund Works referred to in paragraph (v) of those comments. Out of the excess of 106 over the original appropriation, 53.8 relates to 2 Major works costing over Rs. 20,000 each vide items 3 and 6 of the Statement, of the balance 40 is due to 16 small new works included in item 10 of the statement, for which no provision existed in the original budget. As mentioned in paragraph 7 above, the Public Accounts Committee in paragraph 36 of their proceedings on the accounts for 1934-35 (paragraph 15 of the Report) have recommended a change in procedure.
- (vi) Repairs.—The net increase of 62 over the original provision is due mainly to (1) transfer of provision for maintenance of furniture from sub-head A.1 (1) to sub-head E.1 [see paragraph 10 (iii) above], (2) increased cost of maintenance due to additional areas, and certain urgent works connected with the irrigation water supply system in New Delhi (sub-head G), counterbalanced by savings due to demolition of buildings in Baluchistan damaged by earthquake (sub-head E. 2).
- 11. Difficulties in the disposal of a Central Government building.—A non-residential building belonging to the Central Government which had been purchased in 1906 at a cost of Rs. 2,30,250 was let with effect from 1st October 1927 to a Newspaper Company on a 20 years' lease at a monthly rental of Rs. 2,000. The Company went into a voluntary liquidation and vacated the premises on the 1st June 1932. The possibility of recovering something by way of damages for the premature termination of the lease was considered by Government but had to be given up under legal advice. It was then considered whether any of the central Government offices at the station could be accommodated in the vacant building. The Government of India ultimately decided in December 1933 that they had no further use for the building and gave the local Government the option to assume possession in case they wanted

it for their own use, otherwise to sell it by public auction (with a reserve price of Rs. 1,40,000). In August 1934, the Government of Bengal reported that they were considering the question of utilising the building for housing a Government Commercial Institute. This idea too was finally abandoned and the Government of Bengal reported to the Government of India in February 1935 that they did not want the building and that steps would be taken to sell it by public auction. The Land Acquisition Officer was thereupon asked to take steps to effect the sale; the property was advertised for sale in certain local newspapers, and copies of the printed sale notice were posted on the building and notice walls of important public offices in the city and its suburbs and all prominent street corners. No bidders, however, appeared on the notified day, the 4th December 1936. Thereafter the Land Acquisition Collector informed the Local Government that in the prevailing state of the market, it seemed very doubtful whether any one would come forward to purchase such a fairly big property which had no direct frontage on a public road.

The building has been lying vacant since June 1932 and a sum of about Rs. 1,100 per annum on an average is being spent on it in the shape of municipal taxes, wages of choukidar and other incidental expenses incurred for its maintenance. The annual loss on account of interest amounts appoximately to Rs. 8,000 or Rs. 4,900 according as it is calculated at  $3\frac{1}{2}$  per cent. on the original capital cost (Rs. 2,30,250) or the present value (Rs. 1,40,000). On an enquiry being made as to why the building could not be let out to private parties on even a reduced rent on a month to month basis until such time as the actual sale was effected, the Government of Bengal stated that owing to the dilapidated condition of the building as reported by the Land Acquisition Collector in May 1933, it could not reasonably be expected to be let out to any one.

The question of disposing of the property is now engaging the attention of the Government of India. It may be added that the Land Acquisition Officer valued the land in 1933 at Rs. 1,42,667, conditional on the right of way over the passage from the main street (which belonged to Government) remaining undisturbed.*

12. Maintenance charges of the grounds of a stadium.—A committee was constituted by the Government of India in December 1931 for the management of an amphitheatre and the grounds pertaining thereto. As it was inconvenient to have a formal lease of the site (which belonged to Government) to the Committee, the land was assigned to the head of the local Administration. It was decided that the Committee would be respon-ible for the maintenance and upkeep of the buildings and grounds, and pay for the charges out of the income accruing to the Committee from hire charges to be levied from institutions, sport societies or bodies using the stadium. The maintenance of the grounds was carried out by the Central Public Works Department on behalf of the Committee but by inadvertence no demand for the cost of maintenance for the period 1932-33 to 1935-36, was made by the Central Public Works Department till September 1935, though the departmental rules require that contribution by local bodies or private persons for the execution of works by the Public Works Department plus the necessary departmental charges shall be recovered in In September 1935, a bill for Rs. 44.729 being the amount due from the Committee on account of the actual expenditure up to end of 1934-35 and estimated expenditure for 1935-36 plus departmental charges was sent by Central Public Works Department to the head of the local Administration.

On these facts coming to the notice of audit, it was found that the expenditure on the maintenance of the grounds of the stadium was charged in Government accounts as expenditure on the Public Works Department Horticultural Operations, and, contrary to the rules, the initial accounts and vouchers did not specify that the

^{*} Accountant General, Bengal.

charges were of the nature of recoverable expenditure, also show the names of parties from whom they were recoverable. In reply to an audit enquiry the Chief Engineer has explained that the orders of Government conveying the decision to charge for the maintenance of the grounds of the stadium were not communicated to him (these orders were also not communicated to audit); and that the Central Public Works Department authorities were, therefore, not in a position to know whether the expenditure was recoverable from parties other than Government. A contributory cause of the omission to classify the charges correctly appears to be the fact that though the audit pointed out the necessity of maintaining a complete register of Government and other lands in charge of Public Works Department under horticulture operations, during the inspections of the Horticultural Division in January 1933 and January 1935 this register was not started till latter.

On a reference by the head of the local Administration, the Government of India have issued (September 1936) orders that the Committee of Management constituted in December 1931 should be abolished; that the head of the local Administration as the administrator of the amphitheatre be responsible in future for collecting the rents and making reservations for the various bodies desiring to use it; and that certain moneys mainly in the possession of the Committee in the shape of Government paper and fixed deposits amounting to Rs. 77,700 in all with interest be credited to Government.

The Government of India have also desired that steps should be taken to ensure a correspondence between receipts and expenditure on the maintenance of the buildings and track and that a pro forma commercial account of the buildings and track should be maintained.

The Government of India have further waived the recovery of the sum outstanding against the Committee representing the expenditure including departmental charges incurred by the Central Public Works Department on the maintenance of the grass and supply of irrigation water during the years 1932-33 to 1935-36 inclusive. The new arrangement has effect from 1st April 1937.

It has been stated that the original intention of the orders regarding the liability of the committee for the charges on the grounds and buildings cannot now be ascertained precisely, but that it is possible that the committee was not meant to be liable for the charges on the grounds extra to the track and buildings. It has also been stated that the committee's income could never have been increased to enable it to bear this expenditure and that the Government of India would have had to incur expenditure on the upkeep of the grounds under any circumstances.

13. Outstanding claim.—From 1933-34 a portion of Government estate was given on a permanent lease to an educational institution on a nominal annual rent of Rs. 3,480 subject to the condition that the grounds and buildings should be maintained by Government but the expenditure on this account should not exceed the cost which was incurred on their maintenance during 1932-33, any excess over that being borne by the institution. A sum of Rs. 9,558 is outstanding against the institution to the end of 1934-35 on account of special repairs to electric installations in the building. The matter is still under correspondence with the institution.

### Road Development Fund.

- 14. Institution of the Fund. --An extra duty of customs and of Excise of not less than two annas per gallon is levied on motor spirit and the proceeds thereof are applied for the purposes of road development.
- 15. This additional revenue in a financial year together with a proportionate share of the surcharge of 25 per cent. imposed in 1931 less a sum equivalent to the share in such proceeds arising from motor spirit used for purposes of Civil Aviation

during the calendar year ending in the financial year concerned is credited annually to the Deposit head "Road Development Fund" by debit to the sub-head "Block Grant for expenditure on Road Development" in Grant No. 73.

- 16. The accumulations in the Fund are administered by the Government of India with the advice of a Standing Committee for Roads. The amount credited to the Fund is distributed as follows:—
- (a) A portion equal to 15 per cent. is retained by the Governor General in Council as a Central Reserve for defraying the cost of administering the Road Development Account and thereafter upon such Schemes for research and intelligence and upon such special grants-in-aid as the Governor General in Council may approve.
  - (b) Out of the remainder there is allotted—
    - (i) a portion to each Governor's province for expenditure in the province.
    - (ii) a portion to the Governor General in Council for expenditure elsewhere in British India, and
    - (iii) a portion to the Governor General in Council for expenditure in the Indian States and the Administered Areas.

in the ratio which the consumption of motor spirit in each Area to which an allotment is made bears to the total consumption in India (excluding Jammu and Kashmir), during the calendar year ending during the financial year concerned.

- 17. Accounting procedure.—(i) The entire proceeds of the additional duties are first credited to the Revenue Head I—customs and at the end of each year an equivalent amount after retaining the share of the Civil Aviation Department in respect of petrol consumed for aviation purposes is transferred as a block grant to the "Road Development Fund" under. "P. Deposits and advances' by debit to sub-head "R-Block Grant for expenditure on Road Development Fund" under Grant No. "73-Civil Works". Thus the expenditure shown in column 3 under sub-head "R" represents the amount credited to the Road Development Fund during 1935-36.
- (ii) Grants made out of this Fund to Provincial Government and others are charged to the Fund. See table I below.
- (iii) The charges of the Road Engineer with the Government of India and his staff which are met out of the reserve retained by the Government of India in the Road Development Account [paragraph 13(a) above] are brought to account under sub-head I. This debit is set off by an equivalent amount transferred from the Fund vide the deduct entries under sub-head "S—Deduct amount to be recovered from the Road Development Fund".
- (iv) The subventions made from the Central Road Fund to Provincial Governments and centrally administered areas for expenditure on road development are credited to a special Deposit head "Subventions from Central Road Development Account" in the accounts of the province or of the central area concerned. The actual expenditure incurred from time to time is initially charged to the minor head "communications" or, where a part of the subvention is paid to a local body, to "Grant-in-aid" of the major head "41 Civil Works"; it is ultimately transferred in the case of the Central areas to the special deposit head "Subventions from Central Road Development Account" by minus adjustment under "41-Civil Works". Thus the figures in column 3 under sub-head B-3 represent the actual expenditure on road development schemes in the centrally administered areas during 1935-36 and those under sub-head K represent grants-in-aid to local bodies, etc. made by the Government of India during 1935-36 for road development: while the transfer to the deposit head "Subventions from Central Road Development Fund" is shown

under sub-head "T. Deduct—Amount met from subventions from the Road Development Account."

- 18. Table I below shows the transactions under the Deposit head including the amounts retained by the Governor General in Council vide para. 13(a) above up to the year under report.
- 19. Subventions to the Provincial Governments and Minor Administration are credited in the first instance to a special Deposit head "Subvention from Central Road Development Account" by debit to the fund. The actual expenditure initially charged to "Civil Works" is ultimately transferred to the special deposit head 'Subvention, etc.'. The special deposit head thus indicates in the accounts the balance available for further expenditure out of these subventions (vide table II below). Details by each area of the transactions relating to centrally administered areas are shown in table III below.
- 20. The transactions relating to the Fund included in the above appropriation account under the various sub-head are brought together in a consolidated statement, vide table IV below.

The main feature in the account this year is the transfer of payment of the Posts and Telegraphs Department pensions to Post Offices (from 1st April 1935) which is mainly responsible for the large total saving (Rs. 15,94,431) in the Grant as voted by the Legislative Assembly. Taking into account, however, the amount of surrender (Rs. 13,98,686), the final saving comes to 1:72 against corresponding percentage ·45 in the previous year. Savings under sub-heads A. ,J., and M. 4 have mainly contributed to this saving in the Grant as a whole.

#### Nores.

- 1. The large saving in the voted section which amounts to 4.7 per cent. mainly occurred under group sub-head Y. The supplementary grant of Rs. 1,36,000 obtained from the Assembly, proved to be unnecessary. Supplementary grants were obtained under some of the sub-heads for comparatively small amounts. (See paragraphs 54 (iii) and 55 of Chapter III o: the Audit Report).
- 2. Sub-head C. 1 (I).—While presenting to the Legislature a supplementary demand for Rs. 1,10,000 under this sub-head, it was stated that the excess expenditure was recoverable as receipts credited under the revenue head "XXXIV.—Stationery and Printing"—ride fcotnote on page 31 of the Supplementary Demands for Grants, March 1936. It is reported that the entire amount was recovered from the Provincial Governments concerned during the Yoar.

Col. 1.—Heavy printing charges of the Board's Report and Evidence volumes. Col. 4.—The printing of certain volumes not having been completed during the year, the grant could not be utilised in full. The savings could not be surrendered or re-appropriated to cover excess expenditure under other voted heads, viz., D. 1 (1) and D. 1 (3) as there was no time for the purpose.

D. 2.—Other Commissions and Committees:

D. 2 (1).—Pay of Officers

Non-voted M. 31,000 . . 31,000 54,731 +23,731

Col. 1.—To meet expenditure on account of the Delimitation Committee. Col. 4.—Mainly expenditure of the Secretariat Procedure Committee (Rs. 12,979) and the Special Financial Enquiry (Rs. 13,084). In the latter case, provision was made under "Voted" pending classification. No action was taken through oversight on the final decision to treat the expenditure as "Non-voted". In the former a sum of Rs. 14,500 was earmarked for expenditure under this sub-head as well as under sub-head D. 2 (3).—Non-voted, but no audit order was issued to cover the expenditure through misapprehension.

Col. 1.—Provision for expenditure of the Delimitation Committee, Secretariat Procedure Committee and of the Special Financial Enquiry for the allocation of certain resources between the Central and Provincial Governments. Col. 4.—Mainly under Secretariat Procedure Committee (Rs. 18,884) and under "Special Financial Enquiry" (Rs. 13,800). In the former case, the saving was caused mainly by a lump sum of Rs. 14,263 kept in reserve to meet anticipated debit on account of the salary of the chairman and a member for the period of their employment on the Committee in the United Kingdom for which no debit was received. For the latter case, see D. 2 (1)—Non-voted.

D. 2 (2).—Pay of Establishments

Col. 1.—See D. 2 (1)—Voted. Col. 4.—Saving mainly under Secretariat Procedure Committee (Rs. 2,335) kept in reserve to meet book adjustments under "travelling allowance—voted"; and also under "Special Financial Enquiry" (Rs. 1,871), full staff not being entertained.

D. 2 (3).—Travelling Expenses

Col. 1.—See D. 2 (1)—Non-voted. Col. 4.—Mainly under "Special Financial Enquiry" (Rs. 11,722) and Secretariat Procedure Committee (Rs. 1,481), for reasons stated under subhead D. 2 (1)—Non-voted. Also due to the excessive actual amount paid for the chairman's touring car, etc., not taken into consideration when the estimates were prepared in respect of the former.

Col. 1.—See D. 2 (1)—Voted. Col. 4.—Mainly due to saving kept in reserve under the Secretariat Procedure Committee to meet anticipated book debits from the railway authorities.

Major Head and Sub-head.	Final Appropriation.	Actual Expenditure.	Excess + Saving —.

a. Uvilis	Voted .		23,78,000	22,40,736	1 37,264

#### Notes.

- 1. The final excess in the non-voted section is mainly attributable to the variations under sub-heads 'M' and 'D. 2 (1).—Non-voted '. The final saving in the voted portion mainly occurs under sub-heads 'D. 2 (1).—Voted 'and 'N'.
- 2. Reappropriations which eventually proved to be in the wrong direction are noticed under sub-heads E. 2 (Voted) and K. 1 (3). The supplementary provision under sub-head D. 1 (5) (Voted), proved also unnecessary.
- 3. The explanations furnished by the department concerned for savings in the voted portion of the grant under sub-heads D. 2 (1) and D. 2 (3) and also in the sub-head D. 2 (2) indicate that the control of expenditure was susceptible of more improvement.
- 4. Sub-head N.—It is observed that the supplementary grant of Rs. 10,08,000 obtained in March 1936 proved to be excessive to the extent of over one lakh.
- 5. Sub-head G.—The following table compares the original budget provision, subsequent modifications therein, actual expenditure and final variations against this sub-head for the last four years. The considerable variations during all these years which were mainly in connection with contribution to the Posts and Telegraphs Department for Foreign State Telegrams suggest the desirability of improving the machinery of control over expenditure:—

		Appropriation and modifications.	Final appropriation.	Actual Expenditure.	Excess+ Saving—.
Years		Rs.	Rs.	Rs.	. Rs.
1935-36 .	. O. R.	-20,500	75,200	89,220	+14,020
1934-35 .	. O. S. R.	$\left.\begin{array}{c} 75,700 \\ 2,000 \\ 12,899 \end{array}\right\}$	90,599	76,351	14,248
1933-34 .	. O. S. R.	$\left. \begin{array}{c} 67,700 \\ 8,000 \\ 2,050 \end{array} \right\}$	77,750	88,447	+10,697
1932-33 .	. O. R.	$\{42,700 \\ 22,000 \}$	64,700	77,513	+12,813

6. The following table shows the consolidated charges (Voted and Non-voted) for 1935-36 alone and also the total charges of each Commission or Committee from its inauguration up to the end of 1935-36:—

				In	To end of
				1935-36.	1935-36.
				Rs.	Rs.
Delimitation Committee	•			1,26,409	1,26,409
Special Financial Enquiry .				28,648	28,648
Secretariat Procedure Committee		•	•	63,218	63,218

7. Sub-head K.—Miscellaneous and Unforeseen Charges.—The charges recorded under the sub-head "K. 9.-—Other items" are given below:—

	Voted.	Non-voted.
	Rs.	Rs.
(1) Adjustment of leave salaries of certain officials .	4,104	4,788
(2) Charges on account of printing cheque books supplied to Civil (Central) departments	3,081	••
(3) Payment to the Reserve Bank of India for the management of the Mysore Government loans at Calcutta and Bombay	2,717	••
(4) Other miscellaneous payments	71	• •
-	9,978	4,788

- 8. New Sub-heads .- The following new sub-heads have been opened during the year :-
  - (1) K. 7.—Expenditure in connection with the Silver Jubilee (of His Late Majesty King-George V).
  - (2) K. 8.—Expenditure in connection with the Constitution of the new Provinces of Orissa and Sind.
  - (3) N.—Loss by Exchange on Remittance Account.

#### IMPORTANT COMMENT.

Unauthorised expenditure.—A non-official gentleman appointed to a temporary post which carried with it the right to requisition a first class compartment, reserved a saloon instead in respect of certain journeys, entailing an overpayment of about Rs. 3,600, sub-head D. 1 (3)—Voted, which could not be recovered from him before he left for England on the expiry of the term of his appointment. On the Government of India being requested to arrange for recovery through the High Commissioner for India, London, the recovery of the amount was waived by the Governor General in Council in consideration of certain special circumstances attending the case.

# GRANT No. 76A.--EXPENDITURE ON RETRENCHED PERSONNEL. CHARGED TO REVENUE.

#### Notes.

- 1. The attention of the controlling officer has been drawn to the instance of wrong provision in Bihar and Orissa under the sub head G. Voted.
- 2. Sub-heads A.—Non-voted and B are responsible for the final saving in the non-voted section of the grant, while sub-head A.—Voted is responsible for the excess in the voted section.
- 3. The control over expenditure relating to sub-heads A.—Customs, B.—Taxes on Income and C.-Salt has been exercised centrally by the Central Board of Revenue for three years in succession. In the Appropriation Report for 1933-34, a marked improvement in the voted section was noticed as a result of this central control and a hope was expressed that it would be possible for the Board to show still further improvement. But the results of this year do not show such improvement.
- 4. The additional appropriation under sub-head C.-Non-voted and the supplementary grant under sub-head G.-Voted proved to be unnecessary.
- 5. In acceptance of the recommendations of the Public Accounts Committee contained in paragraph 17 of their Report on the accounts of 1934-35, it has been decided by the Government of India, that with effect from 1937-38 there will be no separate Demand for "Refunds" in the Book of Demands and consequently no appropriation account for this grant.

N.B.—The expenditure corresponding to the receipts prefixed by asterisks stands included in the Appropriation Accounts of the respective subject grants.

The expenditure corresponding to the receipts prefixed by the mark† stands partially included in the Appropriation Account of area grant No. 79—Baluchistan and partially in the subject grants.

#### IMPORTANT COMMENTS.

Quetta Earthquake.—Appalling damage was caused to life and property by the earthquake that overwhelmed Quetta and surrounding areas in the early morning of 31st May 1935. To deal with the situation and to alleviate the suffering amongst the victims extraordinary measures were quickly adopted by the Government of India.

These measures fell into two main categories, viz., those chargeable to public revenues and those defrayed from charitable funds.

2. His Excellency the Viceroy immediately opened a Fund for relief of sufferers to which the Government of India contributed a sum of Rs. 10 lakhs from public revenues. A supplementary grant of Rs. 40,66,900 was obtained from the Assembly.

and a sum of Rs. 77,000 was met by re-appropriation to meet the emergent expenditure on measures of relief charged to the civil grants for 1935-36. The details are

given below:-

	Grants sanctioned.	Actual expenditure voted and non-roted.
	Rs.	Rs.
(1) Extra Police	1,75,000	2,13,261
(2) Hutting, tentage, water supply, lighting, etc	15,41,000	13,58,379
(3) Extra Public Health Staff	1,23,000	1,33,817
(4) Protection of the City area	43,000	38,203
(5) Salvage operations	10,14,000	11,41,860
(6) Extra administration, clerical staff and allowances	32,000	77,433
(7) Cost of passages by rail and steamers to officials .	2,000	••
(8) Medical	3,000	15,906
(9) Rural reconstruction	1,50,000	26,842
(10) Miscellaneous	24,000	2,68,275
(11) Cost of services rendered to the Civil Administra- tion excluding the Railway and Posts and Telegraphs Departments by the Military after	, !	
the earthquake	37,000	•••
(12) Contribution to the earthquake relief fund	10,00,000	10,00,000
Gross Total	41,44,000	42,73,976
Reduction made by the Legislative Assembly	100	••
Net Total	41,43,900	*42,73,976

3. The defence services estimates bore in the first instance the expenditure on immediate relief to the sufferers and with the approval of the Government of India, Finance Department, the expenditure on relief under the different categories was allocated as follows:—

Head to which charged.

<ul><li>(a) Government servants in Civil I</li><li>(b) Government servants in Railwa</li></ul>	Depart ny Dej	ment partme	nt	: _ب	(a) 52—Extraordinary. (b) & (c) Departments of cerned.	on-
(?) Government servants in Posts	and '	Telegra	plıs I	De-	}	
(d) Families of Government serva	nts of	those	Depa	rt.	(1)4ro Ti 4m - 11;	
ments . (c) Non-officials some of whom were		lat Sta	•	. •	(a) Toz-Extraordinary.	
(f) Defence services personnel—	3111 1278	nat Sta	ite		•	
entitled	•	•		•	(f) Defence Department.	
(g) Do. non-entitled	•	•	•	•	(g) Defence Department.	

4. The expenditure on relief incurred by Defence authorities was passed on to the Departments concerned and adjusted on the accounts of the latter either in 1935-36 or in the following year. Vouchers in support of the debits raised by the Defence Department and certificates of audit by the Controller of Military Accounts concerned and of test check by the Director of Audit, Defence Services, could not be furnished, as it was stated that the audit of expenditure for June and July 1935 in which most of the charges were incurred was not conducted and for other months the expenditure had to be allocated on a pro-rata basis.

^{*} Includes Rs. 1,14,421 non-voted expenditure against an appropriation of Rs. 93,500, for which distribution is not available.

[†] The Government of India have since decided that the expenditure should be debited to the Railway and Posts and Telegraphs Departments respectively and not to the head "52—Extraordinary".

- 5. The following were some of concessions granted to the sufferers:—
  - (i) An advance of one month's pay was granted free of interest to Government servants in the earthquake area, recoverable in twelve instalments.
  - (ii) Recovery of house building and conveyance advances was suspended by the Government of India and balances of house building advance due from those killed in the earthquake were written off.
  - (iii) A compensatory separation allowance was granted to all Government servants whose families were not allowed to stay in the earthquake area.
  - (iv) Free passages to the United Kingdom were granted to Government servants of Non-Asiatic domicile injured in the earthquake and to the members of their families. Also to non-officials of Non-Asiatic domicile whom it was necessary to evacuate from the earthquake area.
  - (v) Compensation Pensions and gratuities were granted to the dependants of Government servants killed in the earthquake.
  - (vi) Remission of land revenue in the earthquake area in the Quetta Subdivision for 1935-36.
  - (vii) Suspension of instalments of taccavi loans due in 1935-36.
- 6. The expenditure on the earthquake charged in the accounts of 1935-36 was practically confined to relief, temporary housing and salvage, though a beginning was made with clearance. The completion of clearance, the beginning of reconstruction and the final allocation of some items of relief expenditure was made in 1936-37 and will be dealt with in the Appropriation Accounts of that year.

#### Notes.

- 1. The reappropriation under sub-head 'B' in Account IV was in the wrong direction.
  2. The explanations under sub-head C. 4.—Col. 4 in Account II and A. 4.—Col. 4 in Account IV indicate a lack of knowledge about outstanding liabilities on the part of the controlling authorities.
- 3. Account III, sub-head D. 4. This head is mainly intended to meet the loss resulting from defalcations in the court of the Judge, Small Cause Court, Delhi.

#### IMPORTANT COMMENTS.

- 1. Defalcations.—In the beginning of May 1934, certain property including a sum of Rs. 1,000 in cash was recovered in connection with a criminal case, and deposited in the Malkhana of a Police Station. The property including the cash was entered in the Malkhana register and the daily diary of the station. It was also noted in a list called the road certificate and sent by the Police Station in the middle of June 1934 to the Prosecuting Deputy Superintendent of Police through a head When the case was decided, and the accused applied for the return of the property including the cash of Rs. 1,000 it was found that the sum of Rs. 1,000 had not been entered in the Malkhana register of the Prosecuting Deputy Superintendent of Police. Departmental enquiries revealed that the amount had been misappropriated by the head constable who took the property and the cash from the Police Station to the office of the Prosecuting Deputy Superintendent of Police. The head constable was tried and sentenced to one year's rigorous imprisonment and to pay a fine of Rs. 1,000 or in default to undergo a further sentence of 6 months' rigorous imprisonment. The misappropriation was rendered possible by neglect of the Police Rules which lay down that property exceeding Rs. 500 should be forwarded as soon as possible to the district headquarters for deposit in the treasury. The Station House Officer did not take prompt steps to deposit the property in the Prosecuting Inspector's Malkhana. The Police Rules further lay down that when an accused is sent up for trial. a charge sheet should be prepared and thoroughly scrutinised by an officer of the prosecuting branch not below the rank of Prosecuting Sub-Inspector. This charge sheet should also be accompanied by a road certificate giving a list of all property received in connection with the case. The Prosecuting Sub-Inspector failed to see that the road certificate was promptly despatched with the property to headquarters. Had the Police Rules been followed, it is probable that the embezzlement would not have taken place. Both the Sub-Inspectors concerned in the matter have been censured for the neglect of their duty.
- 2. A series of defalcations which occurred in certain courts in 1933 and 1934 came to notice in 1934. Enquiry showed that a sum of Rs. 4,638 received by the Courts in several cases from time to time was not paid into the treasury and was defalcated by three officials. In addition, a sum of Rs. 385, was also defalcated on account of security deposits; this is proposed to be recovered from the security money of one of the culprits. The former amount has been written off by the Government of India as a loss adjustable under Account III—Administration of Justice. D.—Courts of Small Causes. D. 4—Losses.

Two of the culprits have been dismissed, one having been convicted and sentenced to pay a fine of Rs. 385 while another was sentenced to 6 months' rigorous imprisonment. The third is under suspension and criminal proceedings are still pending in the court. Disciplinary action against the Departmental officers concerned is also under consideration.

It may also be mentioned that there was a temporary misappropriation to the extent of Rs. 9,200 in the same courts. This amount was deposited into the treasury long after its receipt in the courts as a deposit money.

#### IMPORTANT COMMENT.

Defalcation.—A clerk in a Government High School used to receive from time to time the tuition fees collected by the various teachers from the students of the school. The amounts were to be entered in the cash book and then remitted to the treasury under Challans prepared by him and duly signed by the Head Master.

Early in October 1932, while the clerk concerned was on casual leave, it was noticed that certain figures in the cash book did not tally with those in the Treasurv Challan Books. As a result of the investigation by the Audit Department and the local authorities, it was found that the clerk had been in the habit of making short remittances into the treasury of the fees which were also not properly noted in the The cash book and accounts of the school had for many years remained unchecked by the Inspecting Officers, including the Educational Commissioner with the Government of India who was entrusted with the charge of the post of Superintendent of Education, Delhi and Ajmer-Merwara in addition to his own duties owing the period 1923—31 as a measure of economy. This officer could not carry out the inspection on account of pre-occupation with his other duties. The defalcation of Government money amounted to Rs. 23,140 during the period from the 1st July 1922 to the 30th September 1932. The clerk was prosecuted, convicted and sentenced to rigorous imprisonment. The Head Master, whose negligence in the matter of accounts materially contributed to the loss had retired on pension in May 1932 and under the rules no recovery was possible from him. The amount defalcated has been written off by the Government of India, after crediting a sum of Rs. 167 which was recovered by the Police.

It appears that the defalcation was rendered possible primarily by the nonobservance of the rules relating to the maintenance of cash books, by the local authorities who are primarily responsible for the assessment and collection of Government revenue, the maintenance of proper accounts thereof and the verification of the departmental figures of receipts with those adjusted in the books of the Accounts Officer concerned. The cash books and accounts of the school also remained unchecked by the Inspecting Officers for a large number of years, as stated in the second sub-paragraph above.

To prevent a repetition of such cases, the Government of India have asked the Local Administrations to impress upon all inspecting officers the necessity of observing the relevant Code Rules which contemplate a careful examination of all account books of the schools and colleges periodically by them. Head Masters and Principals have also been required to examine and check carefully the accounts of their schools and colleges at regular intervals and the Inspecting Officers have to see that this check by the heads of institutions is properly carried out and to submit a detailed report on these matters in their inspection reports.

#### Note.

No amount was surrendered out of the savings in the voted section of the grant. There has, however, been an improvement in the percentage of savings this year, viz., -0.57 as compared with the results of the last year, viz., -7.08 which was reduced to -1.9 by surrendering a portion of the savings. The reappropriation under A. 3—voted in Account I, was in the wrong direction.

Major Head and Sub-head.	Final Appropriation.	Actual Expendit ure.	Excess + Saving -
1	2	3	4
	Rs.	Rs.	Rs.

H.—Charges in connection with S. S. "Maharaja":

H. 1.—Pay of Officers

H. 2.—Pay of Establishments

Col. 1.—Opening of this sub-head to record expenditure on pay of establishment after submission of the estimate, the provision for this item having been included under "H. 6 .-Other Charges ".

H. 3.—Cost of Coal

Col. 1.—Additional trips made by S. S. "Maharaja" to North Andaman, its sailing to Madras via Car Nicobar which required surplus bunker coal at Madras at higher rate and purchase of extra coal for stock at Port Blair to avoid necessity of coaling in more expensive places. Col. 4.—Freight charges on extra coal purchased for stock at Port Blair remained uncovered.

Col. 4.—Unanticipated more towage and lighter age charges adjusted after the close of the year and also charges for water carriage of extra coal as mentioned under H. 3.

H. 6.—Other Charges

Col. 1.—See H. 2.—Pay of Establishment. Col. 4.—Advertisement charges paid by Government of India in connection with the charter of a steamship and messing charges paid for convicts were more than what were anticipated.

H. 7.—Deduct—Recovery from Forest Department, etc.

Col. 1.—Mainly for the increased passage earning due to arrival of more volunteer convicts, shipment of more timber and petrol imported by Marine, Public Works and Settlement in March 1936 and recoveries towards freight on Coal purchased for stock at Port Blair.

Col. 4.—As the year 1935-36 was the first year in which increased provision was necessary due to the adjustment of the cost of certain Railway Warrants which had previously been debited to E. 1 (3) the excess provision required could not be gauged. The excess was noticed in December 1935 but as the amount involved was small, it was not considered necessary to go up for a supplementary grant. The local officers were as led to meet it by economy and postponement of other expenditure, but were unable to do this.

Nores.

^{1.} As compared with the amount of total savings as shown in the appropriation account of the previous year, this year's results show improvement in the control over expenditure. The reduction of provision under sub-head J. 2 (5) was, however, a reappropriation in the wrong direction.

^{2.} Instances of wrong provisions under sub-heads G. 1 (1) (3) and I. I (4) were brought to the notice of the controlling officer for his future guidance.

^{3.} Savings under sub-heads E. 1(1)—Non-voted, G. 1(1) (4)—Voted and K. 1(1)-Non-voted were not surrendered through oversight.

Notes.							

- 1. The final saving occurs mainly under the sub-heads A. 12 and G. 1.
- 2. The reappropriations under the sub-heads A. 3 and C were in the wrong direction. The saving under the sub-head A. 10 indicates defective control, suggestions for improvement of which have already been made to the local Government of the North-West Frontier Province.

#### NOTE.

The large saving in Account II is mainly composed of savings under sub-heads A and K. 4 counterbalanced by the excess under sub-head K. 7. These savings and excesses are mainly responsible for the final saving in the total appropriation.

# ACCOUNT I .- POLITICAL AGENTS.

Major Head and Sub-head,	Final Appropriation.	Actual Expenditure.	Excess + Saving —.	
A.—Agencies and Residencies	Rs.	Rs.	Rs.	
$A. 1.—Pay of Officers \ O. 14,14,100 \ M49,529 \ \}$	. 13,64,571	13,67,418	+2,847	

Col. 1.—Mainly in United Provinces (Rs. 32,660) and in Punjab (Rs. 13,962). Lesse number of Political Probationers under training.

#### A. 2.—Pay of Establishments

0. M.

8,65,612

8,61,556

Col. I.—Mainly in (i) Punjab (Rs. 21,000) due to classification of a local allowance in Gilgit Agency as compensatory allowance and consequent transfer of provisions from subhead A. 2; (ii) North-West Frontier Province (Rs. 13,000), due to passage of a certain officer and more transfers and touring necessitated by political situation; and (iii) India circle, (Rs. 34,000), chiefly due to the decision that the expenditure incurred at Jeddah on behalf of the Government of India should be adjusted in India, and cost of passages, leave and transfer movements in Bahrein and Muscat Consulates. Col. 4.—Mainly in North-West Frontier Province owing to omission to provide funds for cost of passages of certain officers (Rs. 6,979), partly counterbalanced by small savings and excesses in other Provinces.

-4,056

## ACCOUNT I .- POLITICAL AGENTS-contd.

Major Head and Sub-head.	Final Appropriation.	Actual Expenditure.	Excess + Saving —.
1	2	3	4
	Rs.	Rs.	Rs.
A. 4.—Supplies and Services O. 3,18,500 M. 75,529	. 3,94,029	4,10,873	+16,844

Col. 1.—Mainly in North-West Frontier Province due to (i) increased supply of water to tribes and to Political Department in the Khyber Agency from the Military Engineering Service installations, decision on which was reached in April 1935 (Rs. 18,100) and (ii) unanticipated payment of compensation to Tori Khels for land acquired near Razmak (Rs. 50,000) Col. 4.—Mainly in Gyantse Trade Agency. Larger debits on account of maintenance of Dak and Telegraph lines, raised by the Posts and Telegraphs Department after the close of the year.

A. 5.—Secret Expenditure

O. 35,100 \ M. 7,353 \ . 42,453 41,856 —597

Col. 1.—Mainly (i) in North-West Frontier Province to meet abnormal expenditure connected with the Loe Agra operations and disturbances (Rs. 4,000) and increased expenditure in connection with certain negotiations (Rs. 1,000) and (ii) in Sikkim Agency due to the reduction of grant (Rs. 1,827).

A. 6.—Contingencies  $0. \quad 4.42,300 \\ M. \quad 62,770$  .  $5,05,070 \quad 5,15,927 \quad +10,857$ 

Col. 1.—Mainly (i) in North-West Frontier Province due to increased expenditure on telephone lines and installations and Post Offices (Rs. 16,686), (ii) in Jeddah Vice-Consulate due to the decision that the expenditure incurred on behalf of the Government of India should be adjusted in India (Rs. 19,167), (iii) in Bahrein due to increased expenditure on telegrams in connection with Qatar and Trucial coast affairs, transit dues, Saudi-Arabian boundary, Air route and oil negotiations (Rs. 12,300) and extra expenditure on account of appointment of Assistant Political Agent and increased office activities and requirements (Rs. 1,600); Col. 4.—Mainly (i) in Nepal due to an advance drawn in March 1936 by the British Envoy at the Court of Nepal, to meet the expenses of his tour to the bordering countries having been finally adjusted under this head under Rules (Rs. 3,899), (ii) in Jeddah (Rs.6,783); in the absence of sufficient data the revised estimate based on the actuals of 1934 proved low.

Col. 1.—Mainly (i) in Madras (Rs. 12,400), chiefly due to vacancies in the ranks of the Officers in the Nair Brigade and (ii) in the Punjab (Rs. 2,700) and United Provinces (Rs. 2,900), to lesser number of Political Probationers on training. Col. 4.—Mainly (i) in Madras due to the reduction mentioned above having proved low (Rs. 1,500) and (ii) small saving in various Provinces.

A. S.—Establishment Charges paid to other
Provincial Governments, etc. . 96,500 95,693 —807

B.—Educational Establishment in Agencies (N.-W. F. P.):

B. 1 .- Pay of Establishments

### IMPORTANT COMMENTS.

A recurring liability (Rs. 8,031 per annum) imposed upon the Central Government as a result of the amendment of an Act of a Provincial Government.-Under Section 93 (1) of the Bombay District Local Boards Act, 1923, local fund cess was levied on land revenue excluding talukdari lands. The Section of the Act was amended in 1927 to provide that the cess should be levied on talukdari land as The effect of the amendment was that an Indian State holding such land in the Bombay Presidency became liable to an assessment of Rs. 8,731 per annum by way of cess on its talukdari lands with effect from the year 1927-28. an agreement of 1865, however, the Government of Bombay had agreed to accept from the State annually a sum of Rs. 700 only in lieu of all demands for cess, and the State consequently declined to pay the increased amount of the cess. The matter was referred to the Secretary of State who ruled that the Government of Bombay was not entitled to recover from the State anything in excess of Rs. 700, the amount fixed under the agreement of 1865 and that the difference (Rs. 8.031). between the rate for which the State compounded in 1865 and the amount leviable by law should be made good from the Central revenues as a Political charge. also recognised that a situation might arise in which a Provincial Legislature acting within its powers might pass laws inconsistent with the terms of an agreement made in the past between Government and a ruler of an Indian State.

The amendment of the Act made in 1927 has thus led to a recurring liability of Rs. 8,031. A payment of Rs. 72,280 on account of the difference at Rs. 8,031 per year for the period 1927-28 to 1935-36 was made in the year under report [Subhead K. 4 (3) in Account II].*

2. Outstanding claims against a Foreign Government.—Certain items of claims aggregating Rs. 70,962 are outstanding in the books of the Accountant General, Central Revenues against the Iranian Government. The amount is composed of two items, viz., Rs. 69,968 and Rials 6013·60 (equivalent to Rs. 994 approximately). The former represents the pay, allowances, pension contributions and leave salary of certain Assistant Surgeons whom the Government of India deputed in the past for quarantine work in the Persian Gulf. The matter was last mentioned in the Appropriation Accounts for 1929-30 (item 69, page 38). The latter sum due on account of the expenditure at Jask and Henjam during the cholera epidemic was subsequently added to the claim.

The matter has been under correspondence in the Government of India, Foreign and Political Department. No final settlement has yet been made.

* Accountant General, Bombay.

#### Notes.

- 1. The modification in the wrong direction noticed under sub-head C. 4 is mainly responsible among other sub-heads for the final savings in the grant as a whole.
- 2. The non-provision for expenditure on bonus under sub-head B. 1 (7) indicates ne cessity of closer estimation of liabilities.
- 3. The uncovered excesses under sub-heads B. 1 (10) and B. 4 (4) point towards need for improved control.
- 4. Sub-head B. 1 (14).—In note 3 under the appropriation account for 1934-35, it was stated that further reductions in the Frontier constabulary had been postponed to the year 1935-36. But owing to recrudescence of trouble or possibility of trouble in certain parts of the Frontier the anticipated reductions could not be effected. Consequently the anticipated savings did not materialise.

#### IMPORTANT COMMENTS.

Review on Works Expenditure.—The following table compares the actual expenditure with the original and the modified provisions respectively for the works expenditure proper vide sub-head C. 1 to C. 4:—

Class of works.			Original	Modified	Madified		Outlay compared with	
				provision.			Original provision more + less —	Modified pro- provision more 4- less —
New major Major works Minor works Road Devel	s in pro	٠.		81 55 1,45	5,29 5,13 1,58	5,00 5,06 1,50	$^{+4,19}_{+4,51}$ $^{+5}$	—29 —7 —8
Works. Ropairs	:		•	36 18,25	20,07	$\frac{-1}{20,05}$	-37 + 1,80	$-1 \\ -2$
	$\mathbf{T_0}$	tal	•	21,42	32,07	31,60	+10,18	-47

Note.—A detailed statement of expenditure on important new works is appended below the Appropriation Account; this is referred to as the 'Statement' in the succeeding paragraphs.

- 2. The percentages of variations as compared with the original and the modified provisions are +47.5 and -1.5 respectively. The latter is mostly attributable to non-receipt during the year of expected materials vide sub-head C. 4 and the former is mainly due to—
  - (i) the decision during the course of the year to charge to ordinary heads an expenditure of 741 on certain works (items 3, 4, 5, 7, 8 and 9 of 'Communications' in the statement) which was originally sanctioned from the Fund for the special Frontier expenditure including development, created out of the revenue surplus of 1934-35, and

(ii) an expenditure of 3,34 incurred on the construction of a new road (item 10 ibid) and repairs to certain other roads, in connection with 'Moh Force' 1935 and Loe Agra operations respectively.

- 3. New Major Works.—Two new works (vide items 2 and 4 under 'Buildings' in the statement) were provided in the budget but the provision for both had to be surrendered for want of technical sanction to the estimates. Excluding items 3, 7, 8, 9 and 10 referred to in paragraph 2 above which amount to 461 and which had to be provided for during the course of the year, for reasons apparently beyond the control of those administering the grant, the expenditure incurred on works not originally provided in the budget is 39 vide item 11 under 'Communications', and 5 under 'Buildings' of the statement referred to above.
- 4. Major Works in progress.—Excluding again the items 4 and 5 referred to in paragraph 2 (1) above which amount to 4,58 and which had also to be provided for during the course of the year for exceptional reasons, the expenditure on works of this category was incurred against budgeted works (57) ride items 1 and 3 under 'Buildings' of the statement and non-budgeted works (-9), the latter figure being made up of items 1, 2 and 6 under 'Communications' and 4 under 'Buildings' of the statement. The minus expenditure represents credits received for disposal of stores surplus to the requirement of works.
  - 5. Minor Works.—The variations are petty and call for no comments.
- 6. Road Development Fund Works.—The provision made for these works had to be surrendered as the works did not receive the sanction of the Government of India. The provision under this head does not affect the budget as a whole as the expenditure is met from the Fund for subventions from the Road Development Account.
- 7. Repairs.—The big excess of 1,80 over the original provision was caused mainly by unforeseen repairs to certain roads in connection with the Loe Agra operations referred to in paragraph 2 (ii) above.

- 8. On the whole, the above particulars indicate that, while the watch over the progress of expenditure was satisfactory, and the bulk of the variations was due to the exceptional circumstances explained in paragraphs 2 and 3 above, it cannot be said that so far as the original provision was concerned, it was precisely stated or that in the actual expenditure there was a close conformity with that provision.
- 9. Unauthorised excluded funds in the North-West Frontier Province.—In connection with the existence of certain Khassadar and other unauthorised excluded funds in the North-West Frontier Province mentioned on page 376 of the last report, the Public Accounts Committee, in paragraph 13 of their Report on the accounts of 1934-35, criticised the delay that had occurred in closing them and recommended to the Government of India that Khassadar funds should be closed within a period of two months and the others within three months. The Government of India accepted this recommendation and issued orders accordingly towards the end of August 1936. Following these instructions, the Local Administration issued orders in September and October 1936 to the various subordinate authorities to close the funds.
- (a) Khassadar Funds.— Out of the six Khassadar funds, four are reported to have been closed and the balances of three of them credited into the treasury. Intimation of the closure of the remaining two, for which orders were issued on the 16th September 1936, has not yet (January 1937) been received.
- (b) Other excluded and unauthorised funds.—Twenty six such funds were mentioned in the last year's report of which seven were stated not to be in existence. The Local Administration later reported that one of these seven funds had not been actually closed at that time. It has now been reported as closed from the 17th August 1936. There were no balances at the credit of these six funds while that at the credit of the seventh has been properly disposed of. Three funds have been held to be regular, but as regards one of them the question whether it is necessary to continue it is under reference with the Local Administration. Three-funds were closed before the issue of the recent orders, whereas twelve funds were required to be closed forthwith, upon the receipt of these orders. The question of regularization of one fund is still under consideration. Out of the twelve funds required to be closed forthwith, four have been reported as closed and the balances paid into the treasury.

The Government of India have also directed that the accounts of both the classes of funds after they have been closed should be reviewed by the local audit staff. Arrangements for the local audit of these accunts are under reference with the Local Administration and will be made in consultation with them after reports of their closing have been received.*

10. Loss due to misinterpretation of Government orders.—Under a Government of India order of 1897, good conduct pay was sanctioned to combatants on rendering approved service for a prescribed period. In September 1935, it came to the notice of audit that the allowance was being paid in certain Corps to followers as well, evidently through a misinterpretation of the Government order. As, however, the allowance was being drawn in lump sum on pay bill forms supported by a certificate of the Commandant concerned to the effect that it was drawn only for the staff entitled to it, the erroneous overdrawal could not be detected in audit earlier. Detailed statements giving particulars of good conduct pay used to be received in audit till 1933, but there is no evidence that any use was made of them. The amount of overpayment, which was estimated at not more than Rs. 10,000 in all, was written off by the Local Administration on the ground that it had been drawn in good faithand under a reasonable belief that the followers were entitled to it. The payment of the allowance to the followers was stopped with effect from 1st November 1935. under the orders of the Government of India issued at the instance of the Locali Administration.*

#### Notes.

There is still some room for improvement in the control of experditure although the position is distinctly better than in past years.

A. 1 (4).—It is explained that funds were not surrendered in anticipation of debits in exchange accounts after the close of the year, although it does not appear that any supplies were indented for from other Departments.

A. 3.—The original grant was supplemented by Rs. 1,600 in February 1936 when the expenditure to end of January 1936 was roughly Rs 2,900. The additional funds provided proved insufficient. The controlling authority, however, hopes that there will be no difficulty in estimating the appropriate requirements in future.

^{*}The not amount required being a minus quantity a nominal demand for Rs. 1,000 was submitted for vote to the Legislative Assembly.

#### Note.

This grant records expenditure of a capital nature connoting increases or reductions in the capital invested by Government in the Security Printing Press (including the Central Stamp Store) at Nasik Road. The transactions are recorded under the various heads, such as lands, buildings, etc. The working expenses, interest on capital and depreciation on buildings, etc., are provided for under "Grant No. 20.—Stamps". The Commercial accounts of the Press appear in Chapter IV of the Commercial Appendix.

*The net amount required being nil, a nominal demand for Rs. 1,000 was submitted for the vote of the Legislative Assembly.

#### Notes.

- 1. A note on the system of pro rata distribution of establishment and tools and plant charges will be found under appropriation Account of grant No. 22.-Irrigation, etc.
- 2. So far as this grant is concerned the net effect of the re-appropriations under the several sub-heads is "Nil"; though an indirect effect has been that the debit to Grant No. 22 for expenditure on works directly charged to Grant No. 90 has been reduced by Rs. 16,070 which amount was made available for expenditure on works debitable direct to Grant No. 22.

#### IMPORTANT COMMENTS.

Review of the Grant and its administration.—A supplementary grant of 27,65 was obtained in April 1935 to meet the estimated expenditure during 1935-36 in connection with the transfer of the Imperial Institute of Agricultural Research from Pusa to Delhi. This was due to the rejection by the Legislative Assembly of the proposal to meet the cost of the transfer from the revenue surplus of 1934-35. Administrative approval and expenditure sanction were accorded in July 1935. Works to the total estimated value of 5,26 were entrusted to the Director of the Institute while works estimated to cost 30,74 (including departmental charges) were to be executed by the Central Public Works Department.

2. The following table shows the grant voted by the Assembly, the modified Appropriation and the actual expenditure in the year under review:—

Outlay co	mpared with
Ontobu 43	36 10 3

Original Grant.	Modified Appropriation.	Actual expenditure.	Original provision more + less —.	Modified appropriation more + less —.
27,65	20,66	20,81	-6,84	+15

3. The saving of 6,84 is nearly 25 per cent. of the original grant. A surrender of 6,99 was however made during the year (5,41 by the Chief Engineer, Central Public Works Department and 1,58 by the Director of the Institute). The surrender of 1,58 by the Director proved excessive and resulted in a final excess of 15 over the modified appropriation.

The savings compared with the original grant have occurred mainly under sub-head A. I and A. 2, due in the former case to the smaller area acquired for the Institute and in the latter to (1) postponement of certain works (2,64), (2) changes in designs and alignments, etc. (1,31) and (3) postponement of electrical installation till the buildings were sufficiently dry (1,46).

- 4. The savings appear to be partly due to the fact that the scheme had not been even approved administratively when the supplementary demand was made. The preparation of the detailed estimates and their technical sanction also took some time.
- 5. The excess over the final appropriation occurs mainly under sub-head A. 4. See notes below this sub-head in the Appropriation account.
- 6. It is also noticed that though the execution of certain works (Public Works Department portion) was decided to be postponed in July 1935, the funds provided therefor were not surrendered till December 1935. Similarly the surrender of other savings caused by delays in commencement of works due to changes of design, late sanctions of estimates and other difficulties was held up till March 1936, even though the fact that the full allotment would not be spent was probably apparent much earlier. The instructions in paragraph 3 of the Finance Department Memorandum of October 1935 (Appendix VIII to the last report of the Public Accounts Committee) were not apparently followed implicitly in this case.

Surrenders or withdrawals within Grant

1. The final saving in the voted section of the grant is mainly attributable to the variations under sub-heads C and E.

2. The total of Col. 2 against "Non-voted" actually comes to Rs. —28,000 against Rs. —32,000 as shown. The difference is due to the Port authorities not having taken into account the withdrawal of Rs. 4,000 by Government of India (Railway Board) on 27th March 1936.

The intimation was received by the Deputy Administrative Officer and the Traffic Manager after the reappropriation statements had been submitted for the sanction of the Administrative Officer.

- 3. A. &—Miscellaneous (including General Charges on Stores).—Col. 1.—In the Budget estimates the expenditure on general charges was provided for against the respective heads but the proportionate credit due from Revenue was provided for in lump sum against this head. As the correct accounting procedure required the credit to be afforded to the respective heads, the procedure was altered in the accounts of the previous year but the Budget had already been voted.
- 4. The detailed re-appropriation by works and departments, within the total re-appropriation made by the Administrative Officer could not be sanctioned by the Deputy Administrative Officer within the year as they were received by him too late. Further, the detailed re-appropriation statement did not show the appropriations under voted and non-voted separately.

Suitable instructions will be included in the Manual of Accounts to be issued, so that such irregularities may not recur.

5. There seems to have been an overbudgeting in this grant during the last two years. The variation between the original grant and actual expenditure increased from 20 per cent. in the previous year to 56 per cent. in the year under review. The Administration anticipated a saving and formally surrendered an amount of 5½ lacs during the year, but inspite of it there was a further saving of 1½ lacs or 22 per cent. of the amount kept by the Administration in their hands. This indicates an apparent deterioration in control.

The Administrative Officer, however, considers that the unusually high percentage of saving may naturally be held to infer increased financial control than reduced financial control, and that in view of the fact that savings arose mainly from adjustments which could not have been foreseen owing to the state of flux in which the Port accounts were situated during the period it is not considered that the charge of over budgeting could reasonably Le laid.

6. Out of the combined final grant for construction and Open Harbour Capital Expenditure, a sum of Rs. 55,000, was appropriated for open Harbour Capital and the remainder for Construction Capital Expenditure.

			Rs.
Expenditure against Construction Estimate		•	4,96,539
Expenditure against Open Harbour Capital Works	•		19,050
		-	5.15.589

#### VIZAGAPATAM HARBOUR STORES ACCOUNT FOR 1935-36.

			Opening balance.	Value received.		Depreciation or write-off.	Closing balance.
			Rs.	Rs.	Rs.	Rs.	Rs.
Stores			4,97,275	3,67,536	4,20,117	182	4,44,512

The usual Annual Verification of the Stock was made by the Audit Office Stock Verifier with the exception of a few classes of stores, which could not be done within the specified period fixed for the verification due to the death of the Stock Verifier. The Stock Verifier's reports show shortages valued at Rs. 9,923 and excesses valued at Rs. 10,451.

Review.—The balance of stores on 31st March 1936 is Rs. 4,44,512 as compared with Rs. 4,97,275 on 31st March 1935, thus showing a decrease of Rs. 52,763.

The Construction Project Estimate will close finally on 31st March 1937 when the stores in stock will have to be taken over by the Open Harbour. To this end, the stock should be classified broadly between stores required for Open Harbour and those not required for the Open Harbour. The latter will be disposed of to the best advantage and as regards the former, the value at which they may be taken over should be assessed, so that Depreciation may be charged to the Construction Estimate before it is closed.

The Port Engineer has stated that the sale of surplus stores and scrap materials is in progress and it is expected that the value of stores in stock will, in future, be reduced to less than four lakks of rupees.

Certified that the Vizagapatam Harbour Construction Stores Accounts for 1935-36 compiled by me is to the best of my knowledge and belief correctly prepared and that the Account has been audited in accordance with the rules in force.

VIZAGAPATAM,
The 22nd October 1936.

D. BLAKE,
Audit Officer, Vizagapatam Harbour Construction.

#### STATIMENT OF EXPENDITURE ON IMPORTANT NEW WORKS.

		Final	Actual	Balance.			
Service.		Appro-	Expenditure.	Unexpended.	Excess.		
1 .		priation. 2	3	4	5		
		Rs.	Rs.	Rs.	Rs.		
Vizagapatam Harbour Construction	•	11,63,000	4,96,539	6,66,461	,		

See Note 6.

Observations.—The original estimate of the Project sanctioned by the Secretary of State in March 1925 amounted to Rs. 2,23,00,000. The revised estimate sanctioned by the Governor-General-in-Council, in October 1933, increased the amount to Rs. 3,98,85,449. Under orders of the Government of India in the Railway Department, a completion estimate, as on 31st March 1935, amounting to Rs. 3,79,58,710 has since been prepared and submitted to the Railway Board for sanction. The actual expenditure on the Construction Project to end of 31st March 1936, amounts to Rs. 3,79,52,046 which leaves an un-expended balance of Rs. 19,33,403 and Rs. 6,664 as compared respectively with the sanctioned revised estimate and the completion estimate submitted for sanction. The expenditure includes a sum of Rs. 89,14,027 on account of Interest during Construction.

#### Notes.

1. Sub-heads B and D. 2.—These two sub-heads represent transactions in adjustment of pensionary claims between the Central Government (Civil) on one side and any of the following on the other:-

Madras, United Provinces, Punjab, Burma, Bihar and Orissa, Bengal, North-West Frontier Province and Defence Department.

- 2. Sub-head D. 1 .- This sub-head represents transactions in adjustment of pensionary claims between (1) the Defence Department on one side and any of the following Governments on the other :- Burma, Madras, United Provinces, Punjab, Assam, North-West Frontier Province, Central Government (Civil and Posts and Telegraphs Department) and Federated Malaya States Government, and between (2) the Posts and Telegraphs Department on one side and any of the following Governments or Departments on the other: - Defence Department, Central Government (Civil) and Madras.
- 3. The percentages of final savings in the voted and non-voted sections of the grant this year are -4.1 and -0.66 against +9.03 and +8.8 in 1934-35, and -5.06 and +1.7 in 1933-34. The final results therefore indicate an improvement over those of the previous years.

#### IMPORTANT COMMENTS.

Review of the Grant and its administration.—The following table shows the grant voted by the Assembly, the modified appropriation and the actual expenditure.

Outlay compared with Modified Original Sub-heads. Original Modified appro-Expengrant. piation. diture. approappropriation priation More + More+ Less-. Less—. (6)1 (2)(3)(4)(5)(In thousands of Rupees). A .-- Works New Major Work 27,76 16,69 16,49 -11,27---20 -18 14,21 14,03 -3,21Major Works in progress 17,24 21 21 -12Minor Works 33 . . B. Establishment— -6 4,51 4,45 ---2,00 (1) Establishment charges 6,45 (2) Medical Equipment of Irwin -19 Hospital 2,32 2,13 +2,1347 46 -21 --1 C .- Tools and Plant . 67 ---64 Total 52,45 38,41 37,77 -14,68

2. The large saving of 14,68 as compared with the original grant amounts to 27.99 per cent. of the said grant. This was, however, reduced to 1.22 per cent. by the surrender of 14,04 (1,36 in January 1936 and 12,68 in March 1936) out of the total savings, the corresponding percentage of variation with the final grant for 1934-35 was .63. An analysis of the variations under the several subheads as compared with the original grant shows that saving has occurred mainly in the case of "New Major Works," due principally to the postponement of the work of "Installation of water-borne sanitation in clerks' quarters" (4,50) and "Extension of sewers on account of the water-borne sanitation" (5,30), the estimates for which were sanctioned technically as late as January 1936 and April 1936 respectively.

There was also a saving of about 96 due to provision in the budget on certain schemes having been included on approximate costs, while a saving of 68 accrued on account of low tenders.

3. The Chief Engineer, Central Public Works Department considers that it is not so much a defect in system that is responsible for the savings as the fact that it is not easy to foresee the innumerable difficulties which are liable to crop up during the preparation of detailed estimates and execution of works of magnitude. While it is recognised that unforeseen factors do occur during the course of a year, it is for consideration whether provision of new works in the budget should not, as laid down in the rules, be made on the basis of carefully considered, administratively approved, and, if possible, technically sanctioned estimates, rather than on the basis of rough and approximate figures of cost. Where the latter basis has necessarily to be adopted, a suitable over head cut in the estimates might probably bring about a closer correspondence of the actuals with the estimates.

4. Irregularities in connection with contracts, etc.—In paragraphs I to 4 of the Important Comments under Grant No. 97-Delhi Capital in the Appropriation Accounts for 1934-35, attention was invited to the practice of calling for tenders for and commencing the construction of big works prior to the technical sanction of designs and estimates. The figures shown in that report included the works commenced during 1935-36 also. The Public Accounts Committee were informed that steps had been taken to obviate the recurrence of the irregular procedure in future. The Government of India have instructed the Chief Engineer, Central Public Works Department to take in all cases such time as he considers necessary for the preparation of proper estimates, the grant of technical sanctions, and the examination of tenders. to refrain from entertaining requests from Administrative Departments for special treatment, and to obtain the orders of the Government of India in emergent cases.

Cols. 1 and 4,—See C. 2.					
Total	82,18,000	84,87,613	+2,69,613		

#### Notes.

- 1. The final excess under the grant mainly occurs under sub-heads A 1, and D. 2(1) and was unforeseen.
- 2. Supplementary grants were obtained under this Demand for three years consecutively viz., Rs. 12,0,000 during 1935-36, Rs. 6,00,000 during 1934-35, and Rs. 2,00,000 during 1933-34. In spite of these supplementary grants, excesses occurred in the grant as a whole both during 1935-36 and 1934-35. It has however, been explained by the controlling authority that the expenditure covered by this grant is not susceptible of accurate estimation or close control.

#### Notes.

^{1.} The variations under sub-heads A. I and A. 4 (1) are mainly responsible for the large total saving (Rs. 1,06,43,911) in the grant out of which Rs. 78,47,000 was surrendered to Government in March.

2. Amounts totalling Rs. 7,21,000 were sanctioned out of the Reserve (sub-head B) to meet excess under the following sub-heads:—

											F'i	•	s in thouse of Rupees.
A. 3 (1)							•		•			•	2,00
A. 3 (3)		•							•				2,00
. 3 (7)	•	·	•		•								1
. 3 (8)			•	•	•		•						3.00
. 4 (2)	•	•					•						16
. 4 (2)	•	•	•	•		•	•	•	•	•	•	•	4
									Total			•	7 ,21
urrendei	red to	the (	Gover	nment	of In	idia	•			•	•	•	2,70
													9,91

The supplementation seems to have been unnecessary in the cases of sub-heads A. 3 (7), A. 4 (2) and A. 4 (3).

3. The figures of total savings in the grant for the last four years are shown below:—

				,		T10.
1935-36		•			•	1,06,43,911
1934-35						4,45,20,867
1933-34					•	1,74,81,789
1932-33					•	4,96,72,318

## IMPORTANT COMMENTS.

1. Loan to the Bahawalpur Darbar to Finance its share of expenditure on the Sullej Valley Project.—The expenditure booked against the revised sanctioned limit of the Loan of Rs. 12,50 lakhs to the Bahawalpur Darbar fell from Rs. 12,43 lakhs to Rs. 12,42 lakhs by the end of the year 1935-36 on account of credits for the value of Sutlej Valley Project Stock used on the State (Bahawalpur) works.

Final decisions on the points referred to in paragraph 1 of the important comments under Grant No. 99 on rage 414 of the last year's report have been reached.

The Bahawalpur Durbar made the following payments to the end of October 1936 towards the repayment of the loan:—

- (i) Rs. 15 lakhs on account of the first instalment of the loan due on 31st March 1936.
- (ii) Rs. 7.5 lakhs on account of the second instalment of the loan due on the 31st October 1936.
- (iii) Rs. 2,57,875 on account of sale proceeds of land and town sites.
- (iv) Rs. 5 lakhs on account of pre-payment as stipulated.*
- 2. Large outstanding claims against Indian States.—The outstanding balance of Rs. 34,14,895 on the 31st March 1935 relating to other state transactions as mentioned in paragraph 2 under Grant No. 99 on page 414 of the last year's report was reduced to Rs. 32,03,244. This reduced balance which relates to Bahawalpur State has, under the orders of the Government of India, been converted into a regular loan bearing interest at  $4\frac{\pi}{4}$  per cent. per annum and repayable in fifteen equated instalments of Rs. 3,03,414 each with effect from the 1st April 1936, the last instalment being payable on the 1st April 1950.

The balance of Rs. 4,76,376 relating to the transactions for 1935-36 has been recovered and adjusted during the year 1936-37.*

^{*} Accountant General, Punjab.
